CHAIRMAN'S STATEMENT

Engr. A.K.M. Mosharraf Hussain

Chairman, Board of Directors

Dear Shareholders,

On behalf of the Board of Directors, I have the pleasure to present the Annual Report of Jamuna Bank Limited for the year 2017.

The Board of the Bank is pleased that the Management team under the leadership of the Managing Director & CEO is executing a focused strategy, leveraging existing strengths and building new capabilities to harness evolving opportunities. We are very optimistic about the future, as the banking sector gradually overcomes challenges of recent years and we continue to pursue a balanced growth path.

The Bank has been able to show its enduring strength and experienced healthy growth in all key business parameters in 2017 while the year 2017 proved to be a challenging year for the banking sector in Bangladesh. In year 2017, deposits of the Bank have registered a growth of 18.38%, overall loans & advances growth was 21.48%, import growth was 20.72%, export growth was 8.26% and guarantee growth was 44.30%. Consolidated operating profit for the year ended 31 December was 4,389.88 million and growth was 3.91%, registered the highest growth since inception of the Bank.

Though overall economy of the country was relatively slow, banking industry continued to be under pressure due to risky investment, dearth of liquidity and rising NPL, yet Jamuna Bank was successful in maintaining its classified loan (CL) to a reasonable level compared to the industry with a growth in all segments.

We know our people are our best capital to add value and differentiate the bank from our competitors. We have invested on training to develop the capacity of the existing workforce and be the market leader. The Board of Directors through its strategic positioning approved several policies to nurture, stimulate and motivate talent to develop a strong resource

base. The Board of Directors of the bank is well aware the importance of technology and has invested heavily on the state-of-the-art technology platform to support our business growth and secure our data from external cyber threats.

Jamuna Bank has been a pioneer in the CSR activities since its inception through Jamuna Bank Foundation, which conducts multidimensional CSR activities regularly. Its activities encompass wide area e.g. Education, healthcare for the poor, alternative energy use, helping destitute, creating awareness against drug abuse, improving ethical and religious values, preserving national heritage, helping to overcome natural disaster and calamities, humanitarian services, improving the standard of living by creating job opportunities to the destitute, eradicate extreme poverty and hunger.

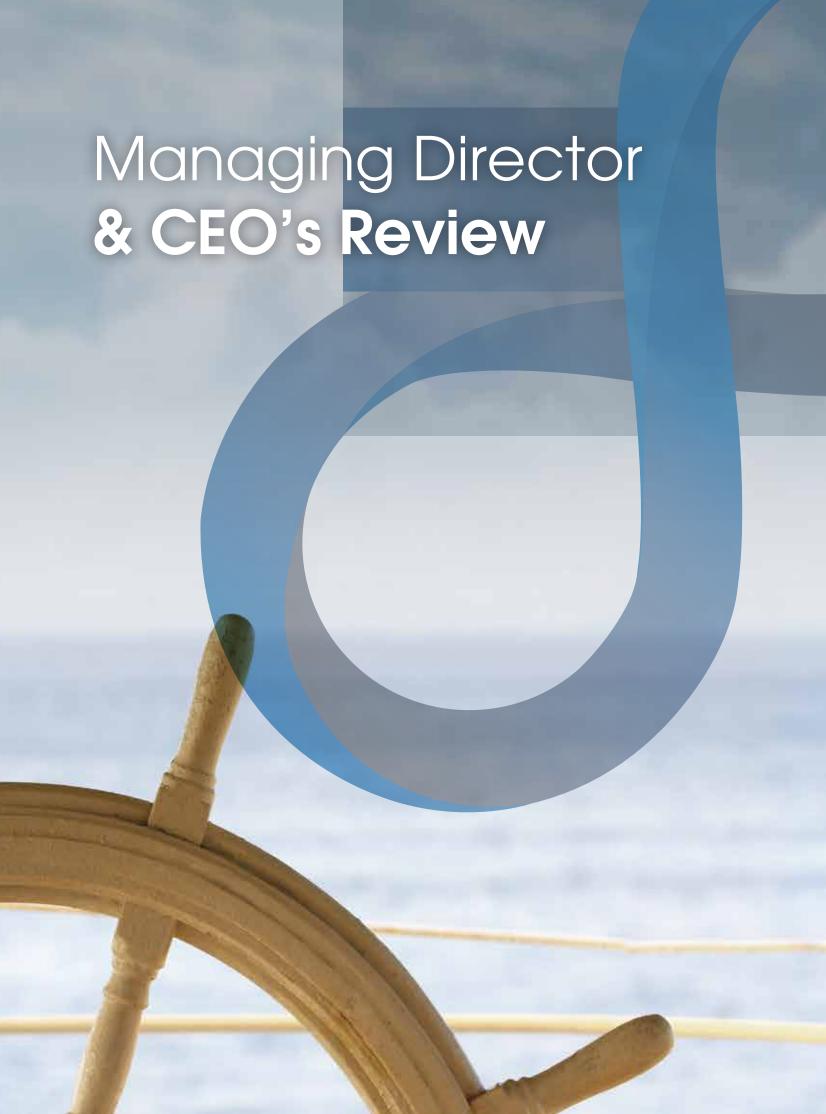

My sincere appreciations and gratitude to our honorable shareholders, stakeholders and valued customers of the bank for the abiding trust, confidence and cooperation they have shown on us. I wish to extend my thanks on behalf of the Board of Directors to our management team, line managers and employees of the bank for their dedication and hard work in achieving this excellent results.

Thank you once again for being with us.

OMMM.

MANAGING DIRECTOR AND CEO'S REVIEW

Shafiqui AlamManaging Director & CEO of Jamuna Bank Limited

Bismillahir Rahmanir Rahim Assalamu Alaikum

I am happy to report that 2017 has been yet another year of success for Jamuna Bank Limited. We continued to proceed in our sustained growth path and made good progress in major functional and business areas. While keeping a keen eye on the market we pursued a balanced approach to our growth, profitability and risk management. Consequently, our position has been strengthened with significant improvement in the key financial indicators, strong deposit base, stronger liquidity and healthy capital position.

While the market dynamics were relatively stable in FY 2016-17 and aligned to sustained growth of the economy, the banking sector in general and Jamuna Bank in particular made steady progress. Loan pricing was steady in single digit for most part of the year with high market liquidity which persisted throughout the year and consequently paved way for increased investment and economic activities. However, Jamuna Bank's calculated and cautious approach in increasing the loan portfolio particularly to the large corporate segment, reduced the risks and was thus able to close the year with impressive earnings. We have delivered excellent value to shareholders through a total shareholder return of 96% from 2013 to 2017. We have been resilient to shocks which was aptly evident during the latter part of the year when there was strong pressure on liquidity from the market. Our strategy of not to be too reliant on Corporate or Government Deposit have held on us in good stead at a time when the markets faced a little tighter liquidity situation.

Accretion of deposits and loans were 18.38% and 21.48% respectively in 2017 with imports and exports increasing by 20.72% and 8.26% respectively. Although spread reduced slightly in 2017, our strategy to increase interest income using other investment options worked well to increase net interest margin and keep the profit level steady. In increasing our business we kept strong vigilance and managed associated risks well, in order to maintain a low level of NPL. Consequently we were able to contribute significantly to maintain adequate capital. Bank's regulatory capital stood at Tk.1989.41 crore (Solo) as on 31st December, 2017 (up by Tk. 408.49 crore from the position as on 31st December, 2016). Capital Adequacy Ratio (CAR) under Basel III on 31st December, 2017 worked out at 11.86% against a minimum requirement of 11.25%.

We are focused on increasing SME business which is included in our 5 years' strategic plan. Our objective is to build a loan port-folio of a balanced blend of corporate, SME and retail business, diversified lines of business, geographical spread and loan size. Although a major part of our business is still to corporate clients, we, nonetheless, made quite major inroads in the SME market and increased our business by over 30%. We are looking forward to continue the trend and increase SME loans by at least 25% year-on-year basis. Our corporate clients are constituted largely by manufacturers accounting 40% including RMG & Textile industries which accounted for 16%. Other significant segment is service sector, accounting for 24% of the corporate loan port-folio. Retail business is another area of interest considering its huge potential and we have reorganized the functional set up to push the business up. Besides, with stronger loan work out strategies and strengthened risk management framework put in place, we were able to make efficient management of NPL reducing the NPL ratio to 4.02%.

To further modernize our banking system incorporating state-of-the-art technology, steady progress has been made in implementing TCS BaNCS core banking solution. We expect to roll out the platform in 2018. Meanwhile, we are continuously improving on our client experience of easy, online, technology driven banking environment within existing set-up by providing value added services such as SWIFT, ATM, National Payment Switch, VISA card, Mobile Financial Services, SMS banking, Internet banking, BACH & EFTN, RTGS to our valued clients in a highly secured manner. We are expecting that the transformation and implantation of the CBS will enable our clients to enjoy the most modern, secured and versatile real time online solution to meet most of their banking needs.

Jamuna Bank believes in its responsibility to serve the larger community in which it operates and derives benefits for the shareholders. Our obligation is to carry out our business in a way which not only provide returns for our shareholders but also delivers good things for society. CSR activities carried through Jamuna Bank Foundation covers wide range of programs for the people who are poor, under-privileged and the down trodden. These include education support, health care, disasters relief, help cold-stricken people with warm clothes, arrange blood donation, anti drug awareness

campaign, arrange seminars for awareness on various issues etc. The activities have been widely regarded as one of the most comprehensive social benefit programs by a bank.

The economy of Bangladesh continued to progress in FY 2016-17 showing increases in GDP, per capita national income, gross investment and satisfactory revenue receipts. GDP growth rate stood at 7.28%. Keeping in line with the medium term macro- economic framework (MTMF) 2018-20 and projected average GDP growth rate of 7.6%, Investment is expected to be 34.5% of GDP in 2019-20 which is predicted to be driven mainly by private sector investment, estimated at around 25.4% of GDP. Banks are therefore optimistic about the market and business in the years ahead. The continuing slide in deposit and lending rates during 2017 which reduced the interest rate spread as well, however, is likely to continue to remain a critical factor in the years. I am confident that with its stronger risk management capabilities, customized banking solutions, professional approach and existing customer confidence, Jamuna Bank will be in a better position to achieve planned business and continue in its growth path in 2018.

Let me express our deepest gratitude and thanks for all the co-operation and support the Honorable Board of Directors of Jamuna Bank Limited so generously extended in our efforts to raise the bank to this current level. Doubtless, this achievement would not possible had there not been the guidance, policy support and vision from the Honorable Board of Directors. I also thank the valued customer for having faith in us and extend all co-operation. Last but not least, I laud the role of my colleagues, who have always been proactive, focused for creating a positive experience for the customer, committed and enterprising to the cause and development of the bank.

.

MARKET VALUE ADDED (MVA) STATEMENT

for the year ended 31 December, 2017

Market Value Added (MVA) is the difference between the current market value of a company and the capital contributed by the investors. Higher MVA is better for the organization. A high MVA indicates that the company has created substantial wealth for the shareholders. A negative MVA means that the value of management's actions and investments are less than the value of the capital contributed to the company by the capital market.

REPORT ON GOING CONCERN STATUS

The Going Concern Principle

The going concern principle is the assumption that an entity will remain in business for the foreseeable future. Conversely, this means the entity will not be forced to halt operations and liquidate its assets in the near term at what may be very low fire-sale prices. By making this assumption, the accountant is justified in deferring the recognition of certain expenses until a later period, when the entity will presumably still be in business and using its assets in the most effective manner possible.

An entity is assumed to be a going concern in the absence of significant information to the contrary. An example of such contrary information is an entity's inability to meet its obligations as they come due without substantial asset sales or debt restructurings. If such were not the case, an entity would essentially be acquiring assets with the intention of closing its operations and reselling the assets to another party.

If the accountant believes that an entity may no longer be a going concern, then this brings up the issue of whether its assets are impaired, which may call for the write-down of their carrying amount to their liquidation value. Thus, the value of an entity that is assumed to be a going concern is higher than its breakup value, since a going concern can potentially continue to earn profits.

The going concern concept is not clearly defined anywhere in generally accepted accounting principles, and so is subject to a considerable amount of interpretation regarding when an entity should report it. However, generally accepted auditing standards (GAAS) do instruct an auditor regarding the consideration of an entity's ability to continue as a going concern.

The auditor evaluates an entity's ability to continue as a going concern for a period not greater than one year following the date of the financial statements being audited. The auditor considers (among other issues) the following items in deciding if there is a substantial doubt about an entity's ability to continue as a going concern:

- Negative trends in operating results, such as a series of losses
- Loan defaults by the company
- Denial of trade credit to the company by its suppliers
- Uneconomical long-term commitments to which the company is subjected
- Legal proceedings against the company

If there is an issue, the audit firm must qualify its audit report with a statement about the problem.

It is possible for a company to mitigate an auditor's view of its going concern status by having a third party guarantee the debts of the business or agree to provide additional funds as needed. By doing so, the auditor is reasonably assured that the business will remain functional during the one-year period stipulated by GAAS.

Management's responsibility

The concept of going concern is particularly relevant in times of economic difficulties and in some situations management may determine that a profitable company may not be a going concern, for example because of significant cash flow difficulties. In order to conclude as to whether, or not, an entity is able to continue in business for the foreseeable future, management will have to make judgments on various uncertain future outcomes of events or conditions. There are three factors that are relevant and which management must take into consideration when determining whether, or not, an entity can prepare the financial statements on the going concern basis:

- The degree of uncertainty associated with the outcome of an event or condition increases significantly the further into the future an event or condition or the outcome occurs. For that reason, most financial reporting frameworks that require an explicit management assessment specify the period for which management is required to take into account all available information.
- ▶ The size and complexity of the entity, the nature and condition of its business and the degree to which it is affected by external factors affect the judgment regarding the outcome of events or conditions.
- Any judgment about the future is based on information available at the time at which the judgment is made. Subsequent events may result in outcomes that are inconsistent with judgments that were reasonable at the time they were made.

Auditor's responsibilities

As mentioned earlier, it is not the auditor's responsibility to determine whether, or not, an entity can prepare its financial statements under the going concern presumption; this is the responsibility of management. The auditor's responsibility is to obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation of the financial statements,

and to conclude whether there is a material uncertainty about the entity's ability to continue as a going concern.

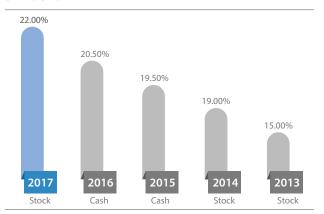

Position of Jamuna Bank Limited (JBL):

The management of Jamuna Bank Limited has prepared financial statements of the bank for the period ended on or after December 31, 2017 on a going concern basis in conformity with Bangladesh Financial Reporting Standards (BFRSs), Companies Act 1994, Securities and Exchange Rules 1987, the Bank Companies Act 1991(as amended in the year 2018) and the rules and regulations issued by Bangladesh Bank. In the Independent Auditors' Report of the external auditor, the consolidated financial statements of the Group and also separate financial statements of the bank give a true and fair view of the consolidated financial position of the group and the separate financial position of the bank as at 31 December 2017, and of its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs) as explained in note 2 of Financial statements.

The global economy is experiencing a cyclical recovery, reflecting a rebound in investment, manufacturing activity, and trade. This improvement comes against the backdrop of benign global financing conditions, generally accommodative policies, rising confidence, and firming commodity prices. Global growth is estimated to have grown by 3.7 percent in 2017 and the forecast for 2018 has been revised up by 0.2 percentage points to 3.9 percent, supported by higher investment, trade, and industrial production, coupled with increasing business and consumer confidence. The pickup in global growth in 2017 reflects firmer domestic demand growth in US, Euro area, Canada and Japan among the advanced economies and China, emerging Europe, and Russia among the emerging market and developing economies. Looking ahead, during 2018, global growth is expected to receive support from the strengthening recovery in the euro area from rising exports amid stronger global trade performance. It is also expected to benefit from strong domestic demand, aided by supportive financial conditions and lower political risks. Japan is expected to benefit from global demand and supportive fiscal stance. China grew by 6.8 percent in 2017, underpinned by prior policy easing and some supply-side reforms. In the rest of emerging market and developing Asia, growth is expected to be strong. In India, growth in 2018 is projected to rise to 7.4 percent, up from 6.7 percent in 2017. The cyclical growth recovery in the Euro area, USA, and Canada, the main export destinations of our readymade garments, is expected to have a favorable impact on our export performance. Despite the optimistic forecast, the World Bank warned that risks to the outlook remain tilted to the downside, which includes an abrupt tightening of global financing conditions, escalating trade restrictions and rising geopolitical tensions. Besides, Global Economy facing few challenges i.e. (1) Climate change / destruction of nature (2) Large scale conflict / wars (3) Inequality (income, discrimination) (4) Poverty (5) Religious conflicts (6) Government accountability and transparency/corruption (7) Food and water security (8) Lack of education (9) Safety/ security/ well being (10) Lack of economic opportunity and unemployment.

Bangladesh Economy: A Brief Review & Outlook

Bangladesh's economic performance in the immediate past year was somewhat mixed with a number of macro-indicators doing well and some others showing signs of weaknesses. Its gross domestic product (GDP) growth performance was impressive at over 7.0 per cent. There are however different views about how the country's GDP is calculated with sceptics having their reservations for the official data on its

economic growth rate. The country's export performance and remittance earning were well below expectations in 2017. After many years, its overall balance of payments (BoP) turned negative; the economy faced inflationary pressure in the final months in 2017, mainly due to surge in prices of rice and some other essentials. The major sore point of the economy experienced in 2017 was the unabated rise in soured assets of the country's banks and poor financial health of most public sector banks and a number of private ones, including those which started their journey not long ago.

Investment and private-sector credit-growth situation, as the official data indicate, showed improvements in 2017 over the corresponding levels of 2016. The government's net borrowing from the banking system was in the negative as it got more than enough through sales of its savings instruments. The country faced a major humanitarian crisis in the second half of 2017 when more than 0.6 million Rohingyas from neighbouring Myanmar entered its territory to escape ethnic persecution there. The influx has stirred up major international condemnation; the two governments are now in the midst of an intense negotiation on starting the repatriation of the Rohingyas to their homeland.

In the year 2017, there were natural calamities as well, with their adverse impacts on the economy and people's livelihoods. Two spells of devastating flooding damaged standing crops and subsequent agriculture, resulting in shortage of rice and some spices and price rises. Prices of the staple food hit an all-time high on the local market, so did onion prices. Spiraling retail prices of two essential commodities -- rice and onion -- hit hard limited- income group of people. The government cut down tariffs on import of rice to augment supply of the staple, but to little effects. Also, there was hardly any tangible price control of onion, which persists at the same level of around Tk.80 a kilogram despite new arrivals on the market.

Bangladesh came into world focus by a quirky happening – Rohingya minority people flooding in to escape persecution at home in Rakhine state of neighbouring Myanmar. As of December 2017, an estimated 655,000 Rohingya fled to Bangladesh in a fresh influx amid crackdown by military-men and predators. There are also 300,000 more already living in Bangladesh since earlier influxes. Rohingya repatriation figured as a big issue later in the year, as the United Nations repeatedly adopted resolutions while China and Russia vetoed the motions and headed off the two countries to the discussion table for an amicable solution through bilateral dialogue.

The cost of living rose by 8.44 per cent in the city last year that that of 2016 due to soaring prices of rice, edible oil, vegetables, gas and other services, according to Consumers Association of Bangladesh (CAB). Market syndication, lack of government monitoring, weak import policy and natural calamity were responsible for such a rising trend in prices of commodities.

The much-talked-about VAT Act 2012 failed to sail through in the year despite the fact that national budget statement had announced its launch from the first day of the current financial year, 2017-18. The government backtracked on implementing the tax law following obstruction from a section of businesses. The capital market witnessed an upward trend, with its benchmark index rising over 6,000 points.

Bangladesh got international recognition of hilsha fish as geographical indication by the World Intellectual Property Organisation. Jamdani, Bangladesh's one of the finest textiles, bagged the country's first geographical indication product certification.

On the socio-political front, the situation is featured by a relaxation of tensions with some eruptions in militancy tackled and major political parties like the ruling Awami League and the beleaguered BNP celebrating some national events with mammoth rallies, albeit as next elections draw near.

In a landmark development, the UNESCO recognized Bangabandhu Sheik Mujibur Rahman's historic 7th March speech as a world documentary heritage.

Bangladesh Economy Outlook

The year 2018 will be a turning point for Bangladesh in many ways. Bangladesh will prepare to graduate from the least developed country status in 2018. It will also continue its efforts toward becoming a middle-income country. Additionally, it will continue to implement the sustainable development goals (SDGs). These will hinge on a number of factors such as accelerated resource mobilisation, higher investment, efficiency in infrastructure implementation, skilled human resources and strong institutional set up.

The country enters the New Year which in all likelihood will prove challenging, both politically and economically. The next national election is scheduled for the final months of this year or the first month of 2019. It is hard to rule out political troubles, ahead of it, in the event of persistence of disagreement over the process of its holding. Its economy could be a major casualty, as it happened during past elections, of political rivalries. Let's hope it does not happen this time. Unbridled corruption, tax evasion, capital flight, poor governance, regulatory failures, institutional malfunctioning etc., can further compound problems on the country's economic front, particularly about its growing income inequality.

Banking Industry in 2017 & Outlook

Most of the private banks' operating profits soared -- ranging between 10 percent and 60 percent -- in the outgoing year on the back of a resurgence of demand for credit from the private sector. The upward trend of private sector credit growth in recent months helped banks record handsome profits for 2017. Besides, banks' export and import business grew this year. The banking sector's liquidity base had remained

stable in 2017, which, enabled the lenders to disburse credit uninterruptedly. The cost of deposits was also lower last year. This also helped in generating profits.

A severe governance crisis caused the industry to face a record increase in non-performing loans (NPL), financial scams and liquidity shortages. Bad loans and recapitalization in the banking sector, especially in the state-owned banks, have always been a cause for concern in Bangladesh. As in previous years, state-owned banks were the worst performers as they failed to improve their health in 2017. Bangladesh Bank data shows NPL of eight state banks were Tk.44,126 crore or 55 percent of the total. Some 40 private banks and nine foreign banks together have Tk.36,271 crore NPL. Together, the state-owned banks had a capital shortfall of Tk.12,683 crore at the end of June 2017 despite the government's injection of Tk.2.000 crore.

First generation lender AB Bank's \$20 million money laundering to accounts of a bank in the UAE revealed was another major scandal.

The year 2017, began with major changes in the shariah-based Islami Bank Bangladesh. Issues pertaining to changes to different banks' boards -- concomitant with major developments in the banking circles -- continued to prevail round the calendar year. Arastoo Khan, a former bureaucrat, was put at the helm of the bank in the first week of the outgoing year. Social Islami Bank Limited, another shariah-based bank, also saw a dramatic management shakeup. Seven directors of the private-sector bank resigned from their posts on 'personal grounds'. Four of the SIBL directors were independent while three others were shareholders of the bank.

The Farmers Bank has been facing a liquidity crisis and depositors are now seriously concerned over getting back their deposits. Earlier, sometime in November, former home minister Dr Mohiuddin Khan Alamgir was made to resign as chairman of the Farmers Bank board of directors and executive committee. Another member of the board, Mahabubul Haque Chisti, also stood down from the post of chairman of the FBL audit committee. A press release issued by the central bank said that these changes came in line with regulatory measures to strengthen the bank facing liquidity crunch.

In a major event amid stories of alleged forgeries and irregularities in the banking circles, the Anti-Corruption Commission (ACC) quizzed former chairman of the stateowned BASIC Bank, Sheikh Abdul Hye Bacchu. Besides, Chairman of AB Bank -- M Wahidul Haque and its two directors stepped down from the bank's board in December. The two others are Vice-Chairman Salim Ahmed and director Faheemul Huq.

Some incidents of voluntary retirement from bank boards and removal of CEOs by the central bank also featured the chronicles of the calendar year. AB Bank and Farmers' Bank

are among them. The Bangladesh Bank removed Managing Director of the Farmers Bank Bangladesh Limited (FBL) AKM Shameem later in the year.

Experts have questioned the failure of the central bank and the finance ministry to deal with such a crucial sector. And the government's plans to allow three more banks have become controversial in 2017.

Banking Industry Outlook

High credit growth amid tightening liquidity in the banking system, strong import growth with a smaller overall BoP (balance of payments) balance, and the rising trend in food inflation warrant a cautious macroeconomic management for preserving monetary and financial stability in FY 18. The Bangladesh Bank (BB) also indentified downside risks like any shock to remittance inflow and export due to growing political uncertainty in the Middle East. The central bank, however, predicted that political and macroeconomic conditions are likely to be broadly stable in the fiscal year (FY) 2017-18.

On the other hand, the country's private commercial banks (PCBs) are facing liquidity crisis at the moment because of distributional problem. However, it happened mainly due to higher credit growth than that of deposit within PCBs. The overall credit growth in the banking system recorded a higher growth than that of deposit one in the last three years which is the main cause of the current liquidity stress of the banks. The deposit growth had been on a slide, falling from 13.13 per cent on December 31, 2016 to 10.60 per cent as on December 31 last calendar year. It was 13.66 per cent as on December 10, 2015. On the other hand, credits rose to 18.08 per cent, as on December 31, 2017 from 15.32 per cent a year before. It was 12.74 per cent as on December 10, 2015.

Besides, country's classified loans to total outstanding rose to 9.31 per cent in 2017 from 9.23 per cent a year ago. A total of over 0.127 million different types of cases involving over Tk.1.70 trillion were filed against the clients for non-payment of loan disbursed by all the scheduled banks and non-banking financial institutions until December 31, 2017.

To improve this situation, banking sector need a strong judiciary support to speed up recovery process of classified loans which would help improving financial health and growth of the banks. A separate bench may be formed under the High Court to deal with only default loan issues. Besides, the functions of Artha Rin Adalats (Money Loan Courts) should be strengthened across the country for settling the cases within the shortest possible time-frame. Currently, it takes about eight to nine years to settle a case. This encourages defaulters to take the legal routes instead of coming to bank for negotiation.

By doing this the inflow of loan-able funds will be increased in the banking system and amount of NPL will be reduced. Besides, we have to take strong measures both socially and legally against the loan defaulters for bringing down the amount of NPLs at a reasonable level. If we look to the other countries, different measures have taken by different countries to reduce the NPL, such as Nepal has already been able to bring down their NPLs less than 2.0 per cent reportedly while China has imposed bar on their loan defaulters for commuting bullet train. Some other neighbouring countries like India are also thinking to impose social restrictions on defaulters.

Regarding the foreign-exchange market, nominal exchange rate depreciated in line with the market forces. In order to avoid any disruptive fluctuations in the foreign- exchange market, the BB supported to smooth large fluctuations.

Alongside, five critical challenges for the Bangladeshi economy in 2018.

- (1) Political uncertainty looming over national election which can further affect private investment. This year will be difficult year for the PCBs because businessmen are likely to follow a 'go-slow' policy in either expansion of their businesses or setting up new businesses;
- (2) rising food inflation;
- (3) being on track with respect to SDGs;
- (4) challenge of growth of exports and remittance and
- (5) finally governance issues around the banking sector. As Bangladesh is now progressing fast to its coveted goal to be a middle income country by 2024, this is the high time to improve the overall governance issues with establishing transparency to achieve desired sustainable development goal. Regulators may think of arranging different training programmes for the policy makers as well as senior management of the banks to ensure that everyone is on the same page.

Profitability and performance of the Bank

Jamuna Bank recorded operating profit of Tk.4,335.41 million in 2017 (solo) with a growth of 3.73% against previous year. We had to devote a lot of effort to achieve the growth. As a result of its strong commitment to improve its efficiency and profitability ensuring compliance of all regulatory requirements, the Bank consistently improved its performance. Furthermore, the Bank maintained its financial strength through sound risk, liquidity and capital management. Bank's performance was accomplished mainly from downsizing of loan loss, sticking to core banking business, consolidation of business mix with expanded pie on textile sector, efficient cost management as well as appropriate strategic choice.

Our overall position for the year 2017 suggests that our achievement particularly revenue basket was more viable that we have expected. Bank's Net Interest Income increased by 49.28%, Net Non-Interest Income increased by 29.24%. Although, Investment Income was decreased during the year, total operating income increased by 3.73%.

On the balance sheet side, the total assets of the Bank Tk.181,625.17 million showing up an increase of Tk.13,206.86 million from Tk.168,418.30 million of 2016. The Growth was achieved in Loans and advances by 21.48%. Deposits also showed a growth of 18.38%. The Bank continued to have capital adequacy at 11.86% in accordance with Basel-III requirement. Liquidity maintained a comfortable position with liquid assets (Cash, Balance with other banks and financial institutions, money at call, treasury bonds and tradable securities) forming 25.05% of total assets. The Bank could maintain an effective control on Loan to Deposit ratio at 84.89% at the year-end.

During the year 2017, the NPL Ratio of the Bank decreased to 4.02% from previous year's 4.05%. Special efforts are being made by forming various Recovery Task Forces during the course of the year, which were further intensified during the last quarter of the year and it helped to reduce the impact of the stressful economy on NPL to a moderate extent comparing to the industry.

Review of Internal Control System

Jamuna Bank has established an effective organizational structure to maintain strong internal control culture by properly complying with Bangladesh Bank Guidelines and implementing JBL ICC policies through the resources of the ICC Division.

Control Environment:

The control environment is the foundation on which an effective system of internal control is built and operated in an organization that strives to (1) achieve its strategic objectives, (2) provide reliable financial reporting to internal and external stakeholders, (3) operate its business efficiently and effectively, (4) comply with all applicable laws & regulations, and (5) safeguard its assets. Control environment of JBL has been designed to protect the interest of all the stakeholders of the Bank in the best possible way.

Risk Management:

As Board of Directors, its Executive Committee, Audit Committee, Risk Management Committee, Management Committees, Management Units keep constant watch in risk management the ICC Division contributes making the job more effective and successful. This Division independently verifies that all the branches/divisions are conducting their business in compliance with all approved risk management and internal control policies. If deviations are found, they are reported and got corrected to mitigate risk on a continuous basis. Thus, ICCD ensures the Board that the Bank is operating in compliance with all approved and established policies.

Segregation of Duties:

Internal Control & Compliance Division (ICCD) of the Bank is comprised of 03 (three) interrelated wings/units, namely i) Audit & Inspection Department, ii) Monitoring Department and iii) Compliance Department.

Audit & Inspection Department: This department conducts comprehensive/surprise/special inspection on branches and different divisions/units of Head Office in line with the yearly audit plan as approved by the Board of Directors. The division has already chalked out the Audit Plan for the year 2017 covering all the branches and divisions of the Bank as per ICC guidelines of Bangladesh Bank.

Monitoring Department: It monitors and reviews the operational performance of various branches like off-site supervision through quarterly operation reports (QORs), loan documentation checklists (LDCs), departmental control function checklists (DCFCLs), etc. as part of their off-site

supervision activities. If any major deviation is found, this department recommends the Head of ICCD for sending inspection team to the concerned branch for thorough review. Besides, they prepare Memo for the Audit Committee of the Board and subsequently, communicate their instructions to the branch/division for prompt implementation.

Compliance Department: The primary responsibility of this department is to ensure full compliance of the regulatory requirements including directives of Bangladesh Bank, National Board of Revenue (NBR), Bangladesh Securities & Exchange Commission (BSEC), Registrar of Joint Stock Companies & Firms (RJSC), Ministry of Finance, etc. having significant impact on the bank's business. Compliance is a continuous process. For this, our control system has been designed in such a way that compliance with all the relevant requirements is maintained in each activity of the Bank. The Board of Directors and the Senior Management of the Bank have developed a high ethical and moral standard to ensure strong compliance culture.

Accounting Information and Reconciliation:

A proper system and environment has been established in the Bank to provide accurate and updated accounting information and proper reconciliation of accounts on timely basis.

IT security:

IT security is the protection of information systems from theft or damage to the hardware, the software, and to the information on them, as well as from disruption or misdirection of the services they provide. It includes controlling physical access to the hardware, as well as protecting against harm that may come via network access, data and code injection, and due to malpractice by operators, whether intentional, accidental, or due to them being tricked into deviating from secure procedures.

IT security is composed of computer security & Network security. At present scenario most of the crime occurred

through the Network. Network security management including access rights, end point security, firewalls, intrusion prevention/detection, network access control, security monitoring and wireless security. Jamuna Bank Management is very much concern regarding the IT security and taken all kinds of initiative as per ICT security guide line of the regulator.

Jamuna Bank Ltd. started its Banking operation since June 2001 with the Core Banking solution (CBS) called "Flora Bank". Till date this software is providing all sorts of banking services to the valued clients of the Bank. In the CBS – the User security is being maintained in compliance with the ICT security guide line of the regulator.

JBL has the ATM services network having 243 Nos. of own ATMs. JBL has deployed the enterprise security solution for the Data and information security of the Bank. We have the real time replication system to maintain Data redundancy to mitigate the Data loss risk. We have a Disaster Recovery site (DRS) to ensure the banking operation at the time of any failure of the main Data center (DC).

Self-Assessment/Monitoring:

While conducting comprehensive/surprise/special inspection on different branches the Audit & Inspection Division evaluates, assesses and gives risk rating of the branches in the reports and submits to the Audit Committee of the Board for their further evaluation and recommendation.

Furthermore, according to the provision of DOS circular letter no.17/2012 of Bangladesh Bank, JBL has started its self-assessment (on the effectiveness of anti-fraud internal controls) activities to report to Bangladesh Bank timely.

Sustainability

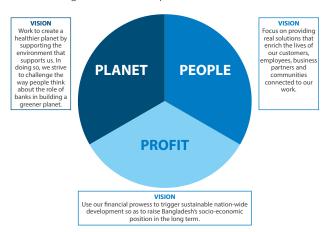

JBL's ambition is to create long-term value from a financial, ethical, social and environmental perspective. Sustainability for us means that we take responsibility for how we conduct

our business, how it affects our customers, employees, shareholders and society at large. JBL takes a broad business approach and we strive to address sustainability issues that are relevant and meaningful for JBL as a bank and the markets in which we operate.

Our stakeholders' feedback is instrumental to the success of our sustainability work. We aim to identify and seize opportunities for positive impact as well as avoiding adverse impacts through JBL's own activities or through our financial products and transactions.

As a bank and financial institution we believe that we can achieve the most effective positive impact by focusing on:

- Going to a leading position in green finance that promotes climate friendly and resource efficient solutions.
- Sustainable investments that combine financial value and positive impact on the environment and society.
- Supporting entrepreneurship to drive sustainable economic development and new jobs.
- Reducing our carbon footprint.

We are striving to reinvent ourselves as a more sustainable business and sharpen our competitive edge in the market. Therefore, we have begun gauging the consequences of our actions and taking responsibility for how our business decisions affect our shareholders, regulators, customers, employees, suppliers and service providers, society and the environment. Our ultimate goal is to be able to derive and sustain economic, social and environmental value, long into the future.

To bridge the gap between where we are now and where we want to be, we have adopted a 360° sustainability matrix that begins with our stakeholder engagement mechanism where we identify key sustainability trends and determine the opportunities and threats arising there from. These are embedded into our corporate objectives via our strategic planning process and then carried out on a day-to-day basis under the purview of our governance, risk management and product stewardship pillars.

Our Ethical Policy to Sustainability:

Trade and social involvement

We will seek to support and encourage:

- ▶ The business of organizations which promote the concept of fair trade;
- Business customers and suppliers to take a pro-active stance on ethical sourcing with any Third World suppliers they may use;
- Organizations participating in our social economy, e.g. co-operatives, credit unions and charities
- Suppliers whose activities are compatible with our Ethical Policy

In addition:

- We will ensure that our financial services are not exploited for the purpose of money laundering relating to the proceeds of drug trafficking, terrorism and other serious crime;
- We will not participate in currency speculation which consciously damages the economies of sovereign states;

Human rights

We will not invest in or provide financial services to:

- Any organization which oppresses the human spirit or takes away the rights of the individual
- Manufacturers of torture equipment or other equipment that is used in the violation of human rights.

The arms trade

We will not invest in or provide financial services to any business involved in the:

- Manufacture
- Sale
- Licensed production
- Brokerage of armaments to any country which has an oppressive regime.

Ecological impact

We will encourage business customers to take a proactive stance on the environmental impact of their own activities and will invest in companies that avoid repeated damage to the environment

In line with the principles we will not invest in any business or organization that, as a core activity, relies on:

- The extraction or production of fossil fuels, which contribute to problems such as global climate change and acid rain;
- The manufacture of unnatural chemicals which may contribute to problems such as ozone depletion, or which may accumulate in nature;
- The unsustainable harvest of natural resources such as timber clearance, which leads to deforestation.

Customer consultation

We will regularly re-appraise customers' views on these and other issues and develop our ethical stance accordingly.

From time to time we seek to represent our customers' views on the issues contained within our ethical policy and other ethical issues.

On occasion we will make decisions on specific business ethical issues not included in our ethical policy. The details discussion on the bank's "Sustainability Report" has been presented in this annual report.

CORPORATE GOVERNANCE REPORT

Corporate Governance can bring investors' trust by ensuring compliance of laws, transparency, accountability, responsibility and fairness. By maintaining compliance continuously for long term, it can benefit the major stakeholders including shareholder, vendor, customer, government, society and employees to keep trust on financial disclosures as well as strengths of the company

Banks are vital elements in any economy. Banks keep deposit from various parties and provide loans to different parties. The amount of their loans is far bigger than their capital. Banks do business with the money of other peoples. Thus the risk of the banking sector is actually the risk of those peoples who make deposit with them.

Corporate Governance ensures to bring transparency, accountability and professionalism in the management system of a corporate body that enhances the credibility and acceptability to the shareholders, employees, potential investors, customers, lenders, governments, regulators and all other stakeholders.

The responsibilities of the Board of Directors of a bank-company are more important than those of other companies; because in case of a bank-company it is essential to earn and maintain confidence of the depositors as its business is mainly run with the depositors' money.

Key Constituents of Corporate Governance

Corporate governance contributes to the efficiency of organization enabling them to compete in a sustained way. Corporate governance plays an important role in maintaining integrity in the organization and to manage the risk of the organization. It is a crucial system which guides, monitors and controls the organizational functions. The three important constituents of corporate governance are:

The important role in the system of the corporate governance is performed by the Board of Directors. The board is accountable to the stakeholders and directs and controls the management. It stewards the company, sets its strategic aim and financial goals and oversees their implementation, puts in place adequate internal controls and periodically reports the activities and progress of the company in a transparent manner to all the stakeholders.

The board is accountable to the stakeholders and directs and controls the management. It stewards the company, sets its strategic aim and financial goals and oversees their implementation, puts in place adequate internal controls and periodically reports the activities and progress of the company in a transparent manner to all the stakeholders.

The important role of the shareholders is to hold the board accountable for the proper governance of the company by enabling the board to provide them periodically the required information in a transparent manner about the activities and progress of the company.

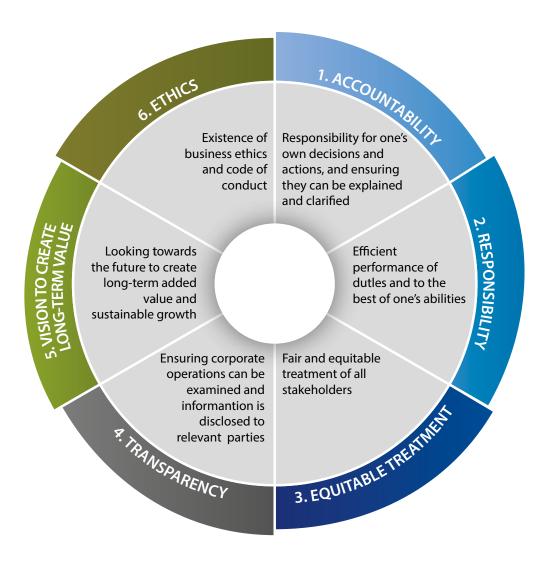

The Management has the responsibility to undertake the management of the organization in terms of the direction provided by the board, to put in place adequate control systems and to ensure their operation and to provide information to the board on a timely basis and in a transparent manner to enable the board to monitor the accountability of management to it.

Common Principles of Corporate Governance

Commonly accepted principles of corporate governance include:

- Prights and equitable treatment of shareholders:

 Organizations should respect the rights of shareholders and help shareholders to exercise those rights. They can help shareholders exercise their rights by effectively communicating information that is understandable and accessible and encouraging shareholders to participate in general meetings.
- Interests of other stakeholders: Organizations should recognize that they have legal and other obligations to all legitimate stakeholders.
- Role and responsibilities of the board: The board needs a range of skills and understanding to be able to deal with various business issues and have the ability to review and challenge management performance. It needs to be of sufficient size and have an appropriate level of commitment to fulfill its responsibilities and duties.

- Integrity and ethical behavior: Ethical and responsible decision making is not only important for public relations, but it is also a necessary element in risk management and avoiding lawsuits. Organizations should develop a code of conduct for their directors and executives that promotes ethical and responsible decision making. It is important to understand, though, that reliance by a company on the integrity and ethics of individuals is bound to eventual failure. Because of this, many organizations establish Compliance and Ethics Programs to minimize the risk that the firm steps outside of ethical and legal boundaries.
- Disclosure and transparency: Organizations should clarify and make publicly known the roles and responsibilities of board and management to provide shareholders with a level of accountability. They should also implement procedures to independently verify and safeguard the integrity of the company's financial reporting. Disclosure of material matters concerning the organization should be timely and balanced to ensure that all investors have access to clear, factual information.

The financial institutions market is very much sensitive and confronted with certain unique problems in applying governance principles. Any governance principles adopted by this industry should be flexible enough to take into account the variety of business within its purview. Having the right "tone at the top" is one of the most important factors in ensuring the corporate governance. The right "tone at the top" will establish the ethical culture of the corporation and permeate the corporation's relationships with employees, the business community and regulators.

Factors that Determine success of Corporate Governance in an Organization

Organization Working Board

A functioning Board represents the interests of shareholders in truth and in spirit. If a board exist it does not mean that it functions. Functioning of a board goes beyond setting. It must be able to set policies and define the large purpose of the business, approves strategic directions and hold executive accountable for performance. Board members must not own

their seats to the benevolence of the executives they are meant to govern, if they would exercise objective judgements in the discharge of their duties. They must also be knowledgeable in the complexities of the company and its industry, of finance and of relevant laws and regulations. If they lack expertise in their field cannot simply be effective partners in decision making.

Transparency

There is the need for transparency in the organization, in its day to day operations, its systems and decision making process. A culture of organization transparency is critical to sound ethical practice and corporate governance. Low level of organization transparency is usually the umbrella that hides abuse of power and unethical managerial behaviour. An organization that is not internally transparent to itself cannot be externally transparent to its shareholders and the larger public.

Whistle blowing

It encourages the confidential reporting of unethical practice among employees, suppliers' customers in their business dealing with the company. Are there clear hierarchies of whistle blowing up to the board level, usually an independent board ethics to report such malpractices. Are there sufficient safe guard to protect whistle blowers from victimizations? The perceived integrity objectivity and independence of the reporting hierarchy for whistle-blowing up to the board level is critical for whistle-blowing to work.

Power Concentration

The organization should have a system of check and balances. The organization should have a system of check and balances that ensure power is not concentrate in a few hands. A organization should not be run like a democracy; it should also not be run like an imperial kingdom. Imperalialness of power leads to abuse of power. You find in situation good men with good intentions have found themselves corrupted by power and end up abusing their office because the organization is not run by a system of checks and balances against power concentration.

Formal and Periodic evaluation of the CEO

The Board should also have as one of its key responsibilities the annual review of the organization's succession plans for senior management. This process should involve a dialogue with the Chief executive about his or her strengths, weakness, objectives, personal plans, and of course performance. It should access the company's annual and long term performance in comparison with that of similar organization. Evaluating the CEO also helps to preserve his or humility, a trait that is difficult to come by.

External Regulation and Monitoring

It is important to have a regulatory environment in place which can compel companies to stick to high levels of corporate governance. It is also important where extant laws are logging behind ethical or governance challenges of corporations.

Open and well implemented conflict of interest policy

It ensures that interests of mangers, executives and directors are disclosed when they enter into relationship with the company. This will be to ascertain that such business is fair to the firm, the larger shareholders and that such business interests are not in conflict with the fiduciary responsibilities of directors and in the case of mangers that such interest are not in conflict with their duty as agents of shareholders.

Candour between executives of a firm and staff

It shows the good signal of quality of corporate governance if staff as internal stakeholders cannot express themselves with truthfulness; it might signal excessive power concentration at the top of the organization which can be potentially abused by leaders of the organizations. Candour between staff and executives of firms is also a critical ingredient that builds an internal culture of organization transparency. However people can ask and feel free to ask, nothing untoward can be hidden in the organization, ensuring a high degree of corporate governance.

Corporate Governance in JBL

The Board of Directors of JBL plays the pivotal role in Bank governance through their choice of strategy and leadership to drive the company to growth path. The Board is responsible for both designing and implementing governance mechanism including appointment and supervision of respective Board committees and top management. The onus of setting strategic aims and goals of the company is also on the Board. The management of JBL is an extended wing of the Board executes policies and procedures set by the Board for the greater interest of shareholders and other stakeholders. The risk management and overall support functions of JBL has been designed and kept fully independent from Business to guard against any unforeseen events that undermine the brand value of the Bank.

Being a 3rd generation Bank of Bangladesh, JBL is guided in its corporate governance practices mainly by two regulatory bodies: Bangladesh Bank and Bangladesh Securities and Exchange Commission (BSEC). However, the Bank's corporate governance philosophy encompasses not only regulator and legal requirements but also various internal rules, policies, procedures and practices based on the best practices of

local banks. At JBL we attach a simple meaning to 'Corporate Governance' which is 'Due diligence' in observing responsibilities by Board as well as by management to safeguard interest of key stakeholders i.e. depositors, shareholders, employees and the

society at large. Two very important pillars of a good corporate governance structure are "Transparency" and "Accountability" backed by strong Internal Control and Compliance Structure and MIS capabilities.

Board Systems & Procedures

Members of the Board comprise of professionals with diversified backgrounds. At present, there are 20 (Twenty) Board members including 3(three) Independent Directors, which is within the framework set by the Bangladesh Bank as per section 15(9) of Bank Company Act 1991(Amended upto 2018). The election of Board members follows the resolution of the Shareholders' Meetings, as set out in the Bank's Articles of Association. The number of directors on the Board is determined by the meeting of shareholders and should not be less than 7 or more than 20. The structure of the Board of Directors and Board Committees is set in accordance to the laws/notifications regarding "Corporate Governance" issued by the regulatory bodies.

The Board appoints one of its directors to be the Chairman. In the interest of good governance, the roles of Chairman and Managing Director are separate, with each of them bearing clear and defined roles and responsibilities. The Board is responsible for the Bank's goals, policies and strategic direction while the Management assumes responsibility for implementation of the same as well as the day-to-day operations of the Bank..

Appointment of Directors

The relevant provision of Companies Act 1994, Bank Company Act 1991 (amended up to 2018), Corporate Governance Guidelines of BSEC, Guidelines of Bangladesh Bank and Articles of Association of the Bank are followed while appointing Directors. The election of Board members follows the resolution of the Shareholders' Meetings, as set out in the Bank's Articles of Association. The number of directors on the Board is determined by the meeting of shareholders and should not be less than 7 or more than 20. The structure of the Board of Directors and Board Committee(s) is set in accordance to the relevant section of Bank Company Act 1991 (amended up to 2018), "Corporate Governance" guidelines issued by the BSEC & Circulars issued by Bangladesh Bank.

Retirement and Election of Directors

Each director has a term of office as prescribed in the Articles of Association and Bank Company Act 1991 i.e. at every annual general meeting; one-third of the directors shall retire. In any subsequent years, the directors who have been in office the longest shall retire. The retired directors may be re-elected, subject to complying rules/regulations of regulatory bodies

in this regard. In this connection, JBL has been complying the provisions of the existing Law and the Articles of Association of the Bank.

Responsibilities and Authorities of the Board of Directors

The Board is responsible to set the vision, mission and policies of the Bank and to determine the goals, objectives and strategies to ensure efficient utilization of the Bank's resources. The Management and employees must comply with code of conduct when interacting with the Bank's clients, shareholders, employees, and business partners/ debtors. Great emphasis is also placed on their responsibilities for environment, society and competitors, preservation of client confidentiality, honesty, fairness, professional integrity, business capacities, strict compliance with laws and regulations, as well as cooperation with regulatory agencies. In performing their duties, employees are required to adhere to the principles of good corporate governance, use good judgment, act in compliance to rules and regulations and ensure that the Bank discharges its legal and regulatory responsibilities accordingly. Alleged breaches are investigated in accordance with set procedures, and disciplinary penalties are imposed if any employee is found guilty of a breach of conduct.

Human Capital

Jamuna Bank Limited regards its employees as Human Capital in the sense that our people suffix the added value to organization in respect of both skill value and economic value.

It is our people who are the differentiator for the organization and absolute basis for competitive advantage.

JBL feels, without creating core competencies, no organization can leapfrog than that of the competitors and it is the caliber including their knowledge and skills can only create core competencies of the organization for reaping the cutting edge.

To this effect, JBL constantly sharpen its people's knowledge and skills through continuous training and development and acquire employees embodying a set of skills which ultimately generates a stock of productive capital for our organization. We simply link between the HR practices and business performance in terms of assets.

In this backdrop, JBL polarizes the investment cost i.e. acquiring cost, training & development cost and other cost expended for the individuals from plausible outcome which is generated from the employees' concerted efforts and consequently surfaces per employee cost and income.

To conclude, our core brand has always been our employees, appreciated for their passion to perform. For us, employees are the best brand. We do not offer our employees a job, we offer them a career. We strongly believe that employees are required to work in a team to run a system smoothly and efficiently. Our efficient work force acted as the fundamental pillar to elevate the Bank at today's height of success and beyond. We are always concerned with upgrading our entire workforce to the next level of skill and efficiency through internal & external training and it is a continuous process. In line with its expansion plans, Jamuna Bank plans to acquire talents from the market to meet the customers' ever-increasing demand and to support the ever changing business scenario.

Finally, it can be said that the Audit Committee it has completely and effectively conducted meetings in accordance with its roles and responsibilities assigned by the regulators and fully addressed the defined objectives.

On behalf of the Audit Committee,

Md. Rafiqul Islam Chairman, Audit Committee

REPORT OF THE SHARIAH SUPERVISORY COMMITTEE

For the year ended 31 December 2017

Honorable Shareholders of Jamuna Bank Limited Assalamu Alaikum Wa Rahmatullahi Wa Barakatuhu.

All praises are due to Allah, the Lord of the Universe, the Beneficent, the Merciful. Durud and Salaam is for our Prophet Mohammad (SM.) who is Rahmat for the creatures of the world.

We are pleased to express our appreciation to the Board of Directors, the Managing Director and all the members of the Management Team of Jamuna Bank Limited for their continuous support. We are grateful to our honorable shareholders and clients for their confidence reposed on us. Without their confidence and support, we would not be able to perform our duties properly.

The Shariah Supervisory Committee has participated in different meetings and discussed various issues on Islami Banking activities of the Bank in respect of the Islami Shariah Principles & Regulations and provided opinion and necessary directives during the year 2017. Islami Banking Division of the Bank inspected two Islami Banking Branches of the Bank during the year and submitted their reports to the Shariah Supervisory Committee. Irregularities/lapses as detected were reported directly to the Shariah Supervisory Committee for information and necessary guidance on remedial measures. Decision of the Committee was disseminated accordingly to the respective branches for compliance / non-recurrence of the irregularities/ lapses.

The duty of the Shariah Supervisory Committee is to provide independent opinion & necessary guidelines upon observing and reviewing the activities of the Bank and to conduct

Shariah related training for the human resources of the Bank and also to make the clients aware of the issues related to Shariah compliance. On the other hand, the responsibility of the Islami Banking Branches is to ensure that the businesses are carried out in accordance with the rules and principles of Islami Shariah. As per recommendation of Shariah Supervisory Committee, Officials performing in Islamic Shariah based branches are also evaluated periodically based on their knowledge on basics and updates on Islami Banking.

The Shariah Supervisory Committee had also discussed/reviewed and opined on the following issues in their meetings at Jamuna Bank Limited during 2017:

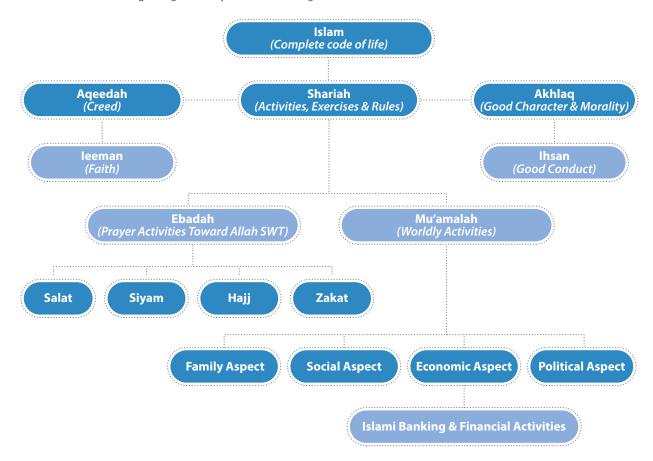

- > Shariah Inspection Report on the Islami Banking Branches.
- Actualization of Rate of Profit for the Mudaraba Depositors of Islami Banking.
- Different policies/guidelines for Islami Banking operations.
- Organizing Workshop / Training programs for the Officials of Islami Banking Branches and Al-Ihsan Islami Banking Service Centers.
- Arranging awareness program for compliance with the Islami Shariah.

Shariah Supervisory Committee of the Bank has given their valuable opinion for paying Zakat on specific fund of the Islami Banking Branches. However, individual shareholders/depositors are to pay their Zakat based on their individual shareholding/deposits along with their other assets on which Zakat is due.

The Shariah Supervisory Committee has participated in different meetings and discussed various issues on Islami Banking activities of the Bank in respect of the Islami Shariah Principles & Regulations and provided opinion and necessary directives during the year 2017. Islami Banking Division of the Bank inspected two Islami Banking Branches of the Bank during the year and submitted their reports to the Shariah Supervisory Committee. Irregularities/lapses as detected were reported directly to the Shariah Supervisory Committee for information and necessary guidance on remedial measures. Decision of the Committee was disseminated accordingly to the respective branches for compliance / non-recurrence of the irregularities/lapses.

Shariah Supervisory Committee of the Bank feels to mention slight discussion on relationship between Islam & Islami Banking for all its stakeholders. Because, a minute number of us are till date confused regarding necessity of Islami Banking.

They may assume that the Islam includes only Salat, Siyam, Hajj and Zakat. But the fact we may mention at a glance as following manner:

Shariah Supervisory Committee recommends the following for active consideration of the Bank:

- ▶ To take necessary steps to convert the conventional operation to full-fledged Islami Banking as early as possible.
- To become more conscious regarding buying & selling in the buying & selling mode of Investment of the Islami Banking Branches.
- To take effective measures to operate investment in Musharaka and Mudaraba mode, which are superior modes of investment in Islami Banking system.
- To take necessary steps to implement the 'Maqasid-e-Shariah' (i.e. goal and purpose of Islami Shariah) in investment activities of the Islami Banking to ensure common welfare of humanity.

To take initiative for training/workshop both of local and abroad at all levels of human resources related with Islami Banking services, which may be extended for conventional officials also.

May Allah (SWT) give us tawfiq to achieve His satisfaction through implementing the Shariah in all areas of our life as well as Islami Banking activities.

Ma-assalam.

Al-Hajj Mawlana Mohammad Sadequl Islam Chairman, Shariah Supervisory Committee

Chairman of the Risk Management Committee of the Board.

RISK MANAGEMENT REPORT

FROM THE DESK OF CHIEF RISK OFFICER

Earning is not free from risk. Because a certain amount of money is invested for a certain period, which may face various problem in returning to the Bank with expected profit. Risk Management is a process targeted to lessen probable and existing risk in possible extent.

For a banking financial institution like us, some of the significant changes we face are; changes in national, political and economic conditions, change in government policies, change in demand of our products and services, volatility in interest rates, volatility in capital market, changes in Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR) of the bank, changes in lending and deposit rates, incomes tax rate change, change in competitive markets of the country, global political and social instabilities for remittance and last but not the least there can be fluctuations in the international prices of essentials that influence the foreign exchange market. In addition to all these probable financial instabilities, one should not forget the change in climatic conditions we are eventually heading towards and being affected with, where Bangladesh stands as one of the vulnerable countries around the globe.

2017 has been a mixed year of achievements and challenges. One of the major achievements of the economy has been a 7.28 percent economic growth in FY 2016-17 breaking the six percent cycle that continued for a decade or so. This is the result of robust economic activities aided by rapid domestic credit growth, private credit growth, a rebound in remittance inflows, and a pick-up in export growth.

Domestic credit (DC) growth was in line with the 14.5% H1 FY18 program target while private sector growth of 18.1% substantially overshoots the 16.2% H1 FY18 program target due to a sharp pickup in lending by the private commercial banks. The large share of the credit went into industry, construction and transport sectors.

Modest remittance growth led to a deficit in overall balance of payments in Q1FY18. The economy experienced the deficit due to a strong import growth fueled mainly by capital machinery and intermediate goods imports.

The external sector has been a source of strength for the Bangladesh economy for several years. This has changed in recent periods. Export growth in FY 2016-17 was only 1.7 percent as opposed to the target of 8 percent. A glimmer of hope is in the horizon with both RMG and total exports picking up during July-December of FY 2017-18.

In terms of the output and price objectives, strong domestic demand, aided by strong private sector credit growth,

growing exports and remittance, has supported robust economic activities and has kept the economy on track to attain a 7 plus percent FY18 GDP growth.

Decline in government's bank borrowing helped ease pressure on banking system liquidity, besides moderate reserve money growth and its inflationary impact. Net foreign asset growth (0.5% at Taka/USD exchange rate as of end-FY17) trailed far below H1 FY18 target of 7.0%, with a sharp rise in imports driving current account into a deficit, triggering forex reserve depletion and Taka depreciation.

Like previous years, major boost of growth has come from the industrial sector followed by the services sector. Though average inflation has been around 5.7 percent in December, food component of CPI inflation is showing an increasing rate 7.2 percent, mainly because of agricultural loss due to two rounds of flood. Non-food inflation remains modest at 3.5 percent.

Domestic savings-GDP ratio increased by only 0.3 percent in FY 2016-17 while national savings-GDP ratio declined by 1.2 percentage point to 20.6 percent in FY 2016-17 from 30.8 percent in FY 2015-16 in the backdrop of the large current account deficit. This has narrowed the gap between national savings and total investment as a share of GDP for the first time in recent years, which otherwise displayed a gap implying that resources are not fully utilized.

From a geo-political point, 2017 has been most challenging for Bangladesh as the Rohingyas from the Rakhine state of Myanmar started to flee to Bangladesh from August 25, 2017 onwards following a fresh round of torture and killings by the Myanmar army. Rohingyas moved into Bangladesh in thousands every day, bringing their number in Bangladesh to one million in total if the previous influx of the seventies and the nineties are taken into account. Though they are supported by the international community, some fiscal burden will befall the government of Bangladesh which will have budgetary implications.

The year 2018 will be a turning point for Bangladesh in many ways. Bangladesh will prepare to graduate from the least developed country status in 2018. It will also continue its efforts toward becoming a middle-income country. Additionally, it will continue to implement the sustainable development goals (SDGs). These will hinge on a number of factors such as accelerated resource mobilisation, higher investment, efficiency in infrastructure implementation, skilled human resources and strong institutional set up.

Lastly, Bangladesh has placed significant emphasis on the growth rate of its gross domestic product while the quality and distributional aspects of GDP growth have been overlooked. Incremental benefit from such growth has accrued to the rich rather than the poor. It is disturbing to note that top 10 percent possess 38 percent of Bangladesh's total income while the bottom 10 percent only has one percent of the total income of the country. High growth is yet to be translated into generation of enough income for the poor, creation of employment, access to quality education and better healthcare for all, and above all, reducing income inequality. In the coming years, policymakers must make broader development goals their objectives instead of being overwhelmed by narrow growth targets.

Risk management team of Jamuna Bank is well defined. Our emphasis on how to take the best by taking risks, identify and manage the same which are inherently prevailing from the genesis of banking. There is a well-defined risk identification, escalation and mitigation methodology in place with clearly articulated risk tolerance level. We have tried our best in managing and mitigating risks at every level of operation. We believe continuous advancement in risk management system and adoption of new technologies will be key for Jamuna bank's sustainable growth in the foreseeable future.

RISK MANAGEMENT FRAMEWORK

In the course of their operations, banks are invariably faced with different types of risks that may have a potentially adverse effect on their business. Risk is the chance or possibility of loss, damage, injury or failure to achieve objectives caused by an unwanted or uncertain action or event. Risk management is the planned and systematic approach to the identification, evaluation and control of risk. The objective of risk management is to secure the assets and reputation of the organization and to ensure the continued financial and organizational well-being. Banks are obliged to establish a comprehensive and reliable risk management system, integrated in all business activities and providing for the bank risk profile to be always in line with the established risk propensity.

Risk management system comprises:

- ▶ Risk management strategy and policies, as well as procedures for risk identification and measurement, i.e. for risk assessment and risk management;
- Appropriate internal organisation, i.e. bank's organizational structure;
- Effective and efficient risk management process covering all risks the bank is exposed to or may potentially be exposed to in its operations;

- Adequate internal controls system;
- Appropriate information system;
- Adequate process of internal capital adequacy assessment.

In their operations banks are particularly exposed to or may potentially be exposed to the following risks:

- a) **Credit risk** (including concentration risk, country risk, transfer risk, and settlement risk)
- b) **Market risk** (including interest rate risk in the banking book, foreign exchange risk, and equity market risk)
- c) Liquidity Risk
- d) Operational Risk
- e) **Other risks** (Compliance, strategic, reputation and money laundering risk)
- Credit risk is the risk of potential occurrence of adverse effects on the bank's financial result and capital due to debtor's default to meet its obligations to the bank.
 - Concentration risk is the risk which arises directly or indirectly from the bank's exposure to the same or similar source of risk, or, same or similar type of risk;
 - Country risk is a risk relating to the country of origin of the person to which the bank is exposed, that is, the risk of negative effects on the bank's financial result and capital due to the bank's inability to collect receivables from such person for reasons arising from political, economic or social circumstances in such person's country of origin.
 - Transfer risk is probability of loss due to currency conversion (exchange) restrictions imposed by a foreign government that make it impossible to move money out of the country. It is a type of political risk.
 - Settlement risk is the risk that one party will fail to deliver the terms of a contract with another party at the time of settlement. Settlement risk can also be the risk associated with default, along with any timing differences in settlement between the two parties. Default risk can also be associated with principal risk
- Market risks entail foreign exchange risk, price risk on debt securities, price risk on equity securities, and commodity risk;

- Foreign exchange risk is the risk of possible occurrence of adverse effects on the bank's financial result and capital on account of changes in foreign exchange rates;
- Interest rate risk is the risk of possible occurrence of adverse effects on the bank's financial result and capital on account of banking book items caused by changes in interest rates;
- Liquidity risk is the risk of potential occurrence of adverse effects on the bank's financial result and capital due to the bank's inability to meet the due liabilities caused by the withdrawal of the current sources of funding, that is, the inability to raise new funds (funding liquidity risk), aggravated conversion of property into liquid assets due to market disruption (market liquidity risk);
- Operational risk is the risk of possible adverse effects on the bank's financial result and capital caused by omissions (unintentional and intentional) in employees' work, inadequate internal procedures and processes, inadequate management of information and other systems, as well as by unforeseeable external events. Operational risk also includes legal risk.
 - Legal risk is the risk of loss caused by penalties and sanctions originating from court disputes due to breach of contractual and legal obligations, and penalties and sanctions pronounced by a regulatory body.

Other Risk

- Risk of compliance of the bank's operations is the possibility of occurrence of adverse effects on the bank's financial result and capital as a consequence of failure to comply its operations with the law and other regulations, standards of operations, antimoney laundering and counter-terrorist financing procedures, and other procedures as well as other acts governing the bank's operations, particularly encompassing the risk of sanctions by the regulatory authority, risk of financial losses and reputational risk.
- Reputational risk relates to the possibility of the occurrence of losses due to adverse effects on the bank's market positioning.
- Strategic risk is the possibility of occurrence of adverse effects on the bank's financial result and capital due to the absence of appropriate policies and strategies, their inadequate implementation, as

- well as changes in the environment where the bank operates or absence of appropriate response of a bank to those changes.
- Residual risk is the possibility of occurrence of adverse effects on the bank's financial result and capital due to the fact that credit risk mitigation techniques are less efficient than expected or their application does not have sufficient influence on the mitigation of risks to which the bank is exposed;
- Dilution risk is the possibility of occurrence of adverse effects on the bank's financial result and capital due to the reduced value of purchased receivables as a result of cash or non-cash liabilities of the former creditor to the borrower;
- Settlement/Delivery risk is the possibility of occurrence of adverse effects on the bank's financial result and capital arising from unsettled transactions or counterparty's failure to deliver in free delivery transactions on the due delivery date;
- Counterparty credit risk is the possibility of occurrence of adverse effects on the bank's financial result and capital arising from counterparty's failure to settle their liabilities in a transaction before final settlement of transaction cash flows, or, settlement of monetary liabilities in the transaction in question;
- Bank exposure risks comprise risks of bank's exposure towards a single person or a group of related persons.
- Bank's investment risks comprise risks of its investments into non-financial sector entities and in fixed assets and investment property.

STRUCTURE OF RISK MANAGEMENT:

Risk management structure includes all the processes, tools and techniques to manage overall risks of the bank. Jamuna bank sets its risk management structure that is parallel with national as well as global standard. Not only do we have risk management inculcated at Board and Management level, but our risk management framework encompasses the operational level too, which enables us to give all-inclusive emphasis on managing risk at every level.

a. Board Involvement:

The Board is responsible for establishing the bank's overall strategy and significant policies relating to the management of individual risk elements to which it is exposed. There is a Board Risk Management Committee that is involved with the risk management functions of the bank.

Board Risk Management Committee (RMC):

- Approves the risk management policy of the bank.
- Determines strategic direction of the bank.
- Creates an environment and structure for effective operation of risk management.
- Sets up the risk appetite and tolerance limits for the bank.

b. Management Involvement:

Senior management is responsible for the implementation of risk policies and procedures in line with the strategic direction and risk appetite specified by the board. This senior management is fully responsible for the risk management culture of the entire bank. To manage the risks, the bank has constituted the Risk Management Committee (RMC) at Management Level & Supervisory Review Committee (SRC).

Scope of Risk Management Division:

Risk Management Division (RMD) of Jamuna Bank Limited had been established in line with the directives of Bangladesh Bank for strengthening risk management activities of the bank. The responsibility of the division is to ensure effectiveness of the Core Risks Management of the Bank and also to ensure the capital management of the Bank under Basel Accords in line with the directives of Bangladesh Bank from time to time.

RMD is responsible to manage and measure risk on the basis of the bank's approved risk parameters, even independently of minimum regulatory requirements and category. It is responsible for designing risk management strategy, establishing risk management policies & procedure, communicating views of Board & Senior Management regarding risk issues throughout the bank, determining Risk Appetite of the Bank and have it approved by the Risk Committee of the Board of Directors, measuring & monitoring risk, identifying & quantifying bank's exposure to material loss, independently monitor limits, developing & implementing loss prevention/retention programs, securing & maintaining adequate loss coverage, periodic stress testing, preparation of monthly risk management paper, half yearly Comprehensive Risk Management Report& holding meeting of All Risk Committee etc.

Coverage of Various types of Risks:

The entire risk management framework is designed in such a way so that all types of risk can pro-actively be identified and mitigated to reduce its exposure and the probability of these taking place in future. This in turn will help Jamuna Bank's steady growth.

Now, standing at this point in time, we wish to concentrate on the quality of our portfolio more than ever, we are committed to work for people, planet and profit. With the mindset to be a sustainable bank, we thoroughly assess every individual before boarding in as customer. Yet, in line with our visionary founder chairman's philosophy of building a world free from all forms of exploitation and discrimination, we intend to bolster the economic growth of our nation on ethical ground.

Discussion on Risk Mitigation:

1. Credit Risk:

A credit risk is the risk of default on a debt that may arise from a borrower failing to make required payments. In the first resort, the risk is that of the lender and includes lost principal and interest, disruption to cash flows, and increased collection costs. At Jamuna bank, the core function of Credit Risk Management (CRM) Team is to optimize the risk adjusted return from the bank's loans and advances by maintaining an appropriate standard in the underwriting process. Jamuna bank takes

holistic approach towards credit risk management, where socioeconomic and environmental impacts of the decisions made are emphasized upon. This particular practice is the hallmark of Jamuna Bank's credit risk management objective. To achieve this goal, we manage the credit risk inherent in the entire portfolio of the bank as well as the risks associated with individual credit proposals or transactions. We consider the relationships between credit risk and other risks while supporting the transactions of the bank. We believe that the effective management of credit risk is a critical component of a comprehensive approach to risk management and essential to the long-term success of any banking organization.

2. Market Risk:

Market Risk is the risk of potential losses in the on balance sheet and off balance sheet positions of a bank stemming from adverse movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads, and/or commodity prices.

3. Equity Price Risk:

Equity risk is defined as the losses incurring from the changes in the market price of equity held by the bank. To measure and identify the risk, mark to market valuations of the share investment portfolios are done. Mark to market valuation is done against a predetermined limit. Equity Risk of the bank is also monitored through analysis of own investment on shares by subsidiaries, margin loan against investment in share by subsidiaries and loan statement against shares. Equity price risk could be systematic or unsystematic. The former refers to the sensitivity of a portfolio's value to changes in overall level of equity prices, while the latter is associated with price volatility that is determined by a firm's specific characteristics.

4. Interest Rate Risk:

Interest Rate Risk is the potential impact on a bank's earnings and net asset value due to changes in the

market interest rates. In simple words, interest rate risk arises when the bank is obliged to pay more interest for liabilities but cannot charge more on assets. Such risks cannot be eliminated as re-pricing period of assets and liabilities are different. Other than re-pricing issue, other sources of interest rate risk are: yield curve risk, basis risk, and embedded options. The immediate impact of a variation in interest is on the bank's net interest income, while a long term impact is on the bank's net worth since

the economic value of the bank's assets, liabilities and off balance sheet exposures are affected. Re-pricing schedule used as interest rate risk measurement techniques. It begins with a maturity/re-pricing schedule that distributes interest sensitive assets, liabilities, and off- balance sheet positions into a certain number of predefined time bands according to their maturity (if fixed rate) or time remaining to their next repricing (if floating rate).

5. Foreign Exchange Risk Management:

Foreign Exchange Risk Management is the risk that the bank may suffer losses as a result of adverse exchange rate movements during a period in which it has an open position in an individual foreign currency. In addition, the bank is also exposed to interest rate risk and settlement risk on account of its foreign exchange business. At Jamuna bank, treasury division is vested with dealing with risks associated with foreign exchange movements.

6. Asset liability Management Risk:

Asset Liability Management (ALM) plays a critical role in weaving together the different business lines within a financial institution. Managing liquidity and the balance sheet are crucial to the existence of a financial institution and sustenance of its day to day operations. It is also essential for seamless growth of the balance sheet in a profitable way.

7. Environmental and climate change risk:

In addition to these entire probable financial risks, one should not forget the change in climatic conditions that could pose a potential threat to our business.

8. Internal Control and Compliance:

Internal Control and Compliance risk refers to the gap of internal system to highlight a control breach either because of non-inclusion in sampling or due to failure to detect within the sample. Losses arising out of lapse of internal compliances will be considered under operational risk. Internal control is the process, guided by a company's board of directors, management and other personnel, designed to provide reasonable assurance regarding the achievement of the objectives in the effectiveness and efficiency of operations, the reliability of financial reporting and compliance with applicable laws, regulations, and internal policies. Internal controls are the policies and procedures established and implemented alone, or in concert with other policies or procedures, to manage and control a particular risk or business activity, or combination of risks or business activities, to which the company is exposed to or in which it is engaged. A sound internal control function plays an important role in contributing to the effectiveness of the internal control system. Jamuna bank has a board approved own Internal Control and Compliance policy.

9. Prevention of Money Laundering:

Money Laundering is deemed as a finance-based crime that buckles down to conceal, misrepresent and disguise all the details with regard to illegal financial income taking advantage of the vulnerability of the Financial Institutions mostly in the developing countries. Due to the rapid incorporation of sophisticated technology in a globalized financial sector; money laundering has become a truly worldwide scourge that has devastating economic, security, and social consequences. Money launderers are seen to concentrate on developing countries like Bangladesh. Therefore, Bangladesh

strengthens its Anti Money Laundering system time to time by introducing and updating legislations, acts such as Anti Money Laundering Act, Anti-Terrorism Act and making it compulsory for the reporting organizations to comply with the same.

10. Information and Communication Technology Risk:

Technology continues to be a strong pillar in the bank's idea to attract the banking experience of its customers. In line with the key trends which are shaping technology today, the bank has rolled out various initiatives leveraging mobility, digitalization and innovations in payments technology.

For enhancement of security, we have introduced different types of security products like Damballa, Paloalto (Next Generation Firewall), NMS (Network Monitoring System), SIEM (Security Incident &Event Management), Mail Filter, Blue Coat which has certainly strengthened Jamuna Bank's IT security far better than before. We have achieved milestone by introducing Bkash Agent bill Collection, "SureCash" Mobile Banking, School Banking, RTGS, eDoc (Security Document Management System), E-Leave for bank employees, E-Remit(Centralized Remittance Management Solution), upgrading network infrastructure, "FloraBank" (corebanking software) version

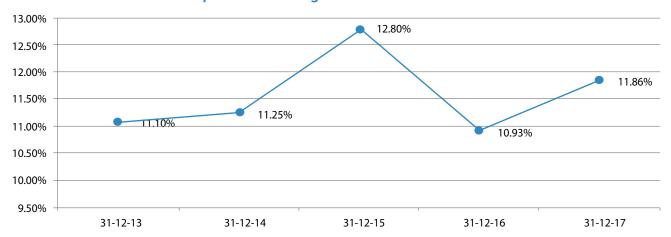

upgrade, Access Control system in HO/Branch and bring all branch/ATM under CCTV surveillance.

Risk Reporting

Risk Based Capital Adequacy:

Under Risk Based Capital Adequacy Statement, Jamuna Bank Limited is strictly maintaining the CRAR from the beginning of the implementation of Basel-Ill accord, it was 12.21%, 11.10%, 11.25%, 12.80%, 10.93% and 11.86% in December of 2012, 2013, 2014, 2015, 2016 and 2017 respectively. As the prudently selected less capital consuming and economy renovating sectors are the loan disbursed areas of Jamuna Bank Limited so it does not create any predicament to maintain any Capital requirement. To estimate the capital requirement in the upcoming quarters all branches of the bank prepare their statement of Risk Weighted Asset in every quarter and in the light of these reports they diversify their portfolio in the favorable manner.

Comprehensive Risk Management Paper:

Various aspects of credit risk, market risk, liquidity risk, operational risk, reputational risk, and compliance risk are discussed monthly in Risk Management paper. Credit Risk analysis covers concentration risk, classified loan, recovery, provisioning, top defaulters, collateral coverage, overdue bill and fund diversion. Market Risk analysis incorporates the interest rate risk, foreign exchange risk, equity risk and Value at Risk. Liquidity Risk analysis covers Statutory Liquidity Requirement (SLR), Cash Reserve Ratio (CRR), Advance Deposit Ratio (ADR), Structural Liquidity Profile,

liability concentration, Whole sale Borrowing Guidelines, Maximum Cumulative Outflow and Medium Term Funding Ratio. Internal fraud, external fraud and evaluation of core risk management are discussion of Operational Risk. Risk Management paper is regularly discussed in Risk Management Committee of Management, Risk Management Committee of Board of Directors and Meeting of Board of Directors. Risk Management paper and other related documents are sent to Bangladesh Bank and which are evaluated to determine the risk management status. It is revealed that Comprehensive Risk Management Rating of the Bank is gaining excellence.

DISCLOSURE ON RISK BASED CAPITAL (BASEL-III)

For the Year 2017

Background: These disclosures on the position of the bank's risk profiles, capital adequacy and risk management system under Pillar-III of Basel-III are made following revised "Guidelines on Risk Based Capital Adequacy" for banks issued by Bangladesh Bank in December 2014. These quantitative and qualitative disclosures are intended to complement the Minimum Capital Requirement (MCR) under Pillar-I and Supervisory Review Process (SRP) under Pillar-II of Basel-III.

The purpose of these disclosures is to establish more transparent and more disciplined financial market so that stakeholders can assess the position of the bank regarding holding of assets and to identify the risks relating to the assets and capital adeuacy to meet probable loss of assets.

Scope Of Application

Scope of Application: The Risk Based Capital Adequacy framework applies to Jamuna Bank Limited (JBL) on 'Solo' basis as well as 'Consolidated' basis as there were two subsidiaries of the bank as on the reporting date i.e. 31 December 2017. The names of the two subsidiary companies are Jamuna Bank Capital Management Limited and Jamuna Bank Securities Limited.

Consistency and Validation: The quantitative disclosures are made on the basis of consolidated audited financial statements of JBL and its Subsidiary as at and for the year ended 31 December 2017 prepared under relevant international accounting and financial reporting standards as adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) and related circulars/ instructions issued by Bangladesh Bank from time to time. The assets, liabilities, revenues and expenses of the subsidiaries are combined with those of the parent company (JBL), eliminating intercompany transactions. So assets of the subsidiaries were risk weighted and equities of subsidiaries were crossed out with the investment of JBL while consolidating.

Capital Structure of JBL: Regulatory capital, as stipulated by the revised RBCA guidelines by BB, is categorized into two tiers. The total regulatory capital will consist of sum of the following categories:

1) Tier 1 Capital (going-concern capital)

- a) Common Equity Tier 1
- b) Additional Tier 1

2) Tier 2 Capital (gone-concern capital)

Tier 1 capital (going-concern capital) is the capital which can absorb losses without triggering bankruptcy of the bank. Tier 2 capital (gone-concern capital) is the capital which will absorb losses only in a situation of liquidation of the bank.

Conditions for Maintaining Regulatory Capital: The Bank complied with all the required conditions for maintaining regulatory capital as stipulated in the revised RBCA guidelines by Bangladesh Bank as per following details:

- Common Equity Tier 1 of at least 4.5% of the total RWA.
 - Status of Compliance: Complied.
- Capital Conservation Buffer at least 1.25% of the total RWA.
 - Status of Compliance: Complied.
- Tier-1 Capital will be at least 5.50% of the total RWA.
 - Status of Compliance: Complied.
- Minimum Total Capital plus Capital Conservation Buffer to RWA Ratio of 11.25%.
 - Status of Compliance: Complied.
- Additional Tier 1 capital can be admitted maximum up to 1.5% of the total RWA or 33.33% of CET1, whichever is higher.
 - Status of Compliance: As on the reporting date there was no Additional Tier 1 capital in the capital structure of Jamuna Bank Limited.
- Tier-2 capital can be admitted maximum up to 4.00% of the RWA or 88.89% of CET 1, whichever is higher.
 - Status of Compliance: Complied.

Quantitative Disclosures: The Bank had a Capital of BDT 1,989.41 crore comprising Tier-1 capital of BDT 1,218.85 crore and Tier-2 capital of BDT 770.56 crore as on the reporting date (31 December 2017). Following table presents the details of capital as on December 31, 2017:

Capital Adequacy

Bank's Approach to Assessing Capital Adequacy: As banks in Bangladesh are now in a stage of developing risk management models, BB suggested the banks for using Standardized Approach for credit risk capital requirement for banking book and Standardized (rule based) Approach for market risk capital charge in their trading book. JBL used the Basic Indicator Approach (BIA), as prescribed by Bangladesh Bank in determining capital charge against operational risk. Under the Basic Indicator Approach (BIA), the capital charge for operational risk is a fixed percentage (denoted by alpha) of average positive annual gross income of the bank over the past three years.

Jamuna Bank Limited focuses on strengthening and enhancing its risk management culture and internal control environment rather than increasing capital to cover up weak risk management and control practices. JBL has been generating most of its incremental capital from retained profit (stock dividend and statutory reserve transfer etc.) to support incremental growth of Risk Weighted Assets (RWA). Therefore, the Bank's Capital to Risk weighted Asset Ratio (CRAR) remains consistently within the comfort zone after implementation of

Basel-III from 1 January, 2015. During the year 2017, the CRAR ranges from 11.84% to 13.89% on consolidated basis and from 11.86% to 13.95% on solo basis against minimum requirement of 11.25% of RWA.

Assessing regulatory capital in relation to overall risk exposure of a bank is an integrated and comprehensive process. Jamuna Bank Limited, through its Supervisory Review Committee and Management Risk Committee, is taking active measures to identify, quantify, manage and monitor all risks to which the Bank is exposed to. Assessment of capital adequacy will be in alignment with the findings of these exercises.

Quantitative Disclosures: Following table shows component wise allocation of capital to meet three risks and an amount of additional capital maintained over MCR i.e. 11.25% of RWA. As on the reporting date, Jamuna Bank Limited maintained a Capital to Risk weighted Asset Ratio (CRAR) of 11.84% on 'Consolidated Basis' and 11.86% on 'Solo Basis' against required minimum of 11.25%. We had an excess capital of BDT 103.07 crore (Solo) and BDT 98.61 crore (consolidated) after meeting all three risks as on the reporting date as shown in the following table:

Credit Risk

Qualitative Disclosures:

Definition of Credit Risk: Credit risk is the possibility that a borrower will fail to meet its obligation in accordance with agreed terms and conditions. That is credit risk is the risk of loss that may occur from the failure of any counterparty to make required payments in accordance with agreed terms and conditions and/or deterioration of credit worthiness. Credit risk is managed through a framework set by policies and procedures approved by the Board. The responsibility is clearly segregated between originator of business transaction and approver in the risk function.

Credit Risk Management Policies and Procedures: Credit risk management needs to be a robust process that enables Banks to proactively manage loan portfolio in order to minimize losses and earn an acceptable level of return for Shareholders. Central to this is a comprehensive IT system, which should have ability to capture all key customer data, risk management and transaction information. Jamuna Bank Ltd. already has real time on-line Banking system which enables to capture all key customer data. Given the fast changing dynamic global economy and the increasing pressure of globalization, liberalization, consolidation and disintermediation, it is essential that Banks have robust Credit risk management policies and procedures that are sensitive and responsive to these changes.

Jamuna Bank Limited being a progressive and dynamic private sector Bank formulated its own Credit Policy Guidelines to efficiently and professionally manage risks arising out of its Credit operation. The Credit Policy Guidelines was initially approved by the Board of Directors in its 59th meeting held on 08.01.2006. Lastly it was reviewed by the Board of Directors of the Bank in its 305th meeting held on April 24, 2017. As per Credit Risk Management Guidelines of Bangladesh Bank, the credit policy of JBL has been refined from time to time.

The Credit Policy Guidelines of JBL encompasses a wide range of issues related to credit operation. Jamuna Bank Limited continually updates by the bank to lead the ongoing improvement in the banking sector. The focal points of the JBL credit policy are:

- 1. Organizational Structure
- 2. Segregation of Duties
- 3. Implementation of the concept of Relationship Banking
- 4. Credit Principles
- 5. Credit Facilities parameter
- 6. Discouraged Business
- 7. Review of Mode-wise Credit Position
- 8. Review of Large Loan Concentration
- 9. Review of Classification Position and Target
- 10. Credit Budget with sectoral outlook
- 11. Procedure of Credit Operation including credit assessment
- 12. Credit Risk Grading System
- 13. Emphasizing on Secured Lending
- 14. Disbursement process and Documentation
- 15. Credit Monitoring
- 16. Policy for Delegation of Lending Authority

Methods used to measure Credit Risk: Credit risk grading is an important tool for credit risk measurement as it helps the Banks and financial institutions to understand various dimensions of risk involved in different credit transactions. The aggregation of such grading across the borrowers, activities and the lines of business can provide better assessment of the quality of credit portfolio of a bank or a branch. Well-managed credit risk grading systems promote bank safety and soundness by facilitating informed decision-making. Grading systems measure credit risk and differentiate individual credits and groups of credits by the risk they pose. This allows bank management and examiners to monitor changes and trends in risk levels. The process also allows bank management to manage risk to optimize returns.

The credit risk grading is done by assigning weightage accordance to the severity of risk. The primary risk areas are financial risk, business/ industry risk, management risk, security risk and relationship risk. These risk components are further subdivided.

A thorough credit risk assessment is being conducted prior to the sanctioning of credit facilities. Thereafter it is done annually for each relationship. The result of this assessment is presented in the credit proposal originated from the Relationship Manager.

Following risk areas are addressed and assessed in credit sanctioning process:

- 1. Borrower Analysis: Reputation, education, experience, age and success history and net worth of the borrower are considered to analyze a borrower. Any issues regarding lack of management depth, complicated ownership structures or inter-group transactions are addressed in borrower analysis.
- 2. Industry Analysis: To analyze an industry JBL considers industry position i.e. threat & prospect in the industry, risk factors pertaining to the industry, borrowers position or share in the industry.
- **3. Historical financial analysis:** An analysis of a minimum of 3 years historical financial statements of the borrower is being presented. The analysis addresses the quality and sustainability of earning, cash flow and the strength of the borrower's balance sheet.
- **4. Projected financial Performance:** Where term facilities are being proposed, a projection of the borrower's future financial performance is required to be provided.
- 5. Technical feasibilities/ Infrastructural facilities:
 Seasonality of demand, Debt-Equity Ratio, Account conduct of the borrower, Security and other relevant factors are considered to assess credit risks.

Credit Risk Management System: Jamuna Bank Limited (JBL) has established a robust credit risk management system to proactively manage loan portfolio in order to minimize losses. It has significantly improved risk management culture and established standard for segregation of duties and responsibilities relating to Credit Operation of the Bank.

The major steps taken by JBL to implement credit risk management guidelines are:

- 1. It has formulated its own Credit Policy Guidelines in line with the core risk guideline of Bangladesh Bank.
- 2. The policy takes into account the sectoral concentration and specific industry exposure cap is set in the policy.
- 3. Head Office Organizational structure has been segregated in line with CRM Guideline (Credit Marketing, Credit Approval and Credit Administration activities have been separated).
- 4. Borrower's Risk Grade are assigned and mentioned in the credit proposal.
- All disbursement is authorized centrally in the computer system only after confirming fulfillment of

- documentation requirement as per sanction term. There is no scope of disbursement without approval of the competent authority.
- 6. Credit Approval Authority has been clearly defined in the policy.
- 7. Strong monitoring of loan portfolio is ensured by separate Credit Monitoring Department.

Asset Impairment Policy: JBL follows central bank guidelines as its asset impairment policy. Bangladesh Bank set loan impairment/classification criteria and provisioning policies vide BRPD Circular No.14 dated 23 September 2012, BRPD Circular No.05 dated 29 May 2013 and BRPD circular No.16 dated 18 November 2014. Equity Position Risk

Equity Risk: Equity risk is the risk that one's investments will depreciate because of stock market dynamics causing one to lose money. Investment of JBL in equity securities is broadly categorized into two parts: Securities (Shares-common or preference, Mutual Fund) that are traded in the secondary market (trading book assets) and Un-quoted securities that are categorized as banking book assets.

The capital charge for equities would apply on their current market value in bank's trading book. This capital charge for both specific risk and the general market risk will be at the rate of the required minimum capital adequacy ratio. This is applied to all instruments that exhibit market behavior similar to equities. The instruments covered include equity shares, whether voting or non-voting, convertible securities that behave like equities, for example: units of mutual funds, and commitments to buy or sell equity.

Interest Rate Risk In The Banking Book (IRRBB)

Interest rate risk is the potential that the value of the onbalance sheet and the off-balance sheet positions of the bank would be negatively affected with the change in the interest rates.

Interest rate risk in the banking book arises from mismatches between the future yield of an asset and their funding cost. The immediate impact of changes in interest rates is on the Bank's net interest income (the difference between total interest income and the total interest expenses) for particular period of time, while the long term impact is on the Bank's net worth since the economic value of the Bank's assets, liabilities and off-balance sheet exposures are affected.

The process of interest rate risk management by the bank involves determination of the business objectives, expectation about future macro economic variables and understanding the money markets and debt market in which it operates. Interest rate risk management also includes quantifying the appetite for interest rate risk to which bank is comfortable.

Asset Liability Committee (ALCO) monitors the interest rate movement on a regular basis. Duration Gap analysis is one of the technique by which JBL measures interest rate risk in the banking book on a quarterly basis. Duration is the measure of a portfolio's price sensitivity to changes in interest rates.

Market Risk

Market risk is the risk that the value of a portfolio, either an investment portfolio or a trading portfolio, will decrease due

to the change in value of the market risk factors. The four standard market risk factors are equity prices, interest rates, foreign exchange rates and commodity prices. The objectives of our market risk policies and processes are to obtain the best balance of risk and return whilst meeting customers' requirements. The primary categories of market risk for the bank are:

Interest Rate Risk: The risk of loss resulting from changes in interest rates. As a result of mismatch of interest rates on its assets and liabilities and/or timing differences in the maturity thereof.

Foreign Exchange Risk: It is the risk to earnings and capital arising from adverse movements in currency exchange rates. It refers to the impact of adverse movement in currency exchange rates on the value of open foreign currency position and. There are also the risk of default of the counter parties and settlement risk.

Equity Risk: It is risk that results from adverse changes in the value of equity related portfolios.

Commodity Price Risk: Commodity price risk arises from changes in commodity prices and implied volatilities in commodity options, covering energy, precious metals, base metals and agriculture. Currently we do not have any exposure in commodity financing.

Market Risk Management:

To manage, monitors & control the above risks the Bank has Risk Management Committee & Asset-Liability Committee

comprising the al Heads and Seniors Executives and Mid Office etc. They set in every month to discuss the matters and takes immediate steps as and when required to mitigate the issues.

To manage the interest rate risk, ALCO regularly monitors various ratios and parameters. Among the ratios, the key ratios that ALCO regularly monitors are Liquid asset to total assets, Volatile Liability dependency ratio, medium term funding ratio and short term borrowing to Liquid assets ratio. ALCO also regularly monitors the interest rate sensitive gap and duration gap of total portfolio.

To manage exchange rate risk, bank always keep its net open position within the limit set by central bank. Also to manage exchange rate risk in cross currency, bank always square its position in cross currency or convert its exposure to USD. For monitoring and controlling the risk Bank has made contacts with several foreign banks and closely monitors the incoming and outgoing sources & payment schedule of foreign currency.

To manage equity risk, the bank ensures taking prudent investment decisions complying sectoral preference as per investment policy of the bank and capital market exposure limit set by Bangladesh Bank.

Operational Risk

Operational Risk is defined as the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, but excludes strategic and reputation risk.

Views of Board of Directors (BOD) on system to reduce Operational Risk:

The policy for operational risks including internal control and compliance risk is approved by the Board taking into account relevant guidelines of Bangladesh Bank. Audit Committee of

the Board directly oversees the activities of Internal Control and Compliance (IC&CD) to protect against all operational risks.

As a part of continued surveillance, the management committee (MANCOM), Risk Management Committee (at the management level) and Risk Management regularly reviews different aspects of operational risk. The analytical assessment was reported to the Board/ Risk Management Committee/ Audit Committee of the Bank for review and formulating appropriate policies, tool & techniques for mitigation of operational risk.

The operational risk may be of this following category:

- Internal Fraud.
- External Fraud.
- Employment practices & work plan.
- Clients, products & business practice.
- Damage of physical assets.
- Business disrupt & system failure.
- Execution, delivery & process management.
- Legal risk.

Potential External Events:

Jamuna Bank Limited operates its business in an umbrella of inter connected socio-economic and political environment. Few externalities affect business performance directly such as macro economic conditions, regulatory policy changes, changes in demand, status of infrastructure whereas few factors affect operations of the business directly or indirectly such as force shut down due to political instability, threat of vandalism to the bank's sophisticated physical outlets including IT equipments etc.

Policies and processes for mitigating operational risk:

The policy for operational risks including internal control and compliance risk is approved by the Board taking into account relevant guidelines of Bangladesh Bank. A policy guideline on Risk Based Internal Audit (RBIA) System is in operation. As per RBIA, branches with high risk status and subjected to more frequent audit by Internal Control and Compliance (IC&CD). IC&CD directly report to Audit Committee of the Board.

Currently, Jamuna Bank Limited is using some models or tools for mitigating operational risk such as Self Assessment of Anti-fraud Internal Control; Quarterly Operational Report (QOR) and Departmental Control Function Check List (DCFCL) in line with the Bangladesh Bank's relevant Instructions and recommendations. It is required to submit the statement on Self Assessment of Anti-fraud Internal Control to Bangladesh Bank on quarterly rest.

In addition, Bank's Anti- Money laundering activities are headed by CAMLCO and their activities are devoted to protect against all money laundering and terrorist finance related

activities. The newly established Central Customer Service & Complaint Management Cell was also engaged in mitigating the operation risks of the Bank. Apart from that, there is adequate check and balance at every stage of operation, authorities are properly segregated and there is at least dual control on every transaction to protect against operational risk.

Approaches for calculating capital charge for operational risk

The Bank follows the Basic Indicator Approach (BIA) as prescribed by BB through BRPD Circular No. 18 dated 21 December 2014 [Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel III)]. Under this approach, the capital charge for operational risk is a fixed percentage (denoted by alpha, a) of average positive annual gross income of the bank over the past three. Figures for any year in which annual gross income is negative or zero, should be excluded from both the numerator and denominator when calculating the average. The capital charge for operational risk is enumerated by applying the following formula:

 $K = [(GI 1 + GI2 + GI3) \alpha]/n$

Where:

K = the capital charge under the Basic Indicator Approach GI = only positive annual gross income over the previous three years (i.e., negative or zero gross income if any shall be excluded)

 $\alpha = 15$ percent

n = number of the previous three years for which gross income is positive.

Besides, Gross Income (GI) is calculated as "Net Interest Income" plus "Net non-Interest Income". The GI shall be:

- a) Gross of any provisions (including interest suspense)
- b) Gross of operating expenses, including fees paid to outsourcing service providers
- c) Exclude realized profits/losses from the sale of securities held to maturity in the banking book
- d) Exclude extraordinary or irregular items as well as categorize
- e) Exclude income derived from insurance.

Liquidity Risk

Liquidity risk is the risk that a given security or asset cannot be traded quickly enough in the market to prevent a loss (or make the required profit) or when a bank is unable to fulfill its commitments in time when payment falls due.

Views of Board of Directors (BOD) on system to reduce Liquidity Risk:

Liquidity risk arises when the Bank is unable to meet its payment obligations when they fall due and to replace funds when they are withdrawn, in particular, its failure to meet obligations to repay depositors and fulfill commitments to lend.

The appropriate and efficient management of liquidity is essential to JBL in ensuring the confidence of the financial markets in order to pursue its identified business strategy.

Additionally, the Bank manages risk in relation to:

- 1. The mismatched funding of medium term assets by short term or retail liabilities, which can increase the potential for liquidity problems at a future date and
- 2. Meeting regulatory requirements at all times

The Bank at all times maintains financial resources, including capital and liquidity resources, which are adequate, both as to amount and quality, to ensure that there is no significant risk that its liabilities cannot be met as they fall due.

Treasury has overall responsibility for liquidity management on a day-to-day basis and in the event of a liquidity crisis. In normal conditions liquidity is managed as per policy and guidelines already established.

To avoid the risk of liquidity related penalty or regulation on JBL, Market Risk Management advises immediately of any event that could adversely impact relationships with regulators. Bank complies with all regulatory reporting requirements, terms and conditions for the operation of accounts with central banks in respect of liquidity risk.

Liquidity Management Strategy:

The Bank applies a prudent mix of liquidity controls which provide security of access to funds without undue exposure to increased costs of funds from the liquidation of assets, or aggressive bidding for deposits. The Bank uses cash flow match approach and liquid assets approach. **Under the cash flow approach** the Bank attempts to match the cash outflows against the contractual cash inflow leaving around one month cash requirement at all times to absorb unexpected cash movement. The excess liquidity for over one month is managed on the basis of liquid assets approach and as per guidelines.

The Bank has to maintain liquid assets of at least 20% of deposit liabilities in the form of cash or assets that can be converted into cash within a period not exceeding 30 days. Liquidity risk is monitored and evaluated daily by Treasury to ensure that, over the short term and by major currency, the profile of projected future cash inflows is adequately matched to the maturity of the liabilities.

The Basel liquidity principles are implemented more specifically in the Bank's overall liquidity risk framework through the following:

- Board Risk Management Committee and Asset & Liability Committee being focused on the liquidity strategy and management;
- II. Liquidity and Contingency Liquidity policies;
- III. Liquidity Gap / Market Access Requirement analysis for daily management against liquidity limits;
- IV. Monitoring of Liquidity ratios to re-align short term and medium term structural imbalances;
- V. Management of liquidity concentration risk for Significant Funding Sources (large depositors);
- VI. Liquidity Stress tests and the Contingency funding plan.

Liquidity Monitoring and Control

Market Risk Management has established a monitoring and reporting framework for liquidity risk that provides pertinent information to ALCO.

The following lists the salient aspects of monitoring that is done on a regular basis:

- Monitoring of the implementation of the limits according to Market Risk Policy guidelines
- 2. Timely detection and correction of deficiencies in the policies, processes and procedures of liquidity gap risk
- 3. Managing liquidity risk through on-going, periodic and annual reviews
- 4. Verifying the authenticity and availability of the sources of funds available to the Bank

Liquidity Stress Testing:

As part of our Regulatory requirement our Risk Management addresses unusual and unexpected events to occur and accordingly prepares to face and survive such situations. This requires foreseeing situations under hypothetical scenarios considering the question 'what-if' and development of stress tests in such scenarios. This enables the organization to be well equipped to cope with the crisis situations when they arise.

Contingency Funding Plan:

Contingency planning is a combination of early warning procedures and advance preparation for potential high-severity / low-probability liquidity events. In the unlikely

event of a funding crisis, good contingency planning makes the difference between being in control and simply reacting to events.

The need for a robust contingency funding plan is driven by the following factors:

- I. Bank can never avoid liquidity risk
- II. As liquidity risk increases, it becomes even more unhedge able.
- III. It is too expensive to hold enough liquidity to survive a severe or prolonged funding crisis.

Therefore, contingency planning may be defined as the bridge between the liquidity the bank chooses to hold and the maximum it might need.

Main Contributor:

The main contributors to JBL LCR on assets side are Treasury Bills & Bonds, and one of the instruments of Govt. Borrowing, while on the liability side the major portion is deposits mainly contributed by our large corporate & retail customers.

Liquidity Coverage Ratio:

LCR or Liquidity Coverage Ratio is a new liquidity standard introduced by the Basel Committee. This standard is built on the methodologies of traditional liquidity coverage ratio used by banks to assess exposure to contingent liquidity events. LCR aims to ensure that a bank maintains an adequate level of unencumbered, high-quality liquid assets that can be converted into cash to meet its liquidity needs for 30 calendar days. LCR goes beyond measuring the need for liquid assets over the next 30 days in a normal environment. It measures the need for liquid assets in a stressed environment, in which

deposits and other sources of funds (both unsecured and secured) run off, to various extents, and unused credit facilities are also drawn down in various magnitudes.

Composition of High Quality Liquid Assets (HQLA):

The HQLA of JBL LCR consists of Cash, placements /Reverse Repos and the investments in Govt. Security i.e. Treasury Bills & Bonds which are included due to its repo-ability characteristic.

Net Stable Funding Ratio:

NSFR or Net Stable Funding Ratio is another new standard introduced by the Basel Committee. The NSFR aims to limit over-reliance on short-term wholesale funding during times of abundant market liquidity and encourage better assessment of liquidity risk across all on- and off-balance sheet items. The minimum acceptable value of this ratio is 100 percent, indicating that available stable funding (ASF) should be at least equal to required stable funding (RSF). ASF consists of various kinds of liabilities and capital with percentage weights attached given their perceived stability. RSF consists of assets and off-balance sheet items, also with percentage weights attached given the degree to which they are illiquid or "long-term" and therefore requires stable funding. The time horizon of the NSFR is one year.

Currency Mismatch:

As outlined in guideline, while the LCR is expected to be met on a consolidated basis and reported in a common currency, bank manages the liquidity needs in each significant currency. As indicated in the LCR, the currencies of the stock of HQLA are similar in composition to the operational needs of the bank. Bank does not assume that currencies are transferable and convertible in a stress period.

Leverage Ratio

Qualitative Disclosures:

Views of BOD on system to reduce excessive leverage:

Transparent, non-risk based leverage ratio has been introduced by Bangladesh Bank. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The leverage ratio is intended to achieve the following objectives:

- a) Constrain the build-up of leverage in the banking sector which can damage the broader financial system and the economy
- b) Reinforce the risk based requirements with an easy to understand and a non-risk based measure

The policy for Leverage Ratio including off and on balance sheet exposure and capital related policy. The Bank has a well structured delegation and sub-delegation of credit approval authority for ensuring good governance and better control in credit approval system. The Board of Directors and its Executive Committee hold the supreme authority for any credit approval in line with the credit committee consisting of the senior management of the bank.

Policies and processes for managing excessive on and off balance sheet leverage:

There are approved limits for instruments both on-balance sheet and off-balance sheet items. The limits are monitored and enforced on a regular basis to protect against such risk.

Approach for calculating exposure:

Calculation of Leverage Ratio

A minimum Tier 1 leverage ratio of 3% is being prescribed both at solo and consolidated level.

 $Leverage Ratio = \frac{Tier 1 Capital (after related deductions)}{Total Exposure (after related deductions)}$

The exposure measure for the leverage ratio will generally follow the accounting measure of exposure. In order to measure the exposure consistently with financial accounts, the following will be applied by the bank:

- On balance sheet, non-derivative exposures will be net of specific provisions and valuation adjustments (e.g. surplus/ deficit on Available for sale (AFS)/ Held-fortrading (HFT) positions).
- Physical or financial collateral, guarantee or credit risk mitigation purchased is not allowed to reduce on balance sheet exposure.
- iii) Netting of loans and deposits is not allowed.

STATEMENT OF NON-PERFORMING LOAN (NPL) MANAGEMENT

The overall banking sector got impacted by certain factors: excess liquidity, very high rate of NPL in Banks, probability of classification of loans earlier rescheduled by taking the temporary flexibility from regulators, and slower demand for credit from private sectors. Moreover, credit performance of few large commodity traders and importers continues to put pressure on NPL as well as profitability of banking sector. Establishing or maintaining good governance, managing NPL including collecting bad loans and increasing profitability were major challenges for 2017 since recovery from rescheduled loans was not encouraging. Major industrial sectors did not perform in line with expectations mainly due to infrastructural bottlenecks.

From the micro-prudential perspective, it is in the Jamuna Banks' interest to reduce the amount and number of NPLs, as it protects Bank's solvency and liquidity, which is ultimately aimed at protecting our clients' interests, At the same time, resolving the issue of NPLs has a macro-prudential dimension as well, given the high rate of NPLs can pose systemic risk. Systemic risk cannot occur if the aggressive lending activity is lower than it would be. The evidence shows that the level of NPLs is the indication of problems faced by a country's economy and its real sector, which is not capable of repaying its debt, but it can also be a sign of poor economic scenario.

Non-Performing Loan (NPL) is a debt obligation where the borrower has not paid previously agreed upon interest and principal repayments to the designated lender for an extended period of time. The non-performing assets are therefore not yielding any income to the lender in the form of principal and interest payments. Therefore, managing Non-Performing Loan (NPL) to keep it at the lowest possible level is at the core of our business priorities. We have embedded the essence of asset quality in our business values, therefore, instituted the best local as well as international industry practices throughout our business processes.

Jamuna Bank has a Law & Recovery Division, dedicated for management, settlement and recovery of problem credits. Major responsibility of this Division is to formulate strategy and action plans for minimization of risk, prevention of credit losses, maximization of recovery and rescheduling, and/or pursuing legal actions.

The collection process of Jamuna Bank Ltd. is defined as the set of coordinated, appropriate and timely activities aimed at full collection of loans from clients. The process is intended to convert the receivables into liquid assets as quickly and efficiently as possible, at the same time maintaining the goodwill of the client in case of future transactions. As such,

the collection process requires significant interaction with the client, beginning with a careful analysis of the client's situation and continuing through timely and frequent contact over the duration of the loan. Clients should be offered payment alternatives that are timely and appropriate to each situation and all collection activities should be recorded to facilitate continuous monitoring and follow-up as well as control of client compliance with negotiated agreements.

Key Priorities

In order to achieve the general goal, Jamuna Bank Ltd. has identified several key areas and decided to make improvements in regulatory frameworks, capacity building and implementation of laws as follows:

- Structural development of the Division throughout the year;
- Enhancing bank's capacity & strategy to deal with NPLs;
- Enabling business processes & structures to facilitate NPL Management;
- Improving and promoting out-of-court debt settlement;
- Improving in-court debt resolution.

Enhanced Banks' Capacity to deal with NPLs

Furthermore, banks are required to establish efficient monitoring of lending, including the system of early warning for increased credit risk, which enables timely identification of debtors with whom this increase occurred and which includes the definition of qualitative indicators for early observance of increased credit risk.

NPL management is one of the topmost priorities of Jamuna Bank. At Jamuna Bank, monitoring starts from the very beginning of the business process. The steps of NPL Management work flow are as follows:

- Jamuna Bank has promulgated its own credit policies in line with best practices which are guiding business relationship teams to involve their best business efforts towards quality business through systematic management of any potential risk for being highly judicious in selecting borrowers.
- Relationship Managers are preparing loan proposals without any interference of any third party, top management of the Bank or the clients. Our Credit Risk Management Team independently reviews the credit proposals, approves, recommends for onward approval where the potential risks are being screened of ensuring adequate protection against any latent NPL.

- The credit proposals are also being reviewed by the Head Office Credit Review Committee consisting of top officials from different Divisions who also put into a wide variety of inputs from different aspects ensuring the least possibility of default.
- Even after approval of credit facilities, the post approval activities like credit facility documentations and executions are carried out by separate Division namely-Credit Administration Division and vetting of credit facility and collateral documentations are taken care of by separate division namely Legal Division which are independent of reporting from business units to avoid conflict of interests.
- Post disbursement activities like monitoring, supervision, early alerts etc. are performed by Credit Risk Management Division. Recovery, regularization, rescheduling from non-performing assets, activities are initiated by Recovery Division which continuously thrives for protection against NPLs. Regular due date and overdue status, reminders through SMS, e-mails, letters, telecommunications, meetings, discussions, visits etc. with the clients are consistently carried out by the respective Divisions which facilitate managing NPL at the lowest possible level.
- For managing NPL cases arising out even after all the above mentioned efforts, dedicated teams are in place to directly monitor, put into action and intensify recovery and collection drives through internal recovery officers and third party recovery agents where necessary. Litigation Unit of Legal Division is well organized with the assistance of internal law officers and leading law firms of the country to ensure all out legal actions for collection of Bank's dues.
- Risk Management Division, Credit Risk Management Division and Audit & Inspection Division are consistently reviewing and monitoring the implementation and execution of policies, procedures, systems; whistle blowing where necessary; updating with approval of competent authority with various stake-holding Divisions.
- Top Management of the Bank is very vigilant to monitor and review all the relevant aspects; provides necessary directions and guidance time to time to ensure asset quality, maintaining the NPL Ratio towards its desired goals outperforming the industry ratio.
- On top of all, there are several Recovery Task Forces which periodically monitor and review the NPL movements and performance of the management in arresting NPL; provide necessary directions and guidance, thereby ensures highest quality asset portfolio and maximize business and profitability growth.

Under the present overall socio-economic dynamics, Jamuna Bank has prioritized to extend purpose-oriented credit facilities with required security/collateral support as the policy priority since diversion of fund is one of the identified causes of loan default. So, it becomes a imperative need to keep a close watch on the borrower's business operations and the movement of its financial indicators in an empirical manner.

Jamuna Bank has formulated well-structured NPL management strategy covering the following areas:

- No compromise with due diligence in the sanctioning process, keeping in mind "Prevention is better than cure".
- Action plan for potential NPLs.
- Identification of highly risk sensitive borrowers in the credit portfolio.
- Identification of geographical area-wise risk sensitivity.
- Targeting high value end NPL accounts (having exposure of Tk.1.00 crore and above).
- Prompt action on credit reports.
- Capacity building of Recovery related RMs.
- ▶ Goals of monitoring and follow up.
- To ensure that funds are utilized for the purpose for which credits were sanctioned. To see that the terms and conditions are complied with.
- To monitor the project implementation for avoiding time lag and consequential cost over-runs.
- ▶ To evaluate the performance in terms of production, sales, profits on a periodic basis for ensuring that the borrower is keeping to the original plan and is having sufficient profits to service the debts as well as for the sake of maintaining normal business momentum.
- To assess the impact of negative externalities on the performance of the company.
- To detect the symptom of sickness at the early stage for initiating measures at the opportune moment.

Jamuna Bank believes that its intense recovery strategies and innovative approaches will lead to a transition in aspired higher growth trajectory.

During the year 2017, the NPL Ratio of the Bank decreased to 4.02% from previous year's 4.05%. Special efforts are being made by forming various Recovery Task Forces during the course of the year, which were further intensified during the last quarter of the year and it helped to reduce the impact of the stressful economy on NPL to a moderate extent comparing to the industry.

In order to arrest NPL, our focus was not only on reducing NPL portfolio, but also avoiding further NPL. In line with that, we have strengthened our recovery and monitoring drives, deployed external sources where found suitable, strengthened our legal team, thereby intensified recovery initiatives which brought in defaulting clients under negotiation and thereby sizeable recovery was possible in the year 2017. On the other

hand, in order to check any further significant NPL, we have extensively reorganized our Division and enhanced in-house lawyers incorporating leading law firms and re-engineered business and operational processes putting into a strong risk management framework in place which are expected to result improvement in the year 2018.

Entities included in the annual report and sustainability report G4-17

The entities that have been included in the annual report are Jamuna Bank Limited and all its subsidiaries. For the context of the sustainability report, Jamuna Bank's branches and Head Office have been considered in most cases, exceptions have been stated otherwise. The reasons for omission of its subsidiaries are the fact that they are very small in operation and do not materially affect the bank's activities. So in regard to this report, only Jamuna Bank (branches and Head Office) are taken into consideration.

Scope and framework of the report

The report contains the social, economic and environmental initiatives of JBL. The various aspects mentioned in the G4 guidelines and sector specific guidelines were evaluated and considered material based on their significance to our business operations and to our stakeholders in accordance with the G4 Reporting Guidelines and Implementation Manual issued by GRI.

Defining Report Content and the Aspect Boundaries G4-18

An external analysis was taken out to categorize general matters of the most interest. Relevant information available from the internet was used and an initial priority was ascertained based on a comparative study of the sector. Subsequently, the consequences that the selected topics have for the various stakeholders were clarified.

An internal analysis was then executed to distinguish the importance that JBL placed on each of the above issues. In this connection, the Bank's strategic lines were reviewed together with relevant internal information and internal dialogues were held with the various divisions involved in the development of the identified issues.

List of Material Aspects For Sustainability Reporting at Jamuna Bank Limited G4-19,G4-20,G4-21

With regards to JBL, the material aspects represent four content areas (the best interests of the customer, empowering society and the community, employees' quality of life and wellbeing, and inhabiting with the environment), which describe impacts on all of the bank's stakeholders.

Stakeholder Engagement

Stakeholder relationships are of the utmost priority at the Bank. Our vision and strategy is shaped by evolving stakeholder preferences and requirements. Over the years, we have developed various formal and informal engagement mechanisms to provide active communication pathways and channels. These aid our stakeholders to find a forum to express their expectations and concerns.

The channels of communication are customised for each individual stakeholder group based on considerations like individual stakeholder profiling and ease of engagement. They are also supplemented by a host of initiatives to proactively assess the feedback at multiple levels within the Bank. The analysis delivers actionable insights and differentiated

understanding, helping us to devise a more streamlined and concentrated strategy to meet stakeholder expectations. The stakeholder engagement map presented below provides an overview of our continual efforts towards proactively engaging with key stakeholder groups:

Materiality Assessment

We have conducted a materiality assessment during the year to understand material sustainability topics that are of significance to both our business and stakeholders. The assessment through an analytical model to rate the relevant sustainability topics based on its significance to business and importance to stakeholders. The sustainability topics were identified based on our vision and strategy, international frameworks such as Global Reporting Initiative (GRI) aspects and Accounting Standards relevant for Bangladesh, peer group reporting practices, industry thought, leaderships etc. Business drivers and growth opportunities along with an understanding of stake-holder expectations and concerns gathered from existing channels of communication were used as key inputs to rate the topics. The assessment enabled us to draw a materiality matrix and assess the importance of these topics and served as key input for the Management Committee to develop the Bank's Sustainability Framework. As we continue to evolve in our sustainability journey, we further aim to strengthen our stakeholder engagement models to seek more specific feedback on relevant sustainability topics and comprehensively integrate the stakeholder engagement outcome with materiality assessment process.

The role of the Bank's Board of Directors is to provide effective guidance and oversight to the management so that it delivers enduring sustainable value, is fully compliant with extant laws and regulations, and consistently functions in an ethical and efficient manner. The details picture of Corporate Governance practice of the Bank and compliance certificate on Corporate Governance Guidelines are furnished in this report.

Ethics & Risk Management

We accord highest importance to Ethics and Risk Management across our operations and dealings with various stakeholders. Deep-rooted principles of ethics and sound risk management processes have been important contributors to sustained growth in profits over the years and value creation for our stakeholders.

Codes and Policies

Our Code of Conduct and Ethics sets minimum requirements for ethical and acceptable employee behaviour and serves as an ethical compass for every employee of the Bank. The Code mirrors our value system on aspects related to but not limited to ethics, conflict of interest, and bribery and corruption. All employees have to undergo mandatory learning module on the Code and confirm the acceptance of the Code. We also developed Code of Conduct and Ethics for our Honorable Board of Directors by following Regulatory guidelines.

Risk Management

The key components of our risk management rely on the risk governance architecture, comprehensive processes and internal control mechanism based on approved policies and guidelines. Our risk governance architecture focuses on the key areas of risk such as credit, market (including liquidity) and

operational risk and quantification of these risks, wherever possible, for effective and continuous monitoring and control.

The risk management processes are guided by well-defined policies appropriate for various risk categories, independent risk oversight and periodic monitoring through the subcommittees of the Board of Directors. Overall risk appetite and philosophy is set by the Board. The Committee of Directors, the Risk Management Committee and the Audit Committee of the Board, which are sub committees of the Board, review various aspects of risk arising from the businesses of the Bank. The details of Risk Management report has been presented in this report.

Compliance

Accountability towards ensuring compliance to various regulatory and voluntary requirements is set at various levels within the Bank. Our Compliance function continually strives to instill a culture of compliance through monitoring and review of compliance levels backed by various enablers such as dissemination of regulatory changes and spreading compliance knowledge through training and direct interaction. To ensure that all our businesses are operating within the ambit of Compliance Framework, Our Internal Control and Compliance Division is involved in evaluating the adequacy of internal controls and examines the systemic correction required, based on its analysis and interpretation of the regulatory doctrine and the deviations observed during compliance monitoring and testing programme. It ensures that internal policies address the regulatory requirements comprehensively. The Compliance function also updates the management as well as the Board of Directors on the status of compliance and changing regulatory environment.

Fraud Detection and Mitigation

We have formulated a comprehensive Policy on Prevention and Reporting of Frauds. The Policy serves as a reference document for the internal oversight and fraud management framework with a primary objective to develop a secure, 'least vulnerable to fraud' environment in the Bank. The Policy is supported by procedures across operations and supporting policies on anti-money laundering, information security and outsourcing of financial services.

Sensitising and creating awareness among employees on ethics and prevention of frauds is a key process of our system to proactively reduce instances of fraud. Employees are encouraged to report near misses and frauds. The employees are also informed of the investigations conducted

by Discipline and Ethics Management function for alleged breaches of policies and the actions taken.

Benefit plans for JBL employees G4-EC3

Jamuna Bank provides the following benefit plans for its employees upon retirement according to individual's entitlement, which are:

- 1) Provident Fund
- 2) Welfare Fund
- 3) Benevolent Fund and
- 4) Gratuity.

These funds are controlled by a Trustee Board, and decisions regarding investing and encashment of these funds are based on the Board's judgment. The Trustee Board works to ensure that employees on retirement will get full coverage of their portion of the fund. Provident Fund contributions are made by employees (10% of basic salary per employee) and employer (Same amount as paid by the employee). Welfare and Benevolent Funds are deducted from salary based on designation of the employee.

Indirect economic contribution

Our products, services and operations have myriad indirect economic impacts:

- During the year 2017 payment made to national Exchequer of Tk.199,57,51,677.10 against VAT and tax deducted at source as well as of Tk.1,694,957,486 made payment as income tax against profit of the Bank for the year 2016.
- We are helping the society/Nation by creating employment and a well-trained workforce. JBL and its subsidiary employed 2592 employees up to December 2017. During the year 2017 we have employed 231 employees.
- Through our Retail Banking business, we help people achieve their dreams, by providing relevant products and services that meet their lifecycle financial needs and aspirations.
- We are bringing millions of people into the fold of the formal banking system and helping them save, earn livelihoods and avail social security. We promote Financial Literacy as a key enabler to achieve wider financial inclusion.

- Our corporate lending business aides the overall economic expansion by supporting vital sectors of growth. We also drive growth in sectors like SME and Agriculture under the Priority Sector focus.
- Our focused community programs on Livelihoods, Education and Healthcare, undertaken by the Jamuna Bank Foundation, aid and support communities in some of the poorest districts of the country. The Bank made provision for Jamuna Bank Foundation at 3.00% on pre-tax profit of Jamuna Bank Limited amounting Tk.10.49 crore for the cause of development of destitute/ underprivileged segment of the society and for socioeconomic development of the country.
- Jamuna Bank Limited donated Tk.5 crore to Prime Minister's Relief Fund to support helpless Rohingya refugees
- Jamuna Bank Limited donated Taka 2 crore to Prime Minister's Relief Fund for flood affected people
- Jamuna Bank Limited donated Taka 4 crore to three benevolent organizations dedicated for social welfare, education and autism. The three organizations are- Jatir Janak Bangabandhu Sheikh Mujib Memorial Trust, PM's Education Assistance Trust Fund and Suchana Foundation
- We are discouraging projects which is detrimental to the environment and health.

Environmental Aspect

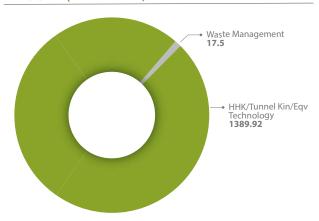

Sustainable lending

We aspire to promote and support environmentally-sound businesses and technologies through our lending business. All the project applications are assessed for negative screening list on environment to ensure these projects are not amongst others:

- Dealing in banned wildlife related products
- Polluting industries unless the units have clearance from Department of Environment and have installed effluent treatment plants, and
- Setting up new units consuming/producing Ozone Depleting Substances (ODS) such as ChloroFluoro Carbon (CFC), Halons and units manufacturing aerosol products using CFCs.

We do not finance/refinance businesses engaged in the above-mentioned products. The project appraisal stage generally includes site visit of the project to assess any adverse impact on the environment and appointment of Lenders' Independent Engineer to advise lenders, on aspects including environmental issues, if any, and its mitigation strategies. Jamuna Bank has incorporated environmental risk management as part of the existing credit risk methodology to assess borrowers through Environmental Due Diligence (EDD) checklists.

SUSTAINABLE LENDING' - OUTSTANDING AMOUNT (IN MILLION) IN 2017

We have been actively funding projects in areas of clean technology, renewable energy, energy-efficiency and sustainable infrastructure. We have initiated the process of framing Sustainable Lending Policy

Climate change is a fundamental threat to development in our lifetime, with the potential to impact millions, threatening agricultural livelihoods, increasing the incidence of natural disasters and affecting water, energy, and food supplies.

We are helping to achieve stability and growth. Jamuna Bank Limited has been working to reduce carbon emissions directly and also reduce the carbon emission for financing environment friendly business. Our Green Banking activities cover multidimensional areas including both in-house environment management and undertaking Green Financing towards supporting Green Economy. As one of the strategic focuses of Jamuna Bank Limited is 'going green', which includes efficient energy consumption, paperless office, financing renewable energy etc. As a green bank, we tend to reduce the carbon emission which ultimately helps to ensure green environment in the society.

Agriculture and Rural Credit

The overall economic development of the country is closely interlinked with the development of the agricultural sector. There is no alternative but to increase production through the development of agriculture to ensure food security, similarly, agriculture is still now the largest employment generating sector of Bangladesh. Besides, agriculture makes the largest contribution to favorable Balance of Payment position through poverty alleviation, providing raw materials for industry, reducing imports and enhancing exports.

The Government, Bangladesh Bank and Banks have taken a number of initiatives to prop up agricultural growth- such as innovation in high yielding rice, paddy seeds and high value crops/ fruits, extension at the field, provision of target based agriculture assistance, increase of agricultural credit flow and inspection, supply of uninterrupted power for

irrigation, diversification of agricultural products along with extension of marketing facilities. To be self-sufficient in food production as well turn the agriculture sector into a dynamic one government has adopted numerous policy measures action and Bangladesh Bank has formulated its Agricultural and Rural Credit Policy and program to ensure easy access to the agricultural and rural credit facilities by the farmers from the scheduled banks to the country.

Jamuna Bank Limited (JBL) has popularized its Agriculture Loan Project (ALP) for providing agricultural and rural credit supports since 2008 and successfully completed nine years following the credit norms, policy and guidance of Bangladesh Bank (BB). This is a short and easy term loans project where loan is directly disbursed to the borrowers through JBL branches and linkage program with micro finance institutions (MFIs/NGO) timely and quickly following the Area Approach. The bank determines the rate of interest based on customerbanker relationship and risks analysis for various sectors and sub-sectors where no charge is applicable except declared interest (9% which is fixed by Bangladesh Bank Circular no:02 dated 27thJuly,2017,effective from 01.07.2017). The loan is repaid through a customer friendly practice with a grace period of maximum two to five years with flexible installments of monthly, quarterly, half yearly and yearly.

In the year 2016-17 JBL disbursed Tk19,488.44 Lakh to 28,183 borrowers (85% women) of rural Bangladesh under the

Agriculture Loan Project (ALP). This disbursement was 45.80 percent higher than that of previous year. About 10% loan disbursement was made from bank own network which is increasing while rest 90% was from MFI linkage program. Up-to 2016-17 ALP has disbursed Tk 194.88 Lakh to 28183 borrowers who are marginal, small farmers, sharecroppers even landless people of rural areas.

JBL disbursed agricultural and rural credit to main eight sub sectors where share of crop is highest (51%) followed by livestock, poverty alleviation, pisciculture, crop storage, irrigation tools, other agricultural tools and others.

As a recognition of great success in achieving targets of disbursing agricultural and rural credit, JBL got appreciation and thanks letter from BB for five consecutive financial years since 2012-13.

In addition to agricultural and rural credit JBL has the sister concern called Jamuna Bank Foundation (JBF) provides training supports on different agricultural based trades and other services to the borrowers for their overall development. As a result of such loan and non-loan supports, the bank has created additional employment opportunities and improved living standard of rural people especially for women and unemployed youths.

Green Banking

The primary focus areas of our environmental management initiatives are energy efficiency, material resource efficiency, renewable energy. Since inception Jamuna Bank has adopted eco-friendly banking services as a way to lower carbon footprint. We strive to reduce environmental impacts incidental to our products and services through 'Green Banking' practices. Digitisation of products, services and processes is vital for both reducing environmental impacts and providing superior customer service by enhancing the

safety, ease and convenience of banking. As part of our commitment to uphold green economy, Jamuna Bank Limited has signed a participation agreement with Bangladesh Bank under refinance scheme for lending in direct green finance products i.e. solar energy, bio- gas, effluent treatment plant brick field etc.

Energy efficiency is one of the vital components of our environmental agenda to reduce environmental and carbon footprint. Electricity drawn from grids forms the primary component of our energy consumption while we use fuels such as diesel to generate on-site electricity to supplement the energy requirements of offices and branches. Continual

improvement measures such as monitoring and control of energy consumption, green Information Technology (IT) initiatives, use of green/star-rated energy efficient equipment and exploring usage of renewable energy

are undertaken to enhance energy efficiency and reduce environmental impacts.

From the commencement of the Banking operation, JBL started automated banking from our first branch at Mohakhali, Dhaka. Now at the end of 2017, the total Number of branch stands at 122 and all these branches are fully automated and under online operation along with several services.

At present, our Bank has Real Time Online Core Banking Solution and number of Value Added Services(VAS) like SWIFT, ATM Operation, National Payment Switch, VISA Card, Mobile Financial Service (MFS), SMS Banking, Internet Banking service, Mobile Banking, BACH & EFTN, Trade Finance Processing Center (TFPC), RTGS & different types of utility bill collection like WASA, DPDC, TITAS, Bkash etc. in highly secured manner.

'Green Banking' message at the ATM alerts the user to avoid printing of transaction slip, if not needed. Customers can set their debit card/credit card PIN at the Bank's ATM or through MFS applications in a secure manner, thus eliminating the use of paper for PINs sent through post.

Our 25 branches out of total 122 no. branches are partially powered by Solar Energy. We are encouraging on line communication like FTP and intra-mail instead of printed documents. We are also using both side of paper for printing purpose. Energy saving bulbs are being installed and other measures are being taken for lesser use of energy.

We adopt 3R (Reduce, Reuse, Recycle) principles for managing our material consumption and waste generation. Paper is one of the key materials that is consumed in our operations. Paper saving is vital aspect of our operations management. We are increasingly focusing on digitisation of banking services and internal processes to reduce the paper consumption while enhancing customer service and internal process efficiency.

Jamuna Bank always encourages the officials to consider the following green approaches while travelling: (A) Encourage employees to use Public Transport/Carpool Program. (B) • Encourage employees to use eco-friendly energy for private vehicles.

In addition to the Bank's own 243 ATMs, the Bank has joined National Payment Switch Bangladesh (NPSB) network, which enabled the Debit Cardholders of the Bank to enjoy cash withdrawal facility from other ATMs under NPSB Network. Jamuna Bank has used the BACH and BEFTN mechanism for convenient payment activities which to a great extent supports the concept of green banking.

JBL is continuously conducting supporting program such as workshop and training exclusively on green banking with a view to enlightening the personnels concerning the much talked about subject namely green banking. Most often distinguished resource persons were the key speakers at the workshops and training session. The workshops and training programs are designed in light of green banking policy guidelines as well as guidelines on environmental risk management issued by Bangladesh Bank. It is evident that employees after participating in the workshops and training session more enthusiastically strive to ensure compliance of regulatory requirement. Besides they remain meticulous in assessing a project proposal which have some environmental aspects. Environment risk rating becomes a routine exercise in JBL. In 2017, JBL conducted 2 no. of workshops on Green Banking and Environmental Risk Management. Total numbers of participants in the said workshops were 49.

Jamuna Bank Limited is very much aware about efficient use of water. As a financial institution its use of water is already very much restricted. Major consumption of water is for drinking purpose. Our bank is well aware to ensure pure and safe drinking water for its employees.

Our Jamuna Bank Tower (under construction) will be a good instance of green building. The building has incorporated a multitude of green features at the design stage to help lower its environmental impacts. Some of the key features of the building include maximum use of natural light with tempered double glazed insulated glass covering the whole facade, use of renewable energy for part energy load requirement, and sensors for urinals and wash basins to regulate water use, 'Greenguard' compliant furniture/fixtures and low toxicity levels of carpets and furniture. Preference is also given for green features in the leased premises for branches and other offices.

Jamuna Bank Foundation (JBF), a charitable legal entity established by Jamuna Bank Ltd. for performing CSR activities of the Bank, arranging Tree Plantation program each year. Recently a tree plantation program was arranged by at JBF at Jamuna Bank old home premises. About 500 trees were planted under the program. Jamuna Bank Foundation (JBF) also engages with communities on sustainable agriculture practices leading to environmental sustainability.

About jamuna bank's product responsibility

Customer Health and Safety

Generic disclosures on Management Approach G4-DMA

Report why the aspect is material.

Undoubtedly, customer is the most important stakeholder of the organization and the aspect is material as the customers help to identify organization's economic and profitable aspects. A customer in the branch or any touch point of the bank gives us a chance to serve them and it helps the organization to earn revenue, profits. We serve and undertake activities that are environment friendly for our valuable customers.

Report how the organization manages the material aspect or its impacts.

Jamuna Bank manages the material aspects in terms of the following ways:

- ▶ The brochures, leaflets of products are produced through manufacturers who have proper safety and compliance in their factory.
- All the manufacturers are enlisted with the Bank.
- The marketing and promotion of products and services are undertaken through brochures, leaflets, billboards, online advertisement, social marketing etc. All these initiative do not hamper health and safety of the customers.
- ▶ The product of the bank is mostly intangible and that's why development process is of no issue for health and safety to the customers.
- The product and service touch points such as Branch, ATM machines, POSs, Kiosk are safe and environment friendly and safety are ensured.

Report the evaluation of the management approach:

For ensuring customer health and safety, service touch points are monitored through management supervision such as Branch Audit, and Customer Satisfaction Surveys etc. The results are periodically communicated to the management whether safety standards are in place with safety indicators. Based on the result of the safety and health issues of the customer service touch points, corrective measures are taken in the Branch, ATM for effective selling of products and services.

Report the percentage of significant product and service categories for which health and safety impacts are assessed for improvement. G4-PR1

It is to be mentioned that the Bank's products and services are intangible and that's why it does not impose direct health and safety hazards. Other than the products and services, the

customer touch points are safe, standard and comfortable, monitored by surveillance cameras. Besides, the Bank's Facility Management Division, Audit and Compliance periodically check for safety and health issues.

Number of incidents of non-compliance with regulations and voluntary codes concerning the health and safety impacts of products and services during their life cycle, by type of outcomes G4-PR2

As intangible products, the products and services of our bank are not directly linked to health hazards and safety issues of our customers comprising our depositors and borrowers. However, a number of borrowers of the bank are involved in manufacturing various goods which have impacts on health and safety of users; but this is not under the purview of our organization. Hence, such incidents of the said noncompliance are not available for our records and reporting purpose.

Product And Service Labelling

Generic Disclosures on Management Approach G4-DMA

A. Report why the aspect is material.

The products and services of the bank includes transactional accounts, deposit accounts, deposit schemes, debit cards, credit cards, treasury services, NRB Banking services, Internet Banking, SMS Banking, as well as loans and advances for corporate, retail, SME and Agri-Customers. These asset and liability products and other services of the bank have great impact on the people and the society directly and indirectly; which pave the way of sustainable development.

B. Report how the organization manages the material aspect or its impacts.

As a focused Private Commercial Bank, Jamuna Bank offers an integrated set of products and services across retail banking, wealth management, corporate banking and investment banking. We serve individuals, small and large businesses, corporations, institutions and governments. Jamuna Bank seeks to satisfy the needs of our customers and clients by offering a well-rounded value proposition – a wide range of products and services and thereby deliver a smoother income stream and sustainable returns. We also undertake activities in selected markets in order to support the needs of customers and clients. To sale the products and services to customers of different segments, nation-wide branches and different divisions of Head Office work together through informing, attracting and serving customers using multiple media and modes.

C. Report the evaluation of the management approach:

The bank has systematic approach to evaluate all the employees of the bank particularly those who work against pre-set targets and deadlines. The back-office located at HO

level can monitor the performance of branches using core banking software, in-house dash boards and audits of various nature. Everyone in the bank plays roles in achieving branch/division/unit-level goals for contributing to the common mission and vision of the bank.

Type of product and service information required by the organizations, procedures for product and service information and labelling, and percentage of significant product and service categories subject to such information requirements G4-PR3

A. Report whether the following product and service information is required by the organizations procedures for product and service information and labelling:

	Yes	No
The sourcing of		
components of the		Χ
product or service		
Content, particularly with		
regard to substances		
that might produce an		Χ
environmental or social		
impact		
Safe use of the product or		X
service		^
Disposal of the product		Χ
and environment		^
Other(social impacts)	X	

Other Social Impacts: as the bank's products and services are unlike tangible goods manufactured in factories, hence sourcing of components, content/substance affecting environment, disposal of such intangible products are not applicable to the case of banks. However, our bank's products and services including deposit and advance products have short-term and long-term, direct and indirect impacts on various stakeholders of the bank and the society as well. Our deposit products help the customers from all walks of society to build savings for them and their future generations; which in turn help the bank to support borrowers for taking loans and advances for their economic and personal ventures. This not only benefits the bank itself for earning revenue for the shareholders and employees but also contribute to the socioeconomic development of the country.

b. Report the percentage of significant product or service categories covered by and assessed for compliance with such procedures

As intangible products, the service categories of our bank are not relevant for such assessment and compliance.

Anyone interested about product information can know well from the bank's website (www.jamunabank.com.bd), account opening forms, branch employees in person, other business touchpoints, brochures and leaflets, other promotional materials etc

Marketing Communications

Generic Disclosures on Management Approach G4-DMA

a. Report why the aspect is material.

The Bank's marketing communication is a significant activity to attract the target customers. Marketing communication creates awareness, perception, emotional ties within the customer's mind. Over the years, the marketing communication creates brand identity which creates goodwill of the bank. Thus, the communication efforts help to sell the products and services across all branches, corporate clients, SMEs etc.

b. Report how the organization manages the material aspect or its impacts.

The marketing mixes of the Bank are billboard, product brochures, fliers, dangler, display board, notebook, gifts materials, website etc. Each year, the marketing mix is redesigned so that new products and services have a new look. The customers become aware and avails products and services which in turn help them in their investment, savings and business. Besides, being aware of the product features, the customers can decide in which products or services to invest. Also, the customer can query about the products and services being advertised or communicated.

c. Report the evaluation of the management approach:

In monetary way, there is no mechanism for evaluating the effectiveness of the management approach of marketing communication. However, the communication of products and services have indirect impact as the target market as well as the citizens of the country aware that such options of investment lies with the Bank. The press covers the Public Relations, Marketing Initiatives undertaken by the Bank and as such the bank's brand identity increases.

Sale of banned or disputed products G4-PR6

Report whether the organization sells products that are:

Banned in certain markets It is evident from our Annual Report disclosure, media, internet and available information that the organization

- has not taken part in any sale of banned or disrupted products. The bank also don't finance in sectors that are illegal as per regulatory guidelines and laws of the land.

 and lenders achieve their personal and business
 objectives. The bank has list of discouraged sectors of
 finance and the organization complies AML regulations
 of Central Bank to ensure stakeholders' interests as well as
 to avoid any undue public debate.

Total number of incidents of non-compliance with regulations and voluntary codes concerning marketing communications, including advertising, promotion and sponsorship, by type of outcomes. G4-PR7

Our bank highly prioritizes on Corporate Social Responsibility, Socio-economic development, indirect impact on poverty alleviation, job creation etc. It directly contributes part of its profits to CSR activities. The marketing communications are directed toward the target audience with specific brand guidelines, Executive Committee of the Board and Management. In the reporting period, there were no issues of non-compliance.

Customer Privacy

Generic Disclosures on Management Approach G4-DMA

a. Report why the aspect is material.

With constant media attention about computer virus or the daily deluge of spam e-mail, most organizations have concerned them-selves with what might come into an organization via its network, but they have ignored what might be going out. With growing news of data theft at national and global level, our bank is cautious of preventing leaks of financial, proprietary and non-public information of customers- both depositors and borrowers. In today's increasingly litigious and highly competitive workplace, confidentiality is important for a host of reasons for our bank: Failure to properly secure and protect confidential customer information can lead to the loss of banking business as well as present and potential customers hurting reputation of the organization. In the wrong hands, confidential information can be misused to commit illegal activity (e.g., fraud or discrimination), which can in turn result in costly lawsuits for the employer. Hence, the aspect of ensuring customer privacy is material to our Bank.

b. Report how the organization manages the material aspect or its impacts.

At our Bank, we have a formal confidentiality policy describing both the type of information considered confidential and the pro-cedures employees must follow for protecting confidential information. At the very least, we adopt the following procedures for protecting confidential information:

- All confidential documents are stored in locked file cabinets or rooms accessible only to those who have authority of "need-to-know."
- All electronic confidential information is protected via firewalls, encryption and passwords.
- Employees clear their desks of any confidential information before going home at the end of the day.
- Employees refrain from leaving confidential information visible on their computer monitors when they leave their work stations.
- All confidential information, whether contained on written documents or electronically, is marked as "confidential."
- All confidential information is disposed of properly (e.g., employees should not print out a confidential document and then throw it away without shredding it first.)
- Employees refrain from discussing confidential information in public places.
- Employees avoid using e-mail to transmit certain sensitive or controversial information.
- Before disposing of an old computer, the Bank uses software programs to wipe out the data contained on the computer or have the hard drive destroyed.
- Encrypting sensitive customer information when it is transmitted electronically via public networks.

Training employees to take basic steps to maintain the security, confidentiality, and integrity of customer information, including Considering notifying consumers, law enforcement, and/or businesses in the event of a security breach.

c. Report the evaluation of the management approach:

The bank at Branch and Head Office level work on their part as well as collectively to protect customer privacy. General audit, IT audit are performed to safeguard customer information. The Management of our Bank instructs formally and informally to protect customer privacy emphasizing not to disclose any confidential information to any one over phone, e-mail or someone in person other than the account holder without authentication. Hence, we have demonstrated our effectiveness of customer information including names, addresses, and phone numbers; bank and credit card account numbers; income and credit histories; and financial data etc.

Total number of substantiated complaints regarding breaches of customer privacy and losses of customer data G4-PR8

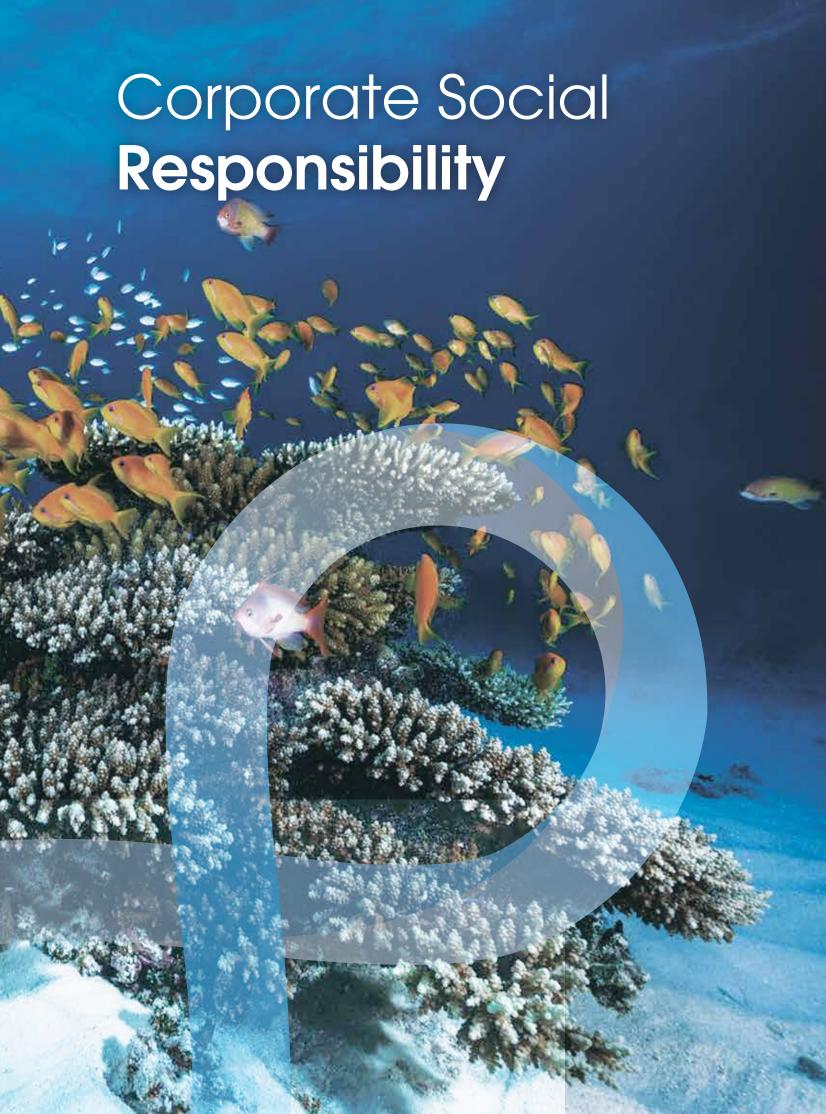

a. Report the total number of substantiated complaints received concerning breaches of customer privacy, categorized by:

Customers are always at the focal point of our Bank and for which the bank has active Complaint Management Cell across all the geographical divisions of the country to hear from customer and resolve their complaints. The Bank has dedicated Complaint Management Cell to address, mitigate and resolve the complaints.

b. Report the total number of identified leaks, thefts, or losses of customer data

No such identified issues have been found in case of identified leaks, thefts, or losses of customer data or any substantiated complaints.

CORPORATE SOCIAL RESPONSIBILITY JAMUNA BANK FOUNDATION

Why Corporate Social Responsibility?

Corporate social responsibility (CSR) refers to strategies corporations or firms conduct their business in a way that is ethical, society friendly and beneficial to community in terms of development. Business is basically a socio-economic entity. Although business is fundamentally an economic activity, it cannot be carried out in isolation of society. It is a group endeavour and therefore has a number of responsibilities towards different stakeholders - management, workers, customers, shareholders, government and the society. Realisation and fulfilment of responsibilities towards these stakeholders is termed as corporate social responsibilities. Further, business cannot function independently and depends on the society for various requirements. Business is a part of the society and has to follow and operate within the limits of the rules and regulations prescribed by the society. It is the responsibility of the business to provide fair wages and facilities to its employees, provide a fair return on shareholders' funds, pay taxes and duties regularly and contribute to social development in which it is prospering.

CSR refers to strategies corporations or firms conduct their business in a way that is ethical, society friendly and beneficial to community in terms of development

Today, the world faces lot of challenges ranging from environmental degradation through poverty and human rights, to energy and resource supply issues. Our social responsibility policy focuses on using our capabilities as a business to improve lives and sustain our planet through contributions to local communities and society at large. Corporate Social Responsibility is not only an act for humanity but also to provide good working environment to an organization's employees, to pay just remuneration, to give regular leave, to care as a human beings and to care environment of the society.

Benefit of Practicing CSR:

- Improved financial performance,
- Reduce risk exposure,
- Identification of new products and services,
- Enhanced brand images,

- Increased customer loyalty,
- Improved recruitment and retention performance, Tax waiver on socially and environmentally responsible business lines,
- Reduced costs through environment best practice leading to sustainable profitability

So business needs to be engaged in CSR activities in their own interest. Besides fulfilling the ethical obligations, the banks can be immensely benefited from the new client bases created as a result of CSR activities. Moreover, banks that mainly do business with the depositor's money cannot avoid responsibility to the society.

Socially Responsible Banking

A socially responsible and sustainable banking sector accepts to take on responsibility for the impact of its activities on society and is prepared to be accountable for this.

The impact of the banking sector on the stability of the economy requires a sector managed with integrity and due diligence that:

- handles the risks inherent to its activity in a realistic and responsible manner;
- is transparent to customers and stakeholders about its operational management and the products offered;
- pays attention to its basic function as engine of the economy, by e.g. lending to private persons and companies.

Characteristic of the activities of the financial sector is that it also has an indirect impact on a sustainable society. Via the integration of CSR criteria in the policy regarding the funding of governmental bodies, companies and private persons, borrowers are motivated to take sustainability into account in their projects.

Also via the offering of sustainable products (e.g. sustainable saving products, ethical funds, green loans) a sustainable economy is indirectly stimulated.

In addition, the financial sector, as a large-scale employer, also has social responsibility. We are thinking here of attractive and challenging long-term employment, as well as a fair and balanced remuneration policy.

Finally, the sector also has direct ecological impact due to, e.g., power and paper consumption in the many branches and the mobility of the employees. Also

Bangladesh Bank initiatives in respect of formalizing CSR:

Bangladesh Bank has taken initiatives in respect of formalizing CSR in the banking sector of Bangladesh and issued directives to the banks and, financial institutions in this regard. It defined the strategic objective for CSR engagement, provided some priority areas with a suggestion to foster CSR in their client businesses. As per Bangladesh Bank Circular no. Education plays a great role in the life of everyone all through the life. Getting proper education is very necessary to get success and happy life just like food is necessary for healthy body. It develops personality of the people, provides physical and mental standard and transforms people's living status. It promotes the feeling of physical, mental and social well being by providing better life. Good education is constructive in nature which constructs our future forever. It helps a person to improve his/her status of mind, body and spirit. It provides us lots of confidence by giving us bulk of knowledge in many field. It is a single and vital way to the success as well as personal growth.

To assist underprivileged students Jamuna Bank Foundation took initiative for Scholarship an programme namely (a) Scholarship for the unprivileged & disabled but meritorious students. (b) GPA-5 Scholarship among the Offspring of employees of Jamuna Bank Limited; intended to remove barriers of many economic hardship-hit deserving students so that they can achieve their desired level of education.

Bangladesh has certainly made remarkable progress in expanding the primary education especially raising enrollment of the students and bringing gender parity. Unfortunately, due to poverty, many meritorious students fall behind and as result, they are dropouts in the graduation level. To assist those underprivileged students Jamuna Bank Foundation took an initiative for the following Scholarship programme intended to remove barriers of many economic hardship-hit deserving students so that they can achieve their desired level of education and contribute to building the nation.

- (a) Scholarship for the unprivileged & disabled but meritorious students:
- (b) GPA-5 Scholarship among the Offspring of employees of Jamuna Bank Limited.

1.1 KNOWLEDGE AND SKILLS DEVELOPMENT

1.1.1 Establishment of Jamuna Bank Institute of Information, Communication & Technology

Digital Bangladesh is one of the nation's dreams, and so special emphasis is given on the application of digital technologies to realise Vision 2021, which we commonly call Digital Bangladesh. The slogan of "Digital Bangladesh" of the Government of Bangladesh has special significance for national development. Digital Bangladesh with Vision 2021 is a big impetus for the use of digital technology in the country.

In spite of several bottlenecks and limitations, works are in progress for the realisation of Digital Bangladesh. Several projects for digitalisation have been completed and a big number of projects are under progress.

ICT is the backbone of any digital initiative. It covers the vast area of information ensuring connectivity through the information technology, communication technology and of course the telecommunication technology. Without the development of the ICT sector, the dream of a Digital Bangladesh would not be possible. The main factors of ICT are the physical backbone and the intellect. Knowing the importance of ICT, Jamuna Bank Foundation has established "Jamuna Bank Institute of Information, Communication & Technology" (JBIICT) at National Plaza, 109, Bir Uttam CR Datta Road, Sonargaon Road, Dhaka with a motive to provide free ICT training among the poor but meritorious students. Al-Haj Nur Mohammed, Chairman of Jamuna Bank Foundation inaugurated the Institute. Managing Director & CEO of the Bank Shafiqul Alam presided over the ceremony. Besides, Mirza Elias Uddin Ahmed, Additional Managing Director, A. K. M. Saifuddin Ahamed, Deputy Managing Director and Mamun Mahmud, Head of HRD of the Bank were present as special Guest in the program. 120 students were primarily selected for training. Al-Haj Nur Mohammed, the Chairman of Jamuna Bank Foundation told in his inaugural speech that this Institute will play a vital role in the Economic Development of the country.

1.1.2 Free Primary School for the slum dwellers at Rayerbazar, Dhaka

Bangladesh's urban population is rising fast. In the capital, Dhaka, An estimated one - third of the city's population live in slums. They are lacking in wealth, power and social connections; probably under-counted in national surveys; and under-served by both government and non-government organisations.

We know that access to basic education lies at the heart of development of the Country.

Knowing the importance of education, a free primary school under Bank's CSR activities program has been established at Rayerbazar Dhaka under the auspices and finance by

Jamuna Bank Foundation with a view to come along side the children of slum dwellers who are in darkness and yet to be enlightened by formal education.

AGRICULTURAL AND RURAL CREDIT

The Jamuna Bank Limited (JBL) has popularized its Agriculture Loan Project (ALP) for providing agricultural and rural credit supports since 2008 and successfully completed nine years following the credit norms, policy and guidance of Bangladesh Bank (BB). This is a short and easy term loans project where loan is directly disbursed to the borrowers through JBL branches and linkage program with micro finance institutions (MFIs/NGO) timely and quickly following the Area Approach. The bank determines the rate of interest based on customerbanker relationship and risks analysis for various sectors and sub-sectors where no charge is applicable except declared interest (9% which is fixed by Bangladesh Bank Circular no:02 dated 27thJuly,2017,effective from 01.07.2017). The loan is repaid through a customer friendly practice with a grace period of maximum two to five years with flexible installments of monthly, quarterly, half yearly and yearly.

In the year 2016-17 JBL disbursed Tk. 19,488.44 Lakh to 28,183 borrowers (85% women) of rural Bangladesh under the Agriculture Loan Project (ALP). This disbursement was 45.80 percent higher than that of previous year. About 10% loan disbursement was made from bank own network which is increasing while rest 90% was from MFI linkage program. Up-to 2016-17 ALP has disbursed Tk 194.88 Lakh to 28183 borrowers who are marginal, small farmers, sharecroppers even landless people of rural areas.

JBL disbursed agricultural and rural credit to main eight sub sectors where share of crop is highest (51%) followed by livestock, poverty alleviation, pisciculture, crop storage, irrigation tools, other agricultural tools and others.

TREASURY

In the backdrop of ever changing regulations and market volatility: the Treasury Division has been at the heart of all major banks and financial institutions, where starting from the liquidity risk to overall balance sheet risks are managed. The objective of the Treasury is to manage the liquidity of the bank i.e. all current and projected cash inflows and outflows must be monitored to ensure that there is sufficient cash for funding to bank's day to day operations, as well as, excess cash is properly invested to ensure optimization of income. Jamuna Bank Limited has a vibrant treasury team having a good combination of young and experienced personnel to accomplish the above objective. JBL treasury is engaged in management of liquidity risk, interest rate risk, securities market as PD, funding to corporate businesses, Off-shore Banking Unit and Foreign Exchange risk within the laid down policies and guidelines of Bangladesh Bank. It maintains the required statutory cash and liquidity reserve of the bank.

JBL has been rewarded 16 times by Bangladesh Bank as the best primary dealer.

"JBL Treasury is maintaining approx 1600 client based along with individuals, insurance company & others corporate bodies."

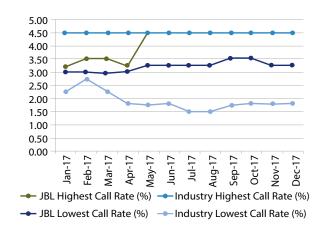

JBL Treasury primarily focused on:

- Expanding transaction volume
- Utilizing different market opportunities within all risks and regulatory limits.
- Strengthening ALM operations.
- Creating a diversified fund management channel.
- Minimize market, liquidity and interest rate risks and finally
- ▶ Enhancing profitability.

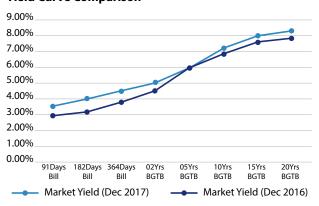

JBL Treasury operates designated desks to deal with treasury issues and endeavors to provide solutions best suited to customers' need in a wide range of areas including the following:

- Money Market
- Fixed Income & PD
- Corporate Service
- Foreign Exchange
- Offshore Banking Unit (OBU)
- Asset Liability Management (ALM)

JBL MM Desk: Money market desk assumes the responsibility of maintaining Cash Reserve Ratio (CRR) and also local currency fund management of the Bank. All through 2017, the interbank money market experienced a liquid scenario as the year 2016 but end of the year the market became little bit tighter because of deposit crunch. Though JBL Money Market desk has maintained the position very fruitfully and make profit by transactions. The desk kept a close watch and strict monitoring to make sure CRR is maintained. JBL money market is one of the most active and efficient desks in the inter-bank money market of the country. The desk used the money market products such as call money, term money, SWAP, Repo, Reverse Repo etc to the best of their potential to reap a considerable income in 2017. In this year, JBL treasury has introduced a new money market product called Notice Money as per Bangladesh Bank & JBL guideline as pioneer.

Yield Curve Comparison

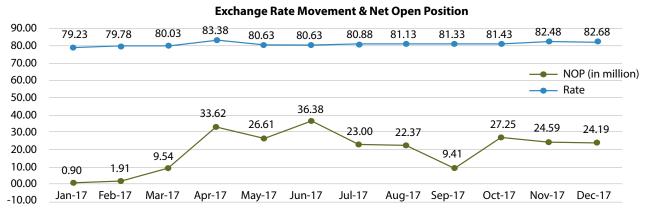

JBL Fixed Income & Primary Dealer Desk: As a Primary Dealer, JBL performs its responsibility as an underwriter to Government Securities. JBL Treasury proactively conducts its role as a PD & makes a very impressive profit in 2017. It also maintains the required liquidity reserve in approved securities. In recognition of its proactive role and being the

most successful trader of securities in the secondary market, JBL has been rewarded 16 times by Bangladesh Bank as the best primary dealer. JBL fixed income desk maintained a sizable amount of securities in its trading book and has been very successful in utilizing the market potential to book hefty gain. JBL Treasury is always appreciated by regulator & other PDs and Non-PDs because of its active participation in Primary Market as well secondary market. Still JBL PD desk is incomparable in the market for its intensive knowledge and volume of trading. JBL Treasury is maintaining approx 1600 client based along with individuals, insurance company & others corporate bodies.

JBL Corporate Service Desk: JBL Corporate Service Desk has been supporting the clients who were in need of short term funds for business transactions under a special arrangement called "Special Investment Fund for Corporate (SIFCO)". The desk acted as an intermediary to channelize the surplus fund in the market to the clients who was in need short term funding. In the year 2017, Corporate Desk has shown an impressive dedication to help all branches corporate clients & makes profit by spread of funding.

JBL Foreign Exchange Desk: Through JBL FX desk the dealers have explored proprietary FX trading (mainly in USD & EURO) and provided pricing facilities to other players in the inter-bank market. JBL Treasury has been playing a pivotal role and meeting all the funding requirement of the bank including foreign currency. As all the previous years in 2017, the FX desk of JBL Treasury has also maintained bank's Net Open Position (NOP) and FC liquidity in a discreet manner to manage exchange rate risk involved in commercial transactions of on-shore and offshore banking units. JBL is one of the leading market makers of foreign currency products like spot, swap, forward transactions in inter bank market. In 2017, JBL Treasury made forecasts on future exchange rate movement on a regular basis and maintained its open position based on its forecasted future position. Being a good predictor, JBL

FX desk gained a good amount of profit in the year 2017 by depo, swap & outright buy-sale of USD. JBL FX desk predicted an upward trend during October –December 2017 when JBL made cautious moves and managed the position with high efficiency and made handsome gains. In the year 2017, FX desk also makes an impressive profit by doing proprietary trading in EURO currency in Mashreq FX trading & ICICI FX trading platform.

JBL OBU: Long way since, JBL launched Off-shore Banking operations eight years ago in order to cater to its customers' need for FX products and services and provide comprehensive benefits of Off-shore banking. As a third generation private commercial bank, JBL OBU has earned enormous confidence of the foreign investors due to its strong commitment and dedication over the years. JBL Off-shore Banking Operations taking into mind with the following objects:

To widen and diversify JBL's area of services to the foreign investors as they do not have the opportunity of availing credit facilities from different Financial Institution in Bangladesh.

- To diversity the sources of foreign exchange earnings by increasing export of Bangladesh through the EPZs.
- ▶ To encourage and foster establishment and development of industries and commercial enterprises in EPZs in order to widen and strengthen the economic base of Bangladesh.

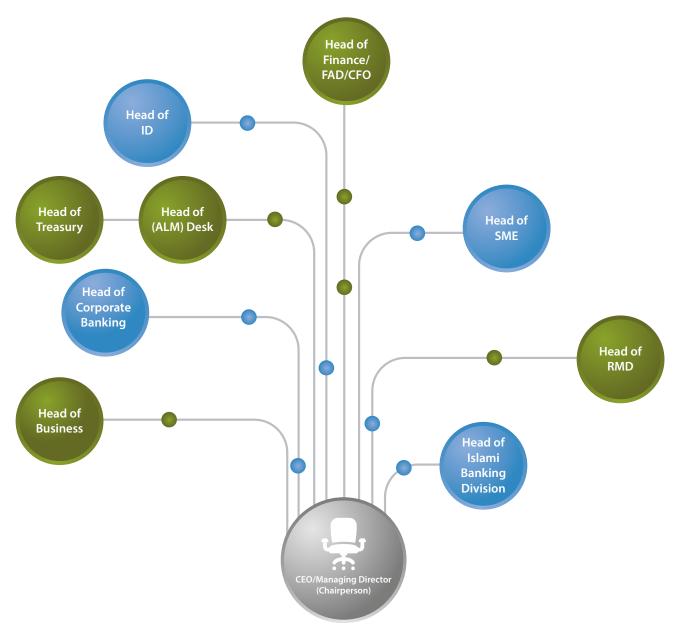

JBL OBU invested around USD 64 million in offshore market to support Type-A industries, local entrepreneurs as well as to strengthen its asset portfolios.

Asset Liability Management: We have separated ALM desk under Treasury Division which analyze and provides market information to Asset Liability Management Committee

(ALCO) for taking strategic decision. The ALM desk of JBL Treasury is a highly efficient team preparing the ALCO package and providing analysis, evaluation, risk profile and mitigation to help deciding on essential components of balance sheet management. The Head of Treasury places the results of balance sheet analysis along with recommendation in the ALCO meeting where important decisions are made to minimize risks and maximize return. The ALCO committee consists of the Managing Director as the Chairman of the committee & Head of Treasury is the member secretary. This committee meets at least once in every month to analyze, review and formulate strategy to manage the Assets and Liability of the bank. The ALM desk provides analysis, instruction and guidance in the area of Asset Liability management for proper management of balance sheet of the bank. It takes various decision regarding interest rate of deposits, loan pricing, Credit Deposit Ratio, Fund transfer pricing etc. The Asset Liability Management (ALM) of the bank mainly focused along with the ALCO committee to work with-

- Maturity Risk Analysis
- Interest Rate Risk Analysis
- Liquidity Risk Analysis
- Contingency Funding Plan (CFP)
- Currency Risk Analysis
- Value at Risk Analysis (VAR)

Thus, JBL Treasury Division with the help of ALM desk has taken the opportunity of arbitrage from the prevailing interbank money market condition to attain optimum level of performance in 2017. Moreover, through continuous market analysis, JBL ALM desk regularly revised bank's deposit rates and updated other scheme products to offer the best available banking products for clients. Regular revision of deposit rates also helped to maintain a steady spread for the Bank.

HUMAN CAPITAL

The greatest strength of Jamuna Bank Limited (JBL) is its "Human Resources". At JBL, we are exclusively depending on Human Resources, therefore, they are considered as Human Capital in the Bank. It is our Human Capital who has brought the phenomenal successes for the Bank through "Discipline,

Individual Efficiency, Customer Service, Quality and Team Work". We believe these five (05) factors lead us to develop the most effective and efficient Human Capital which ensures success to achieve the corporate goal of the Bank through the following approach:

The above five factors successfully applied by our competent Management through their relentless efforts. Human Capital Management has the responsibility to attract, retain and develop the talents in order to engage "Right Person in Right Place in Right Time with Right Pay under the Right Leadership with the Right Strategy". This 6R strategy ensures the optimum satisfaction of our employees which subsequently have an

impact to render the best customer service that leads to boost our business and maximize our wealth.

Besides A group of motivated, multi-talented employees are the main asset of JBL. The bank has positioned itself with a performance-driven rewarding work culture where employees are treated with respect and receive expanded

opportunities to realize their diverse potentials. This also benefits the organization by demonstrating value creating behaviors. To ensure long term sustainability, JBL emphasizes on skill and merit based recruitment and selection process, highly competitive remuneration package, sufficient training and development programs, career growth with succession planning, high-performance culture and satisfying working atmosphere where employees are able to escalate their grievance and receive counseling.

The Company recognizes its Human Capital as a core part of its business sustainability and growth. The bank has a special focus on converting the human resources into the human capital. The Company promotes a safe and conducive environment for the development of our employees, which creates commitment and increases productivity. JBL recognizes that in order to retain the Company's market leadership; hiring, retention and training of talented employees is an imperative and continuous process.

JBL considers quality and skilled Human Resources as one of the most valued assets for the company to attain organizational objectives and goals. JBL believes that its human resources are critical in building and running the company.

Factors of HR Business Partner Approach of JBL

Discipline

A disciplined environment helps both management and employees on their best behavior. Efficiency is tied to a disciplined organization and at JBL, we emphasize on practicing a culture of discipline among our human capital by their discipline in thoughts and actions. We provide enormous importance to make an efficient culture of discipline among our employees.

Individual Efficiency

The efficient work force acted as the fundamental pillar to elevate the Bank at today's height of success and beyond. We are always concerned with upgrading our entire workforce to the next level of skill and efficiency. Our management largely emphasize on efficiency of individuals which has a positive impact on the overall business growth of the bank. Our employees are efficient, pro-active, competitive and loyal which leads to efficient human capital management in our bank that correlates with organizational goal.

Customer Service

The products of all Banks' are more or less similar, the only thing can distinguish us from others is our pro-active customer service. Customer service is all about people getting what they want within shortest possible time in the best possible way. Human capitals in our bank are playing a significant role to designing and delivering great customer service with the welcoming attitude. We are committed to meet our customer

satisfaction and expectation through personalize service and GUEST approach. And the Bank is continuously developing its human capital to achieve more and more Customer Satisfaction.

Quality

Our management acts as a pivotal change agent in this process by benchmarking the Bank's needs and providing the best quality in every aspect. JBL believes in equal opportunity and maintains that employees are the driving force behind quality business growth. Main objective of the bank is to bring in competitive advantage through steady adaptation to the best HR practices. We strongly put emphasis on the hygiene factors, energized workplace with the best possible quality of assets that manifest our corporate culture.

Team Work

Teamwork is an important and integral part of our success. In our everyday work situations, we all work in a team and we are frequently engaged in collaborative relationships with others where there is a single vision of continuous improvement of people and bank. At JBL, we ensure all members participation and transparent communication among the team members that leads us to meet our vision.

Recruitment & Selection

A career at Jamuna Bank Limited offers an opportunity to influence career growth and eventually also lead to social mobility. We constantly strive to identify and define the intangible characteristics that contribute to our unique culture and aim to reinforce them in everyday life. We want our employees to have a clear vision for the business and to foster enthusiasm to drive superior performance.

Talent Development

JBL's talent development is a process for identifying and developing new leaders, who can bring strength to the talent pipeline. Succession planning is critical to us, as it enables us to ensure leadership continuity and avoid extended and costly leadership vacuum. We work hard to promote from within the organization so that we can create greater career opportunities for our people. JBL's assesses the leadership needs of the company in a way that ensures the selection of qualified leaders which matches its mission and goals.

Healthy Work Environment

Adequate attention is always accorded to the health and safety of our employees, primarily through providing safeguards to company with appropriate security arrangements. Employees enjoy favorable working hours so that they can ensure a balance between professional and personal interests. The company has fire safety alarms, fire extinguishers and emergency exit in its all premises in order to safeguard the

employee's event of conflagration. To create a healthy working environment the company gives priority by facilitating central air- conditioning ambient lighting system, canteen facility, separate prayer rooms for both male and female, sufficient sanitary facilities etc.

Learning & Development

Jamuna Bank Ltd. puts great emphasis on training and provides resources and opportunities for development to the employees. The goal of training is for employees to master the knowledge, skill and behaviors emphasized in training programs and to apply them to their day-to-day activities. JBL acknowledge and support the need for employees to balance work and personal interests and encourage flexibility wherever possible. Effectively designed training programs targeting the right group of employees are conducted on a regular basis

Compensation and Benefits

The Bank recognizes the need for remuneration policies to be competitive and these have been designed to correspond to individual qualification, skill, performance, contribution and responsibility ensuring a real differentiation amongst other companies. The recruitment strategy of the company is based on attracting and retaining the most suitable people at all levels of the business.

Comprehensive Performance Management Programme

JBL has a Key Performance Indicator (KPI) process that evaluates employees' yearly performance against business targets at the year-end. Our Key Performance Indicator (KPI) process enables us to emphasize on them growth of our employees as well as identify their learning and career development needs. Annual incentive schemes are used to reward the short-term business results which create noteworthy value for the business. They represent a reward for the collective achievement of defined corporate results to which each individual has made a contribution.

Reward and Recognition Programme

JBL has a well-designed Reward & Recognition program that gives special attention to employees' actions, efforts, behavior and performance. Our Key Performance Indicator (KPI) process enables us to emphasize on them growth of our employees as well as identify their learning and career development needs. Annual incentive schemes are used to reward the short-term business results which create noteworthy value for the business. They represent a reward for the collective achievement of defined corporate results to which each individual has made a contribution.

HUMAN RESOURCES VALUE CREATION

JBL, in this digital age has created a pleasant atmosphere within the work environment where the talents are contributing their best to be succeeded in this ever changing business environment. It has reduced employee stress and improved their belongingness with the Bank. Supportive and diverse work environment is always the key for attracting dedicated talents, therefore, we aim to create a workplace which rewards individuals for their efforts, promotes worklife balance, and offers employees the opportunities to grow, prosper and advance in their careers. That is why JBL always offers competitive, performance-based compensation, benefits and numerous employee friendly assistances.

We believe, the role of Human Resources is not only the daily management of HR tasks, it is also considered to be the HR service centre. As a business partner, it also plays as the support center for the Managers to achieve the goal of the organization in a team. HR is sharing and facing the challenges with the business units to achieve and to build the competitive advantage for the organization.

To combat the changes of business needs and to achieve the common goal, HR takes strategic initiatives and change

JBL is in verge of transforming
Human Resources to Human
Capital to attain the Organizational
Goal of the Bank and believes in

"Coming together is the beginning. Keeping together is the progress Working together is the success."

management projects. Today's HR leadership is all about the clear focus on the people management. The HR Manager gives the vision of the final state of the talents of the business unit and finds way together how to implement the vision proactively. Moreover, it is meeting all the operational support of the line managers focusing on business. To meet the strategic changes with the business need by keeping excellence in all areas oh HR services we have developed the following HR model:

Change Management

The business landscape of the 21st century is characterized by rapid change brought about due to technological, economic, political, environmental and social changes. It is no longer the case that the managers and employees of the Bank in this decade can look forward to more of the same every year. The role of senior managers becomes crucial in driving through change and ensuring that businesses are well placed with respect to our competitors. In fact, the pace of change is so rapid that the only way out for organizations is to change its people. So, it becomes critical that organizations develop the capabilities to adapt and steer change since change is the only constant in business today. In this context, we are continuously embracing positive changes along with our employees to be the best in the industry.

HR Service Excellence

While embracing the changes, by giving priority for the HR service excellence, we provide integrated, innovative people centered services that foster the attraction, retention and development of an engaged, healthy and effective workforce that supports the strategic direction of the Bank. We help people to achieve their goals, we deliver excellence in service and solutions, encourage learning, as well as create opportunities for individuals to grow their careers. We keep current with the best HR practices to provide a valued set of HR services. We welcome and value feedback from our clients i.e. the employees and initiate regular communication to ensure we deliver client centered exceptional service.

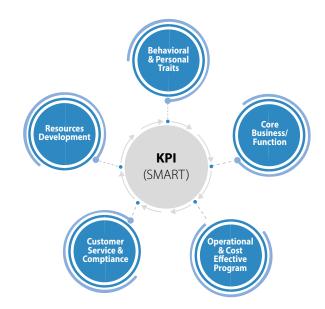

Digital HR

We are converting Human resource processes into Data to track, monitor and optimize the HR services to its employees. With the support of the internal software talents we have developed our own world standard HR software which saved the money of the stakeholders. We are creating the competency inventory to use the right man in the right place. We are also working on digital learning system as we know there are no alternatives for learning. We are also taking digital services from the external bodies for acquiring the best talents.

Performance Driven Culture

In order to award and to retain the talents of the Bank we appraise/evaluate the employees objectively and unbiasedly and to take concrete decisions, Key Performance Indicators - KPI (SMART) is introduced in the bank using "The Balance Score Card". JBL is solely depending on the contribution of its existing talents. In the year 2017, a real-life SMART KPI used as performance management tools to evaluate the contribution of all individuals in a transparent manner to assess quantitative and/or qualitative performance vis-à-vis set target of a given

year. The measurement factors are designed in combination with Objective and Organizational & Personnel behavior.

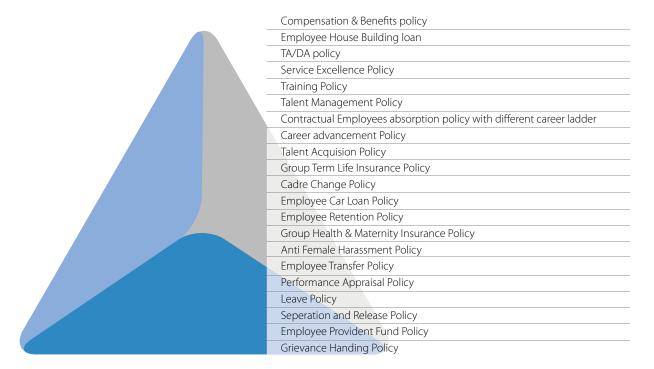

At the get-go of the year, the corporate goal of the organization is cascaded to individual level and every one of the bank becomes aware of the target, duties and responsibility. At the end of the year, each manager of the branches and divisions rate each individual against the set goal i.e. target vs. achievement of the individual. To this process, the employee first makes self-rating and then the managers have a sit with the specific employee and discuss with the employee about the achievement and the target.

The Rating Scale through Bell Curve: The bell Curve varies from year to year depending on the achievement of the business. Though it is fixed by the management to cap the rating scale for every division and branch but the branches and divisions who fulfil their target 100% have the opportunity to increase high rating or decrease the number of low rating.

JBL standardized Policies

JBL has transformed and formulated policies in to standard work policies so as to create a healthy corporate environment which leads to nurturing resources into capital. The policies of JBL have been formulated focusing on the employee retention, retirement benefits and work place safety issues.

Employee Motivation

Motivation is a part of an individual cognitive structure and is not directly observable. Behavior is the direct consequences of the motivation. So, we drive our people's willingness and attitude to work and run an extra mile for achieving the given target. And we know if the employees feel motivated, they will perform well to achieve the individual goal and so the HR professionals of the bank have established following motivational tools both in intrinsic and extrinsic aspects:

Ext	Extrinsic Motivating Factors Intrinsic Motivating Factors		
1	A competitive Pay Package	1	Work recognition for high achievers
2	A Standard work policy	2	Higher responsibility for competent people
3	A smooth Interpersonal Relationship among colleagues	3	Scope of Career Growth for the talent
4	A happy work place environment	4	Retention of talent
5	Accelerated Promotion	5	Providing greater scope of work
6	Non Executives (FAVP) Car Facilities for High Performers	6	Job Security
7	02 (two) gratuity for completing 06 years banking career	7	A friendly supervision system by line managers

Employee Compensation and Benefits

To standout in the industry and to create core competencies of the bank for harvesting competitive advantage and to be one of the top leaders, we have smoothened a trajectory of not only making profit but also a centre for service excellence to make the bank a coral reef for the customers:

Broad Band Approach in Compensation Management: A competitive pay package has already been initiated to retain and attract the talent for the bank. As we believe in retention of the talent who are the stars and cash cow of the organization.

The competitors find it difficult to woo our talent due to our competitive compensation.

Pay for Performance: JBL strongly emphasizes on healthy and energized workplace to create competitive mind set up among the individuals to enhance quality, efficiency and skills resulting into better performance to reach the goal. The better talent is acquired and retained with competitive pay.

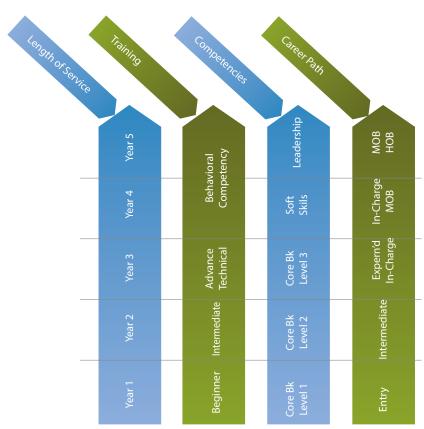

Key Employee Benefits: JBL management intensively thinks of the employee benefits to groom and grow its employee for a longer period.

Training and Development

Jamuna Bank Training Academy (JBTA) through its continuous training and development program acts as a catalyst in augmenting the competencies of employees and equipping them with right skills and knowledge for meeting ever changing business needs of customers in different segments.

Having importance on training and development, JBL designed career paths and planning for career succession align with individual training plan to ensure all individuals are accorded and receive full consideration for developmental opportunities to enhance their competencies, leadership skills and for career advancement. A model training and career plan is given below:

Training has now emerged as a critical function in the organizational endeavor to compete and keep the workforce fit enough to take on the competition. Jamuna Bank Training Academy (JBTA) aligning with Human Resources Division is focusing on comprehensive grooming of employees' in key banking areas like credit, foreign exchange, GB as well as various soft skills trainings to groom the personal traits of the individuals.

Apart from these, different outreach trainings are being provided to the employees as external training and foreign training for future betterment of the career. The Bank also provides "Future CEO" program to the senior management and managers as a part of succession planning management for the Bank. With a view to encourage a culture of innovation

across the organization, JBL has taken the next leap in areas of e-Learning in reaching out to every single employee.

The management of JBL believes in the philosophy "Talent becomes obsolete without renewed and refreshed knowledge & skills". Training and Development only can add the flavor of new horizon of knowledge and skills to the performance of the people.

However, the management expects and desires "Performance and achieving the set goal" from the people of the bank. So, Training, Development and knowledge sharing program are the pivotal points for the management. Through providing on the job and off the job training, Performance of the employees are developed and sharpened.

To see the skill value, the JBL management team continuously measures the skills of the employees' existing and future potential and services because people who are capable of rendering future services possessed potentials and constitute the capital to attain the expected goal of the bank.

To see the economic value, JBL management follows the investment and contribution of the individuals. The investment of individuals is acquisition cost, remuneration cost, training cost and other cost which will consequently generate maximum income for the bank.

Net Employee Turnover

At JBL, the dedicated human base is reflected in the very low turnover rate of its employees. JBL has adopted a very balanced people strategy in the Bank that can drive growth and also adequately meet the various challenges, like all kinds of separation and challenge of successions.

Concerted efforts have been taken for fostering career progression of employees primarily to reward them for their efforts and performance to motivate them further to climb up the corporate ladder and thereby fulfill both organizational as well as personal aspirations. Therefore, compare to the industry employee turnover rate, our turnover rate is quite low which indicates very good condition of the Bank.

Gender Diversity

An optimal manpower mix is a prerequisite for the nourishment and growth of the business. Hence diversity in manpower planning has been put in place at JBL for estimating

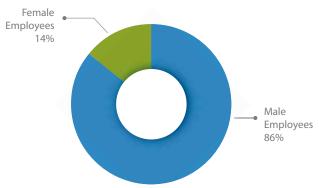

manpower needs by level, skills and by Branch and also for strategic workforce planning for the next few years to feed into various other HR interventions of recruitment planning, career progression, vacancies and postings /deployment.

The Bank has put in place a clearly defined Recruitment policy which steers the diversity in recruitment from different channels, hiring of larger numbers in view of the emerging requirements as projected by the strategic workforce planning.

GLOBAL TRADE SERVICES

Facilitating Global Trade is one of the core activities of the bank. Over the last few years, the global trade financing of Jamuna Bank Limited (JBL) has gained a stable expansion. The resilience and dedication of JBL team has been ensuring continued growth of the Bank in line with the rising economy of the country. JBL serves its Global Trade and Foreign Exchange clients through countrywide 122 branches - 21 dedicated Authorised Dealer (AD) branches and 101 other branches supported by centralized Trade Finance Processing Centre (TFPC). International Division (Financial Institutions) at Head Office looks after the Policy Guideline and overall operation of Global Trade & Foreign Exchange Business of the Bank.

Global Correspondent Network & Nostro Relationship

Jamuna Bank Limited always strives to enhance and expand foreign correspondent relationship (RMA) to facilitate global trade business of the Bank. As such, JBL's correspondent network is spread at important financial centers and business hubs all over the world, and has contributed towards expansion of the Bank's foreign trade business. Currently, the Bank is maintaining RMA with top rated 338 banks covering 81 countries at 901 locations. Furthermore, as part of continuous endeavor to expand the correspondent network, International Division has been establishing RMA with banks around the globe as and when required. ID facilitates global trade business through establishing RMA, LC Advising, Confirmation, Discounting/Negotiating and Collection of Export Bills, Re-discounting, Refinancing, Sourcing of FC funds, FC Term Loan, Bank Guarantee, Trade Payment Settlement, Foreign Exchange Services (e.g. commercial remittances, private remittances, travel expenses, payment of fees for tuition, exam, immigration etc.) and any other banking needs / services.

We have foreign correspondent banking relationship with top rated 338 banks covering 81 countries at 901 locations. In 2017,

- Import showed a remarkable growth of 20.72% & Export showed 8.26%
- We have been enjoying Credit Line from Asian Development Bank (ADB)
- Total transanction covered by OBU, in the form of Discounting, Term Loan and LDBP has been USD 139.79 Million

In order to facilitate the foreign exchange transactions, Jamuna Bank Limited maintains 20 Nostro accounts in the most popular currencies e.g. US Dollar, EURO, Pound Sterling, Japanese Yen, Swiss Franc, Saudi Riyal, etc. with reputable foreign banks at commercially key locations.

The bank maintains substantial credit lines with globally recognized multinational banks and financial institutions for adding confirmation of LCs, re-discounting of bills, refinancing and sourcing of FC fund as and when required.

Export-Import Business

JBL has been showing consistent growth in both its import and export business. In 2017, Import showed a remarkable increase to USD 1,272.40 million registering a growth of 20.72% as compared to USD 1,121.53 million in 2016. Except Pharmaceutical raw materials, import of all other items including Wheat, Edible Oil, Sugar, Raw Cotton, Fabrics, Synthetic/ Mixed Yarn, Chemicals, Paper, Mobile Accessories, Scrap Vessel etc. increased. The anticipated crisis in food due to the devastating flood in northern districts and stream of Rohingyas taking refuge in southern coastal areas from August 2017 led a significant growth in import of Rice.

USD (Million)

Aggregate exports increased by 8.26% in 2017 to USD 969.39 million from USD 952.79 million in 2016. Readymade garments continued to occupy an overwhelming share of the bank's export basket. Jute Yarn, Fabric (woven), Clothing Accessories, Pet Bottle, Leather (crust & finished), Bicycle, Agro-processed products etc. contributed towards improving the Bank's performance in the export sector.

Confirmation & Discounting of LCs are vital to the Bank's Foreign Exchange business. In 2017, International Division has arranged 34.21% more Confirmation & Discounting of LCs from Correspondent Banks than that of previous year. Confirmation & Discounting of LCs arranged this year through our Correspondents and OBU was USD 422.43 million which is 44.89% of our total Sight & Deferred Payment LCs. We have been enjoying credit line from Asian Development Bank (ADB) since 2012 that has enabled us to route confirmed LCs to most banks.

Centralization of Global Trade Finance

The centralization of our trade services is one step forward to the bank's commitment to create true customer's value and provide seamless services to its customers as well as to strengthen our compliance culture. Presently, Trade Finance Processing Center (TFPC) processes and manages the foreign trade business of non-AD branches centrally in such a way that the branches and their customers do not feel any remoteness. All statements are generated centrally to comply with the compliance of internal and external authorities. Our TFPC is equipped with a talented and experienced team and performing in a cost effective and environment friendly way by reducing turn around time, resources and labours to achieve its corporate goal.

The business volume of many Non-AD branches has increased robustly with active support of TFPC. In 2017, TFPC's import and export reached to USD 170.37 million and USD 101.07 million registering a growth of 18.89% and 4.32% over 2016 respectively.

Offshore Banking Business by OBU

Jamuna Bank Limited established Offshore Banking Unit (OBU) with a view to catering the banking needs of non-resident customers both in EPZs and abroad. Over time, it has extended financing facilities to the local customers as well. In 2017, total transaction covered by OBU, in the form of Discounting, Term Loan and LDBP has been USD 139.79 million which is 7.65% higher than that of 2016. The Bank is offering Mid and Long Term financing facilities in Foreign Offshore Banking Unit has secured a profit of USD 6.00 million which is 86.92% higher than that of 2015. OBU Currency (FCY) at a lower rate of interest to its prime customers through OBU as well.

Off-shore Banking Unit has secured a profit of USD 1.00

million which is 31.58% higher than that of 2016. OBU intends to increase its client base as well as engage into different derivatives e.g. Options, Factoring, Forfaiting etc.

SWIFT Network

Jamuna Bank Limited joined SWIFT ALLIANCE in 2003, which is recognized globally as the most effective network for fastest, reliable and secured financial transactions worldwide. Currently, the Bank uses web based centralized application, SWIFT Alliance Web Platform (AWP) and all AD branches and TFPC have access to a wider range of functionalities with uninterrupted, real time communication infrastructure connecting more than 11,000 banking and securities organisations, market infrastructures and corporate customers in more than 200 countries and territories. SWIFT Sanction Screening software has been installed to reduce risks and comply with various local and international Sanctions.

Policy Guideline, Supervision, Monitoring & Reporting of FX Transactions

International Division defines the extent and manner of Foreign Exchange Transactions in light of circulars issued by the Central Bank and other regulatory authorities as well as on its own maintaining the best interest of the bank. It supervises the branches, TFPC & OBU in their day to day FX transactions and monitors to ensure compliance. ID also looks after all sorts of regulatory reporting related to Global Trade & Foreign Exchange transactions of the Bank. It aims at ensuring compliance and regularity of reporting to the Central Bank and other regulatory bodies.

Jamuna Bank Limited adheres to the highest level of integrity, efficiency and caution in providing value added services to its customers, keeping pace with the changing trends in Global Trade Services, thereby creating an ongoing relationship of trust and confidence in all their dealings with the Bank.

DIGITAL BANKING

Information & Communication Technology (ICT) is playing a vital role in almost every aspects of financial sector. ICT helps the banks to improve the efficiency and effectiveness of services to the customers and improvise business processes, managerial decision making and work group collaborations, which strengthens the competitive positions in this rapidly changing economy . Since inception of Jamuna bank in the year 2001, ICT Division is working for the Automation of Jamuna Bank Limited. From the commencement of the Banking operation, JBL started automated banking from our first branch at Mohakhali, Dhaka. Now at the end of 2017, the total Number of branch stands at 122 and all these branches are fully automated and under online operation along with several services.

During this long journey of 17 years, ICT Division contributed a significant role and setting up milestone for the automation of the Bank. At present, our Bank has Real Time Online Core Banking Solution and number of Value Added Services(VAS) like SWIFT, ATM Operation, National Payment Switch, VISA Card, Mobile Financial Service (MFS),SMS Banking, Internet Banking service, Mobile Banking, BACH &EFTN, Trade Finance Processing Center (TFPC), RTGS& different types of utility bill collection like WASA, DPDC, TITAS, Bkash etc. in highly secured manner.

The ICT Division also maintains and monitors different level of ICT Security in compliance with International standard ICT Security Policy. We have implemented Fall Back and Business Continuity plan for all branches to ensure safety and security of ICT operation and to ensure uninterrupted customer Service.

For enhancement of security, we have introduced different types of security products like Damballa, Paloalto (Next Generation Firewall), NMS (Network Monitoring System), SIEM (Security Incident & Event Management), Mail Filter, Blue Coat which has certainly strengthened Jamuna Bank's IT security far better than before. We have achieved milestone by introducing Bkash Agent bill Collection, "SureCash" Mobile Banking, School Banking, RTGS, eDoc (Security Document Management System), E-Leave for bank employees, E-Remit(Centralized Remittance Management Solution), upgrading network infrastructure, "FloraBank" (corebanking software) version upgrade, Access Control system in HO/Branch and bring all branch/ATM under CCTV surveillance. In 2017 ICT Division has done it's role to establish 10 new Branches and 38 new ATM Booths. At present, we are working to make Jamuna Bank's IT capability compared to be one of the best in the banking industry of Bangladesh by taking more steps to adopt new technology and services for automation of the Bank in the years to come.

BANKING OPERATION

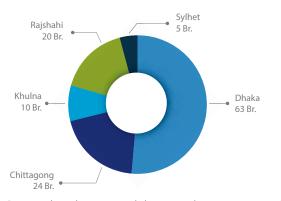

To manage overall operational activities of the Bank having 122 (One hundred twenty-two) Branches, the Banking Operation Division works like as a bridge between Central Bank & Branches for implementation of its relevant rules, policies & procedures by circulating instruction time to time. Its functions are broadly related to regulations for compliance under various provisions of Bank Company Act.

% of Urban & Rural Branch

This Division has a pivotal role such as establishment of new branch, Digital Banking Centre/Collection booth, ATM booth, Relocation of Branches, managing Evening Banking and operations of branch and issuance of guidelines for smooth functioning of the Bank. The Division searches & surveys various areas for potential business with opportunity of economic activities. Therefore it does the feasibility report for expanding branch network also relocation of the existing branches. In this respect in the year 2017 the Division has surveyed total 51 (fifty-one) different locations throughout the country and 10 (ten) new branches have been opened.

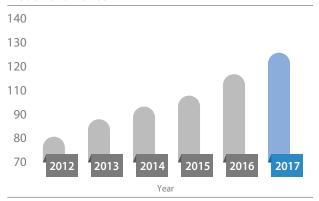

Zone wise concentration of Branches

The Division has the responsibility to make arrangement for execution of MOU with various institutions like DPDC, DESCO, PDB, WASA etc. The division has arranged to execute MoU with Titas Gas T&D Co. Ltd. in this year for Online Collection of the Gas Bill instead of conventional way of collection. Also MoU with Karnaphuli Gas Distribution Co. Ltd. (Chittagong

based) for Online Collection of the Gas Bill is under process. These are the opportunities for our Bank to collect huge low cost deposit by opening such institutional accounts. The division also makes arrangement for collection of Hajj deposits through execution of MoU with Sonali Bank Ltd. & Hajj Agencies' Association of Bangladesh (HAAB) having approval from Ministry of Religious Affairs to facilitate Hajj Pilgrims.

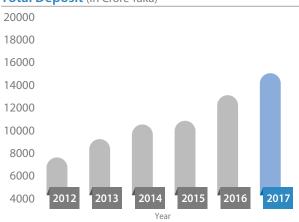

No. of Branches

The Division plays & will play the key role for execution of the following tasks:

- Launching of Jamuna Bank's Digital Banking Centre-'Jamuna Bank Speed'
- Online collection of various utility bills.
- NID information verification through Election Commission of Bangladesh.
- School Banking & Student Banking Activities.
- Centralization of the account opening process.
- ▶ Call Centre establishment for the Bank.

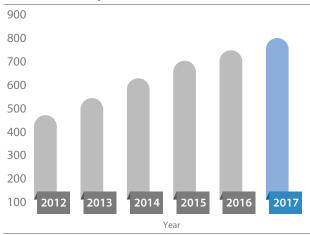

Total Deposit (In Crore Taka)

The role played by the Banking Operations Division is important in the context that it implements operational

policies, procedures and ensures compliance of the same. Banking Operations Division provides guidance to the branches enabling them to provide quick and error free customer services and thus maintains standard of services. In the year 2017 we have arranged Customer Satisfaction Survey among the customers of our 10 Branches and outcome of which is very positive.

No. of Total Deposit A/cs (In Thousand)

As a part of Banking Operation Division, a "Customer Service & Complaint Management Cell" has been structured. To become trustworthy to the customers, to protect interest of the customers as well as strengthen Banker-Customer relationship are the mottos of establishing the Cell. In addition necessary remedial measures/ corrective steps have been suggested to the branches for solving the various complaint/ trouble of the customers. Details are as under:

In The Year	Complaint	Complaint	Resolution
	Received	Resolved	%
2017	23	23	100

The Division discharges vital responsibility regarding arrangement of different programs of our Bank. It organizes MANCOM (Meeting of Management Committee), Manager's Conference, Annual Business Conference & Deposit Campaign and minutes of the programs are also prepared & delivered from the division in due time. It also prepares Grading of Branches, Zone-wise Segregation of Branches, reply of Income Tax/NBR queries, related circulars and other Business Development programs as and when required by the Management.

INTERNAL CONTROL & COMPLIANCE OF THE BANK

Review of Internal Control System:

Jamuna Bank has continuously been taking drives to develop effective internal control system to help safeguard the assets, check the accuracy & reliability of accounting & financial information, promote operational efficiency, encourage adherence to applicable laws, regulations, policies & procedures and ultimately for providing reasonable assurance regarding achievement of business goals.

Segregation of Duties:

Internal Control & Compliance Division ensures through its periodical audits that the duties assigned in the branch/division/unit are properly segregated, that is, all the tasks are not confined to any single person/group. The ICCD is comprised of 03 (three) interrelated wings/units, namely i) Audit & Inspection Department, ii) Monitoring Department and iii) Compliance Department to work together for achieving the Bank's desired objectives.

Audit & Inspection Department:

This department conducts comprehensive/surprise/special inspections on branches and different divisions/units of Head Office in line with the yearly audit plan as approved by the Audit Committee of the Board. The division chalked out the Risk-based Annual Audit Plan for the year 2017 duly approved by the ACB covering all the branches and divisions of the Bank under the instructions of the ICC Guidelines of Bangladesh Bank.

Monitoring Department:

It monitors and reviews the operational performance of various branches on off-site basis by collecting and reviewing the quarterly operations report (QOR), loan documentation checklists (LDC), departmental control function checklists (DCFCL), etc. If any major deviation is found, this department recommends to the Head of ICCD for sending inspection team to the concerned branch for thorough review. Besides, they prepare Memo for the Audit Committee of the Board and subsequently, communicate their instructions to the branch/ division for prompt implementation.

Compliance Department:

The primary responsibility of this department is to ensure full compliance of the regulatory requirements of Bangladesh Bank and Bangladesh Securities & Exchange Commission including directives of National Board of Revenue, Registrar of Joint Stock Companies & Firms, Ministry of Finance, Ministry of Commerce, etc. having their significant impact on the Bank's business. The Board of Directors and the Senior Management Team of the Bank have been playing effective role to develop

a highly ethical and moral standard in the Bank to ensure strong compliance culture.

Control Environment:

The control environment acts as the foundation of all other control components in JBL. As it is strong and positive, the overall system of internal control has been quite effective. This environment has been possible to maintain only due to the efficiency, integrity, ethical values and commitment to competence of its qualified management team under effective the guidance of the BOD.

Risk Management:

Though the rising competitions, increasing deregulation, introduction of innovative products and delivery channels have pushed the Risk Management process to the forefront of today's financial landscape, the BoD, its EC, AC, RMC & other Management Committees/Units in JBL have been able to gauge the risks and enforce appropriate actions to manage financial and other risks professionally and systematically to bring the Bank strong to stronger position. As the ICCD has been independently examining the internal control measures set for all the branches/divisions/units in line with the approved policies & procedures, the Bank has been able to address, measure and mitigate the risks continuously to build strong profitability & sustainable capital base.

Control Activities:

Control activities help identify, prevent or reduce the risks that impede accomplishment of the institution's objectives. To build this internal control component strong the Bank has been able to frame adequate policies, procedures, techniques and mechanisms for carrying out the directives of the management and Board successfully.

Accounting Information & Communication:

A proper system of accounting information & communication has been established in the Bank to provide accurate and updated business information and proper communication procedures internally and externally for proper maintenance and reconciliation of accounts on timely basis.

Self-Assessment/Monitoring:

While conducting comprehensive/surprise/special inspection on different branches the auditors evaluate, assess and gives risk rating of the branches in the reports and submit it to the Audit Committee of the Board for further evaluation and recommendation

ANTI-MONEY LAUNDERING/COMBATING THE FINANCING OF TERRORISM (AML/CFT) ISSUES

For most of the countries Money Laundering and Terrorist Financing raise significant issues with regard prevention, detection and prosecution. Sophisticated techniques are now used to launder money and finance in terrorism activities add complexity to these issue. Such techniques for money laundering may involve: multiple financial transactions, use of different financial instruments and other kinds of value-storing assets. Different types of financial institutions, accountants, financial Advisers, shell corporations and other service providers like remittance service; complex web of transfers to, through and from different countries. On the other hand, terrorism financing involves intention to provide assets or assist in some way to conduct terrorist acts. A less simple concept, however, is defining terrorism itself, because the term may have significant political, religious, and national implications that may vary from country to country. Money laundering and terrorist financing often display similar transactional features, generally with the concealment and disguise of the source of illicit proceeds.

To deter and prevent ML, TF & PF of weapons for mass destruction risk, Government of Bangladesh & Bangladesh Financial Intelligence Unit (BFIU), Bangladesh Bank formulated relevant laws & regulations, issued directives and adopted other policies, Proper "Know your Customer (KYC)" policy, strong Customer Due Diligence(CDD) system along with adequate punitive measures for accused criminals and to keep launderers away from the Legitimate financial channels.

To comply and monitor the effective implementation of the BFIU's instruction and guidance notes, Jamuna Bank Limited has prepared a "Money Laundering and Terrorist Financing Risk Management Guideline".

The compliance program of Jamuna Bank Limited has been developed considering the size and range of activities, variability of situation, nature of operations and degree of ML,TF & PF of weapons for mass destruction risk that are probable to be facing by the bank.

- Senior Management role including their commitment to prevent ML, TF & PF of weapons for mass destruction.
- Internal policies, procedure and controls including Bank's AML & CFT policy, Customer Acceptance Policy, Customer

- Due Diligence (CDD), transaction monitoring, Self assessment, Independent Testing Procedure, employees screening, record keeping and proper reporting to BFIU.
- Compliance structure including establishment of Anti Money Laundering Division (AMLD)/Central Compliance Committee (CCC), appointment of Chief Anti-Money Laundering Compliance Officer (CAMLCO) and Branch Anti-Money Laundering Compliance Officer (BAMLCO);
- Independent Audit Function includes the role and responsibilities of internal audit on AML & CFT compliance and External Audit Function;
- Awareness building program including training, workshop, seminar for bank's employees, member of the Hon'ble Board of Directors, owners and above all for the customers on AML & CFT issues.
- All accounts are opened after on-line Screening against UNSCR sanctions/banned list/OFAC list.
- Enhanced Due Diligence (EDD) are also followed to maintain PEPs/ IPs accounts, Non-face to face Customers, Correspondent Banking relationship, Cross Boarder Wire Transfer, intermediary Identification, Non-Profit business and NGO accounts etc.
- Introduced verification of the authenticity of NID at operation level.
- Record keeping & documentation is to be ensured as per laws of the country.

All the trainings and workshops to be conducted with a view to enrich the knowledge of the branches and divisions of Head Office, which helps to ensure AML & CFT compliance.

In fact, Jamuna Bank Limited has been giving immense importance from the date of inception on the Compliances for prevention of Money Laundering & Financing of Terrorism and strengthening the AML and CFT issues.

In this regard Mr. A. K. M. Saifuddin Ahmed, Deputy Managing Director & an experienced Banker has been assigned with the responsibility as CAMLCO of Jamuna Bank. By dint of taking all measures persistent effort will be helpful to fight against of ML, TF & PF of weapons for mass destruction threat and make our bank as the best Compliant Bank in the coming days.

ISLAMI BANKING ACTIVITIES OF THE BANK

Besides conventional banking, Jamuna Bank Limited is pursuing Islami Banking activities based on Islami Shariah principles. The first Islami Banking branch of the Bank was opened on October 25, 2003 at Nayabazar in Dhaka. Afterwards it's second branch was opened on November 27, 2004 at Jubilee Road in Chittagong.

The Bank has been rendering Islami Banking services to the customers through these two branches with adherence to the Islami values and norms. To achieve this goal a Shariah Supervisory Committee has been constituted comprising renowned Islami scholars of the country and senior banker having Islami Banking exposure in depth knowledge of conventional and Islami Banking. All activities of Islami Banking branches are carried out under the guidance of this Committee. A full-fledged separate Division namely "Islami Banking Division" has also been set up at Head Office as per Guideline for Islamic Banking issued by Bangladesh Bank, BRPD Circular No. 15 dated November 09, 2011. The major functions of the Division are as follows:

- 1. Framing of Islami Banking rules and regulations and ensuring their implementations.
- 2. Maintaining co-ordination with the Shariah Supervisory Committee and the other divisions of the Bank.
- 3. Ensuring investment of funds received for Islami Banking business under modes approved by Islami Shariah.
- 4. Arrangement to be made to train up the manpower deployed in the Islami Banking Branches.
- 5. Submission of required statements to the Central Bank.
- 6. Supervising the Islami Treasury Function.

- 7. Conducting Shariah Audit/Inspection of the Islami Banking Branches.
- 8. Issuing circulars/ guidelines, etc. and updating the same as per Islami Shariah from time to time.
- 9. To maintain co- ordination with the Central Shariah Board for Islami Banks of Bangladesh.
- 10. Actualization of rates of profit as per principles of Islami Shariah.
- 11. Complying of any other responsibility (ies), as may be assigned from time to time.

Besides these, considering demand of the people of the country, Islami Banking Service Center namely Al-Ihsan has been extended at twenty three conventional branches linked with the above mentioned two Islami Banking Branches.

Marketing & Development Division (MDD) is playing a significant role in promoting retail products, developing customer base and enhancing the existing market towards achieving the profitability targets of our Bank. Day by day it is also creates an overarching image in the industry which contributes to delight the customers, multi-stakeholders and many others relations.

MDD was incepted in 2012 and started with the business of retail liabilities marketing which involved in acquiring a various CASA & FDR accounts. It is an immense pleasure of

Capacity Building Orientation for Sales Executives in CHT Region

In 2017 the vibrant management of the Bank reorganized the strategies and tagged the credit card along with the existing business which added a new value in MDD. The targeted customers are also become very happy to get the new offer from the same group of marketing people. The MDD implemented the management aspiration very successfully and continue for a couple of months. In August 2017, the management added another product like – Retail Loans (Salary Loan, Personal Loan, Any Purpose Loan, Home Loan and Doctor Loan etc.) in MDD as a part of improvement of the

MDD that it's being able to bring the customers from door to door marketing during the Branch Opening campaign, School Banking campaign, Liabilities Marketing campaign and many others target oriented business campaigns. All of these experiences and strategies are help-shaping the further initiatives in retail business. Up to 2016 the MDD were running by its founding methodology and always achieved its set targets in respect to aloft the retail deposits portfolio in an excellent position. During the reporting period it was brought the total 39354 accounts with a volume of Tk. 247 crores which contained the CD, SND, SB, DPS and FDR accounts.

Annual Motivational Session for the Sales Executives

Bank's Retail Business. It was really a fantastic and substantial decision of the management to bring out more retail business to increase the overall growth of our Bank. As a result of this great and competitive initiative Jamuna Bank Ltd is able to start a full-fledged Retail Business with the diversified products. It is mentionable that, within the heavy market competitions and changes of strategies the MDD acquired a number of good businesses for the Bank in 2017. A summary of annual business can be given for the interested audiences and stakeholder in the below table;

Reporting Year	Accounts (Qty) (CASA & FDR)	Volume (in Crore) (CASA & FDR)	Credit Cards (Qty)	Retails Loans (Tk in Crores) (Aug-Dec'17)
2017	33941	255.67	808	19.00

However, to achieve the above result was a very challenging job for the MDD, but it was possible due to the kind cooperation of the concerned Management, motivated Team Leader, Regional Sales Managers, Sales Team Managers and the number of Sales Executives those who are working as a key striking forces in the field. Beyond that, there are many of us those who were contributed a lot to grow the retail business smoothly like-RBD, Cards and Branches etc.

The MDD is always focused on its set targets. It has taken various initiatives for improvement the retail business gradually, such as-

 Organizing Learning & Motivational Sessions of the Sales Executives;

- Visiting the potential customers for different types of retail loans;
- Strengthening of inter-personal relationship building with people of various branches and departments/ divisions;
- Closely Monitoring the business outputs by generating weekly and monthly reports;
- ▶ Solving business related problems by team works etc.

The MDD and its Vigorous Team is envisioning being a great organ of this Bank by showing the high efficiency services, dedications and team speed to achieve the milestones.

INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS OF JAMUNA BANK LIMITED

We have audited the accompanying consolidated financial statements of Jamuna Bank Limited and its subsidiaries (the "Group") as well as the separate financial statements of Jamuna Bank Limited (the "Bank") which comprise the consolidated and separate Balance Sheets as at 31 December 2017, consolidated and separate profit and loss accounts, consolidated and separate statements of changes in equity and consolidated and separate cash flow statements for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of consolidated financial statements of the Group and also separate financial statements of the Bank that give a true and fair view in accordance with Bangladesh Financial Reporting Standards (BFRSs) as explained in Note 2 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements of the Group and also separate financial statements of the Bank that are free from material misstatement, whether due to fraud or error. The Bank Companies Act, 1991(as amended in the year 2013) and the local central bank (Bangladesh Bank) Regulations require the Management to ensure effective internal audit, internal control and risk management functions of the Bank. The Management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements of the Group and the separate financial statements of the Bank based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements of the Group and the separate financial statements of the Bank are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements of the Group and separate financial statements of the Bank. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements of the Group and the separate financial statements of the Bank, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of consolidated financial statements of the Group and separate financial statements of the Bank that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements of the Group and the separate financial statements of the Bank.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and also separate financial statements of the Bank give a true and fair view of the consolidated financial position of the Group and the separate financial position of the Bank as at 31 December 2017, and of its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs) as explained in note 2.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, Securities, and Exchange Rules 1987, the Bank Companies Act 1991(as amended in the year 2013) and the rules and regulations issued by Bangladesh Bank, we also report that:

i. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

- ii. to the extent noted during the course of our audit work performed on the basis stated under the Auditors' Responsibility section in forming the above opinion on the consolidated financial statements of the Group and the separate financial statements of the Bank and considering the reports of the Management to Bangladesh Bank on anti-fraud internal controls and instances of fraud and forgeries as stated under the Management's Responsibility for the Financial Statements and Internal Control:
 - a) internal audit, internal control and risk management arrangements of the Group and the Bank as disclosed in Notes 2 to the financial statements appeared to be materially adequate; and
 - b) nothing has come to our attention regarding material instances of forgery or irregularity or administrative error and exception or anything detrimental committed by employees of the Bank and its related entities other than matters disclosed in these financial statements;
- iii. financial statements of all subsidiaries of the Bank have been audited by other auditors and have been properly reflected in the consolidated financial statements;
- iv. in our opinion, proper books of account as required by law have been kept by the Group and the Bank so far as it appeared from our examination of those books;
- v. the consolidated balance sheet and consolidated profit and loss account of the Group and the separate balance sheet and separate profit and loss account of the Bank together with the annexed notes dealt with by the report are in agreement with the books of account;
- vi. the expenditure incurred was for the purpose of the Bank's business;
- vii. the consolidated financial statements of the Group and the separate financial statements of the Bank have been drawn up in conformity with prevailing rules, regulations and accounting standards as well as related guidance issued by Bangladesh Bank;
- viii. provisions as explained in note 8.8.1 and 13 have been made for the loan and advances, other assets, and off balance sheet items which are, in our opinion, doubtful of recovery;
- ix. the records and statements submitted by the branches have been properly maintained and consolidated in the financial statements;
- x. the information and explanations required by us have been received and found satisfactory;
- xi. we have reviewed over 80% of the risk weighted assets of the Bank and we have spent around 6,453 person hours for the audit of the books and accounts of the Bank.

2.00 Basis of preparation of the financial statements

2.01 Statement of compliance

2.01.1 Departures from BFRS

The financial statements of the Bank are prepared on a going concern basis under historical cost convention and in accordance with First Schedule (Sec-38) of the Bank Companies Act, 1991, as amended by Bangladesh Bank (Central Bank) vide BRPD Circular No. 14 dated 25 June 2003, other circulars of Bangladesh Bank, Bangladesh Accounting Standards (BAS), the Companies Act, 1994, the Listing Rules of the Stock Exchange, the Securities and Exchange Rule 1987 and other laws and regulations applicable in Bangladesh. In case any requirement of provisions and circulars issued by Bangladesh Bank differs with those of other regulatory authorities, the provisions and circulars issued by Bangladesh Bank shall prevail.

As such the Group and the Bank have departed from those contradictory requirements of BFRSs in order to comply with the rules and regulations of Bangladesh Bank which are disclosed below:

i) Investment in shares and securities

BFRS: As per requirements of BAS 39 investment in shares and securities generally falls either under "at fair value through profit and loss account" or under "available for sale" where any change in the fair value (as measured in accordance with BFRS 13) at the year-end is taken to profit and loss account or revaluation reserve respectively.

Bangladesh Bank: As per BRPD circular no. 14 dated 25 June 2003 investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet respectively. Provision should be made for any loss arising from diminution in value of investment; otherwise investments are recognized at costs.

ii) Revaluation gain/loss on Government securities

BFRS: As per requirement of BAS 39 where securities T-bills and T-bonds will fall under the category of "held for trading", any change in the fair value of held for trading assets is recognized through profit and loss account.

Securities T-bills designated as held to maturity are measured at amortized cost method and interest income is recognized through the profit & loss account.

Bangladesh Bank: HFT securities are revalued on the basis of mark to market and at year end any gains on revaluation of securities which have not matured as at the balance sheet date are recognized in other reserves as a part of equity and any losses on revaluation of securities which have not matured as at the balance sheet date are charged in the profit and loss account. Interest on HFT securities including amortization of discount are recognized in the profit and loss account. HTM securities which have not matured as at the balance sheet date are amortized at the year end and gains or losses on amortization are recognized in other reserve as a part of equity.

iii) Provision on loans and advances

BFRS: As per BAS 39 an entity should start the impairment assessment by considering whether objective evidence of impairment exists for financial assets that are individually significant. For financial assets are not individually significant, the assessment can be performed on an individual or collective (portfolio) basis.

Bangladesh Bank: As per BRPD circular no. 14 dated 23 September 2012, BRPD circular no. 19 dated 27 December 2012 and BRPD circular no. 05 dated 29 May 2013 a general provision at 0.25% to 5% under different categories of unclassified loans (good/standard loans) has to be maintained regardless of objective evidence of impairment. Also provision for sub-standard loan, doubtful loans and bad losses has to be provided at 20%, 50% and 100% respectively for loans and advances depending on the duration of overdue. Again as per BRPD circular no. 10 dated 18 September 2007, a general provision at 1% is required to be provided for all off-balance sheet exposures. Such provision policies are not specifically in line with those prescribed by BAS 39.

iv) Recognition of interest in suspense

BFRS: Loans and advances to customers are generally classified as 'loans and receivables' as per BAS 39 and interest income is recognized through effective interest rate method over the term of the loan. Once a loan is impaired, interest income is recognized in profit and loss account on the same basis based on revised carrying amount.

Bangladesh Bank: As per BRPD circular no. 14 dated 23 September 2012, once a loan is classified, interest on such loans are not allowed to be recognized as income, rather the corresponding amount needs to be credited to an interest in suspense account, which is presented as liability in the balance sheet.

v) Other comprehensive income

BFRS: As per BAS 1 Other Comprehensive Income is a component of financial statements or the elements of Other Comprehensive Income are to be included in a Single Comprehensive Income (OCI) Statement.

Bangladesh Bank: Bangladesh Bank has issued templates for financial statements which will strictly be followed by all banks. The templates of financial statements issued by Bangladesh Bank do not include Other Comprehensive Income nor are the elements of Other Comprehensive Income allowed to include in a Single Comprehensive Income (OCI) Statement. As such the company does not prepare the other comprehensive income statement. However elements of OCI, if any, are shown in the statements of changes in equity.

vi) Provision for Gratuity

BFRS: As per BAS 19, actuarial valuation has to be carried out with sufficient regularity to ensure that the provision for gratuity is accounted for fairly. Moreover, provision has to be maintained for gratuity for all of its employees from their date of joining.

Bangladesh Bank: The company has a policy to pay gratuity on the basis of last basic pay and is payable at the rate of two months basic pay for every completed year of service upon fulfilling the eligibility criteria. The eligibility criteria of accounting for gratuity is 6 (six) years of continued service with the Bank or a period of 3 (three) years with any other Bank and 3 (three) years with Jamuna Bank Limited. The Bank management has accounted for gratuity using this system instead of accounting for gratuity from the year of joining as per BAS 19.

vii) Financial instruments - presentation and disclosure

In several cases Bangladesh Bank guidelines categorize, recognize, measure and present financial instruments differently from those prescribed in BAS 39. As such some disclosure and presentation requirements of BFRS 7 and BAS 32 cannot be made in the accounts.

viii) Repo transactions

BFRS: When an entity sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a deposit, and the underlying asset continues to be recognized in the entity's financial statements. This transaction will be treated as loan and the difference between selling price and repurchase price will be treated as interest expense.

Bangladesh Bank: As per BRPD guidelines, when a bank sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a normal sales transactions and the financial assets are derecognized in the seller's book and recognized in the buyer's book.

ix) Financial guarantees

BFRS: As per BAS 39, financial guarantees are contracts that require an entity to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantee liabilities are recognized initially at their fair value, and the initial fair value is amortized over the life of the financial guarantee. The financial guarantee liability is subsequently carried at the higher of this amortized amount and the present value of any expected payment when a payment under the guarantee has become probable. Financial guarantees are included within other liabilities.

Bangladesh Bank: As per BRPD 14, financial guarantees such as L/C, L/G will be treated as Off-Balance Sheet items. No liability is recognized for the guarantee except the cash margin.

x) Cash and cash equivalent

BFRS: Cash and cash equivalent items should be reported as cash item as per BAS 7.

Bangladesh Bank: Some cash and cash equivalent items such as 'money at call and on short notice', Treasury bills, Prize bond are not shown as cash and cash equivalent. Money at call and on short notice presented on the face of the balance sheet, and Treasury bills, Prize bonds are shown in Investments.

xi) Non-banking asset

BFRS: No indication of Non-banking asset is found in any BFRS.

Bangladesh Bank: As per BRPD 14, there must exist a face item named Non-banking asset.

xii) Cash flow statement

BFRS: Cash flow statement can be prepared using either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently.

Bangladesh Bank: As per BRPD 14, cash flow is the mixture of direct and indirect method.

xiii) Balance with Bangladesh Bank: (CRR)

BFRS: Balance with Bangladesh Bank should be treated as other asset as it is not available for use in day to day operations as per BAS 7.

Bangladesh Bank: Balance with Bangladesh Bank is treated as cash and cash equivalents.

xiv) Presentation of intangible asset

BFRS: Intangible asset must be identified and recognized, and the disclosure must be given as per BAS 38.

Bangladesh Bank: There is no requirement for regulation of intangible assets in BRPD 14.

xv) Off-balance sheet items

BFRS: There is no concept of off-balance sheet items in any BFRS; hence there is no requirement of disclosure of off-balance sheet items on the face of the balance sheet.

Bangladesh Bank: As per BRPD 14, off balance sheet items (e.g. Letter of credit, Letter of guarantee etc.) must be disclosed separately in face of balance sheet.

xvi) Disclosure of appropriation of profit

BFRS: There is no requirement to show appropriation of profit in the face of statement of comprehensive income.

Bangladesh Bank: As per BRPD 14, an appropriation of profit should be disclosed in the face of profit and loss account.

xvii) Loans and advance (net of provision)

BFRS: Loans and advances should be presented net of provisions.

Bangladesh Bank: As per BRPD 14, provision on loans and advances are presented separately as liability and cannot be netted off against loans and advances.

The financial statements of the Islamic banking branches have also been prepared as per Bank Companies Act 1991, BFRSs and other prevailing laws and regulations applicable in Bangladesh.

xviii) Provision of rebate for good borrower

BRPD Circular Letter No. 03 dated 16 February 2016 was issued by the Bangladesh Bank which instructed Banks to provide 10% rebate on the interest collected from good borrowers as defined in BRPD Circular No. 06 dated 19 March 2015, subject to some qualifying criteria. The aforementioned circular goes on to clarify that such rebate may be availed to the good borrowers. During the year 2017, Tk.50.00 lac kept as provision for good borrower by the Bank.

xix) Provision for climate risk fund

GBCSRD Circular No. 04 dated 9 July 2015 was issued by Bangladesh Bank which instructed Banks to maintain a climate fund of 10% of the CSR budget. During the year ended 31 December 2017, the bank kept provision inline with the circular.

2.01.2 The Bank's compliance with related pronouncements by Bangladesh Bank:

i) Internal control

The objective of internal control is to ensure that management has reasonable assurance that (i) operations are effective, efficient and aligned with strategy, (ii) financial reporting and management information is reliable, complete and timely accessible, (iii) the entity is in compliance with applicable Laws and Regulations as well as its internal policies and ethical values including sustainability, and (iv) assets of the company are safeguarded and frauds, forgeries & errors are prevented or detected.

Jamuna Bank has established an effective internal control system whose primary aim is to ensure the overall control of risks and provide reasonable assurance that the objectives set by the Bank will be met. It has designed to develop a high level risk culture among the personnel of the Bank, establish efficient and qualified operating model of the Bank, ensure reliability of internal and external information including accounting and financial information, secure the Bank's operations and assets, and comply with laws, regulatory requirements and internal policies.

The Board of Directors of Jamuna Bank, through its Audit Committee, periodically reviews the effectiveness of Bank's internal control system covering all the material controls, including financial, operational and compliance controls, risk management systems, the adequacy of resources, qualifications and experience of staff of the accounting and financial reporting function, training programs, budget, etc. The Board Audit Committee reviews the actions taken on internal control issues identified by the Internal & External Auditors and Regulatory Authorities. It has active oversight on the internal audit's independence, scope of work and resources and it also reviews the functions of Internal Control & Compliance Division of Head Office, particularly the scope of the annual audit plan and frequency of the internal audit activities.

During the year 2017, ICCD conducted inspection on most of the Branches/ Divisions of Head Office of the Bank and submitted reports presenting the findings of the audits/ inspections. The bank conducted the risk grading of branches as per Bangladesh Bank guideline. The ICCD plan and perform the audit accordingly. Necessary control measures and corrective actions have been taken on the suggestions or observations made in these reports. The reports or key points of the Reports have also been discussed in the meetings of the Audit Committee of the Board and necessary steps have been taken according to the decision of the said Committee for correct functioning of Internal Control & Compliance.

ii) Internal audit

Internal Audit is the continuous and systematic process of examining and reporting on the activities of an organization undertaken by the specially assigned officers. Internal Auditor works as the Eyes & Ears of the Management.

Internal Audit Mechanism is used as an important element to ensure good governance of JBL. Internal Audit Activity of JBL is effective and it provides Senior Management with a number of important services. These include detecting and preventing fraud, testing internal control, Monitoring and compliance with own policies & procedures, applicable rules & regulations, instructions/guidelines of Regulatory Authority etc. Our team carry out Comprehensive inspection, Special inspection & Surprise inspection and investigation, etc. in order to help avoiding any fraudulent activities which in turn would strengthen the bank to set up sound structural base.

iii) Fraud and forgeries

Fraud can happen anywhere. Though, only relatively few major frauds are picked up by the media, huge sums are lost by all kinds of businesses against large number of frauds. The risks of fraud is increasing day by day as a result of growing globalization, more competitive markets, rapid developments in technology, periods of economic difficulty, etc. Banks by virtue of the nature of activities undertaken and its operating environment are vulnerable to frauds, which takes place when aggressive business strategy and process for quick growth is adopted without adequate/ appropriate internal controls or non-adhering to operating standards/ controls. In the recent past, incidence of frauds in the Banking industry has increased to some extent, which calls for concerted steps in investigating the frauds and identifying the fraudsters for eventual criminal prosecution and internal punitive action.

It will never be possible to eliminate all frauds and no system is completely fraud proof, since many fraudsters are able to bypass control systems put in place. JBL pays attention on anti-fraud internal controls for prevention of fraud and forgery. JBL assesses /evaluates the effectiveness of its Anti-Fraud Internal Control measures on quarterly basis as per the items/ areas mentioned in the prescribed checklist of Bangladesh Bank.

iv) Risk management

The risky nature of Banking business has caused the Central Bank to be much concerned about the risk factors affecting the financial position of the banks. In this connection every Central Bank has come forwarded to establish a general framework to defeat risk factors considering the laws of the land. Bangladesh bank has also undertaken an overall core-risk management project under which every bank is bounded to the authoritative covenants to install risk management system.

Jamuna Bank Limited has established approved policies in compliance with Central bank's guidelines covering major areas such as (i) Credit risk management (b) Foreign exchange risk management (c) Asset liability management (d) Money laundering risk (e) Internal control & compliance (f) Information and communication technology security risk.

Jamuna Bank Limited has adopted Risk Management Guidelines formulated by Bangladesh Bank. The purpose of the guidelines is to inform management about the loopholes of full fledged implementation of Core risks management, improve risk management culture, restructure minimum standards and assist in the ongoing improvement.

In compliance with the requirements of Bangladesh Bank guidelines, Risk Management Division monthly prepare Risk Management Paper (RMP) and the paper is reviewed in the meeting of Risk Management Committee to have their opinion/decision on the issues identified in RMP.

2.02 Functional and presentation currency

These financial statements are presented in Bangladesh Taka, which is the Bank's functional currency. Except as otherwise indicated, financial information presented in Taka has been rounded to the nearest integer.

2.03 Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates is revised and in any future periods affected.

2.04 Reporting period

These financial statements cover one calendar year from 01 January 2017 to 31 December 2017.

- at fair value; or
- at their proportionate share of the acquiree's identifiable net assets, which are generally at fair value.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. Adjustments to non-controlling interests are based on a proportionate amount of the net assets of the subsidiary.

Subsidiaries are the entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

3.02 Assets and basis of their valuation

3.02.1 Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with Bangladesh Bank and its agent bank, balance with other banks and financial institutions, money at call and on short notice, investments in treasury bills and prize bond.

3.02.2 Investments

ii. Other than short term agri. credit & micro credit	20%
b. Doubtful loans and advances	
i. Short term agri. credit & micro credit	5%
ii. Other than short term agri. credit & micro credit	50%
c. Bad/Loss loans and advances	100%

Loans and advances are written off to the extent that there is no realistic prospect to recovery as per guideline of Bangladesh Bank. However, write off will not reduce the claim against the borrower. Detailed records for all such write off accounts are maintained.

3.02.4 Property, plant and equipment and their depreciation

Recognition and measurement

Items of fixed assets excluding land are measured at cost/revaluation less accumulated depreciation and accumulated impairment losses, if any. Land is measured at cost/revaluation.

Cost includes expenditure that are directly attributable to the acquisition of asset and bringing to the location and condition necessary for it to be capable of operating in the intended manner.

When parts of an item of fixed asset have different useful lives, they are accounted for as separate items (major components) of fixed assets.

The gain or loss on disposal of an item of fixed asset is determined by comparing the proceeds from disposal with the carrying amount of the item of fixed asset, and is recognized in other income/other expenses in profit or loss.

Property, Plant and Equipment are recognized as assets in accordance with Bangladesh Accounting Standards (BAS) 16 "Property Plant and Equipment".

Subsequent costs

The cost of replacing a component of an item of fixed assets is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of fixed assets are recognized in profit or loss as incurred.

Depreciation

During the period under audit, depreciation is charged at the following annual rates on straight-line method on all fixed assets except land. Depreciation has been charged on addition during the period when respective assets put into use and in case of sale, up to the date of sale.

Name of the assets	Rate of depreciation	
Building	2.50%	
Furniture & fixture	10%	
Office equipment	15%	
Computer	15%	
Motor vehicle	20%	
Books	20%	

3.02.5 Other Assets

Other assets include all balance sheet accounts not covered specifically in other areas of the supervisory activity and such accounts may be quite insignificant in the overall financial condition of the Bank.

3.02.6 Non-banking assets

Non-banking assets are acquired on account of the failure of a borrower to repay the loan on time after receiving the decree from the Court regarding the right and title of the mortgage property. The Bank has been awarded ownership of the mortgage properties according to the verdict of the Honorable Court in accordance with the section 33 (7) of "Artharin Adalat-2003". The value of Non-Banking Assets has been determined and reported in the financial statements on the basis of valuation report of an Independent valuer.

3.03 Liabilities and basis of their valuation

3.03.1 Deposits and other accounts

Deposits by customers and banks are recognized when the bank enters into contractual provisions of the arrangements with the counter parties, which is generally on trade date, and initially measured at the consideration received.

3.03.2 Other liabilities

Other liabilities comprise items such as provision for loans and advances/investments, provision for taxation, interest payable, interest suspense, accrued expenses, obligation under finance lease etc. Other liabilities are recognised in the balance sheet according to the guidelines of Bangladesh Bank, Income Tax Ordinance 1984 and internal policy of the Bank.

3.03.2 Provision for liabilities

A provision is recognized in the balance sheet when the bank has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefit will be required to settle the obligations, in accordance with the BAS - 37 "Provisions, Contingent Liabilities and Contingent Assets".

3.03.3 Share Capital

Ordinary shares are classified as equity when there is no contractual obligation to transfer cash or other financial assets.

3.03.4 Authorised Capital

Authorised capital is the maximum amount of share capital that the Bank is authorised by its Memorandum and Articles of Association.

3.03.5 Paid up Capital

Paid up capital represents total amount of shareholders' capital that has been paid in full by the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding-up of the Bank, ordinary shareholders are ranked after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

3.04 Minority interest in subsidiaries

Minority interest in business is an accounting concept that refers to the portion of a subsidiary corporation's stock that is not owned by the parent corporation. The magnitude of the minority interest in the subsidiary company is always less than 50% of the outstanding shares, else the corporation would cease to be a subsidiary of the parent. Minority interest is reported on the consolidated income statement as a share of profit belonging to minority shareholders.

3.05 Statutory reserve

The Bank Companies Act, 1991 requires the bank to transfer 20% of its current year's profit before tax to reserve until such reserve equals to its paid up capital. The Bank transferred 20% of its profit before tax for the year 2017 to statutory reserve account.

3.06 Contingent liabilities, commitments and other off-balance sheet settlements

A contingent liability is -

A possible obligation that arises form past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank; or

A present obligation that arises from past events but it is not recognized because:

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
 or
- the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognized but disclosed in the financial statements unless the possibility of an outflow of resources embodying economic benefits is reliably estimated.

3.07 Revenue recognition

The revenue during the period under audit is recognized satisfying the conditions as specified in Bangladesh Accounting Standards (BAS) 18 "Revenue Recognition". Details are as under:

3.07.1 Interest/profit income

- i. Interest is calculated on daily product on unclassified loans and advances but charged on quarterly and monthly basis, where applicable.
- ii. Interest is charged on classified loans and advances by crediting interest suspense account as per BRPD Circular No 16 of 1998 and such interest is taken into income account upon realization. Interest on credit card outstanding is calculated on daily product but charged on monthly basis.
- iii. Commission and discounts on bills purchased and discounted are recognized at the time of realization.
- iv. For Islamic Banking, profit is charged on unclassified investments on daily product basis and charged to the clients on quarterly and monthly basis, where applicable.
- v. Islamic Banking branches calculate profit on classified investments and credits the same to profit suspense account until realization.

3.07.2 Fees, commission and discounts income

Fees, commission and discounts on bills purchased and discounted are recognized at the time of realization.

3.07.3 Investment income

Interest income on investments is recognized on accrual basis. Capital gain on investments in shares is also included in investment income. Capital gain is recognized when it is realized.

3.08 Interest/profit paid and other expenses

In terms of the provisions of BAS-1 "Presentation of Financial Statements" interest/profit and other expenses are recognized on accrual basis.

3.09 Taxation

a) Current tax

Provision for current tax has been made @ 40% as prescribed in the Finance Act, 2017 of the profit made by the Bank considering major taxable allowances and disallowances.

b) Deferred tax

Deferred tax is calculated on the taxable/deductible temporary differences between tax base amount and carrying amount of assets and liabilities as required by Bangladesh Accounting Standard (BAS)-12 "Income Taxes".

Deferred tax normally results in a liability being recognized within the Statement of Financial Position. Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

3.10 Provision for nostro accounts

As per instruction contained in the circular letter no. FEPD (FEMO)/01/2005-677 dated September 13, 2005 issued by Foreign Exchange Policy Department of Bangladesh Bank, Bank are required to make provision regarding the un-reconciled debit balance of nostro account over more than 3 months as on the reporting date in these financials. Since there is no un-reconciled entries which are outstanding more than 3 months. As such, the Bank does not require to make provision.

3.11 Employee benefits

The retirement benefits accrued for the employees of the Bank during reporting period have been accounted for in accordance with the provisions of BAS-19 "Employees Benefit".

3.11.1 Provident fund

Provident Fund benefits are given to the employees of the Bank in accordance with the locally registered Provident Fund Rules. This Fund is being operated under a Trustee Board. This fund got approval from the National Board of Revenue (NBR) on 28 August 2002. All employees of the bank are contributing 10% of the basic salary as subscription to the fund. The bank also contributes equal amount to the fund.

3.11.2 Employees Welfare Fund

The Bank operates an Employees Welfare Fund and it is operated by a separate Board of Trustees and a Fund Rules of the Bank.

3.11.3 Gratuity

The Bank operates a funded gratuity scheme approved by the National Board of Revenue (NBR) on 04 April 2010. In the Bank gratuity scheme covers all permanent employees of the Bank. The company made provision to meet-up claim of out going employees. The gratuity is calculated on the basis of last basic pay and is payable at the rate of two months basic pay for every completed year of service upon full filling the eligibility criteria instead of accounting for gratuity from the year of joining as per BAS 19. The eligibility criteria for accounting for gratuity is 6 (six) years of continued service with the Bank or a period of 3 (three) years with other Banks and 3 (three) years with Jamuna Bank Limited.

3.11.4 Incentive bonus

An incentive bonus is given to the employees in every year. The incentive bonus amount is paid annually, normally in first month of every following the year and the costs are accounted for in the period to which it relates.

3.12 Number of employees

The number of employees engaged for the whole year or part thereof who received a total yearly remuneration of Tk 36,000 or above were 2,592 in 2017 and 2,452 in 2016.

3.13 Earnings per share (EPS)

Earnings per share have been calculated in accordance with BAS-33: "Earnings per Share". The Group and the Bank present basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group/Bank by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees.

3.14 Reconciliation of inter-bank/books of accounts

Books of Accounts with regard to inter-bank (in Bangladesh & out side Bangladesh) and inter-branch have been reconciled and there is no material difference, which might effect the financial statements significantly.

Reconciliation statement with Bangladesh Bank enclosed in Annexure- A-1.

3.15 Risk management

In banking organization, risk is the possibility that outcome of an action or event could bring up adverse impact. Such outcome could either result in a direct loss of earnings/capital or may result in imposition of constraints on banks'ability to meet their business objectives. Risk is the outcome of losses due to sudden downturn in economy or falling interest rates. Banks have to rely on their capital as a buffer to absorb such losses. The types and degree of risks an organization may be exposed depend upon a number of factors such as its size, complexity business activities, volume etc. Initially Bangladesh Bank has issued guidelines on six core risk areas and accordingly scheduled banks operating in Bangladesh has implemented the guidelines for better risk management practice. Implementation of core risk management guidelines by Jamuna Bank Limited (JBL) and its status are discussed below.

3.15.1 Credit risk management

Credit risk arises while the borrowers or counterparty to a financial transaction fails to discharge an obligation as per agreed covenants, resulting in financial loss to the Bank. Credit exposures may arise from both the banking and trading books as well as Off-Balance sheet exposures. Credit risk is managed in the JBL through a framework that spell out policies and procedures covering the measurement and management of credit risk. There is a clear segregation of duties between transaction originators in the businesses and approvers in the Risk function. All credit exposure limits are approved within a defined credit approval authority framework. Credit policies and standards are considered and approved by the Board of Directors.

Credit rating and measurement

Risk measurement plays a central role, along with judgment and experience, in informing risk taking and portfolio management decisions. It is a primary area for sustained investment and senior management attention. The standard credit risk grading (CRG) system is used in both Corporate and SME Banking. The grading is used to assess the client along with a range of quantitative and qualitative factors. Our credit grades against Corporate & Medium clients are supported by external credit grades, and ratings assigned by external ratings agencies.

Credit approval

Major credit exposures to individual borrowers, groups of connected counterparties and portfolios of retail exposures are reviewed by the Head Office Credit Committee (HOCC) and HOCC recommend the loan to the approval authority. All credit approval authorities are delegated by the Board of Directors to executives based on their capability, experience & business acumen. Credit origination and approval roles are segregated in all cases.

Credit monitoring

We regularly monitor credit exposures, portfolio performance, and external trends through relationship and corporate administration team at Branch and Head Office. Internal risk management reports containing information on key environmental, political and economic trends across major portfolios; portfolio delinquency and loan impairment performance; as well as credit grade migration are presented to risk committees (HOCC and PAMC). The HOCC & PAMC meets regularly to assess the impact of external events and trends on the credit risk portfolio and to define and implement our response in terms of appropriate changes to portfolio shape, underwriting standards, risk policy and procedures. Accounts or portfolios are placed on Early Alert (EA) when they display signs of weakness or financial deterioration, for example, where there is a decline in the customer's position within the industry, a breach of covenants, non-performance of an obligation, or there are issues relating to ownership or management.

Such accounts and portfolios are subjected to a dedicated process overseen by the Monitoring & Recovery Division. Account plans are re-evaluated and remedial actions are agreed and monitored. Remedial actions include, but are not limited to, exposure reduction, security enhancement, exiting the account or immediate movement of the account into the control

of Recovery unit. In Retail/Consumer Banking, portfolio delinquency trends are monitored continuously at a detailed level. Individual customer behavior is also tracked and informed in lending decisions. Accounts which are past due are subject to a collections process, monitored in collaboration with the Relationship manager by the Risk function. Charged-off accounts of the Bank are managed by specialist recovery teams.

Concentration risk

Credit concentration risk is managed within concentration caps set for counterparty or groups of connected counterparty, for industry sector; and for product. Additional targets are set and monitored for concentrations by credit committee. Credit concentrations are monitored by the responsible risk committees in each of the businesses and concentration limits that are material to the Bank are reviewed and approved at least annually by the Board of Directors.

Credit risk mitigation

Potential credit losses from any given account, customer or portfolio are mitigated using a range of tools such as collateral, netting agreements, insurance, and other guarantees. The reliance that can be placed on these mitigates is carefully assessed in light of issues such as legal certainty and enforceability, market valuation correlation and counterparty risk of the guarantor. Risk mitigation policies determine the eligibility of collateral types. Collateral types which are eligible for risk mitigation include: cash; residential, commercial and industrial property; fixed assets such as motor vehicles, plant and machinery; marketable securities; commodities; bank guarantees; and letters of credit. Collateral is valued in accordance with our credit policy, which prescribes the frequency of valuation for different collateral types, based on the level of price volatility of each type of collateral. Collateral held against impaired loans is maintained at fair value.

3.15.2 Foreign exchange risk

Foreign exchange risk is the risk that an investment's value changing due to changes in currency exchange rates. The risk that an investor will have to close out a long or short position in a foreign currency at a loss due to an adverse movement in exchange rates. The risk is most acute for businesses that deal in more than one currency. However, other businesses are indirectly exposed to foreign exchange risk if, for example, their business relies on imported products and services.

Foreign exchange risk should be managed where fluctuations in exchange rates impact the business profitability.

Sources of foreign exchange risk:

Foreign exchange risk for a business may arise from a number of sources, including:

- where the business is related to imports or exports
- where other costs, such as capital expenditure, are denominated in foreign currency
- where export bill is received in foreign currency
- where other income, such as royalties, interest, dividends etc, is received in foreign currency
- where the loans are denominated (and therefore payable) in foreign currency
- where the business has offshore assets such as operations or subsidiaries that are valued in a foreign currency, or foreign currency deposits.

Methods of measuring foreign exchange risk:

There are many ways to measure foreign exchange risk, ranging from simple to complex measures. Following are some of the examples of the simpler measures which can be applied and understood by most businesses:

- MIS of foreign currency exposures
- Table of projected foreign currency cash-flows
- Sensitivity analysis
- Value at risk

Like other banks and financial institutions, Jamuna Bank Ltd. is also exposed to Foreign Exchange Risk that sprouts externally due to convergence and divergence of many factors in the international market. The foreign exchange business of the bank, fully backed by the underlying transactions, is well-managed as per Bank's internal risk management policies and guidelines and the guidelines of Bangladesh Bank (Central Bank of Bangladesh). The Asset Liability Management Committee (ALCO) of the bank, headed by the Managing Director & CEO, reviews the risk management position of the bank on regular intervals and provides insights and guidelines to the Treasury Division to manage the foreign exchange risk of the Bank with minimum financial impact.

3.15.3 Asset Liability Management Risk

The Bank has established an Asset Liability Committee (ALCO) contains 10 (ten) members headed by Managing Director. The committee meets at least once in every month. The main responsibilities of ALCO are to look after the Financial Market activities, manage liquidity and interest rate risk, understand the market position and competition etc. The Asset Liability Management Committee also monitored the balance sheet risk. The balance sheet risk is defined as potential changes in earnings due to change in rate of interest and exchange earnings which are not of trading nature. To support ALM process, the most important

strategy of the ALM of the Bank is medium to short-term funding and adequate liquidity both in local and foreign currency all time at the most appropriate funding cost. An important objective of ALCO is to provide cost effective funding to finance the asset growth and trade related transactions, optimize the funding cost, increase spread with the lowest possible liquidity, maturity, foreign exchange and interest rate risks.

3.15.4 Internal control and compliance risk:

Internal controls are the policies and procedures established and implemented alone, or in concert with other policies or procedures, to manage and control a particular risk or business activity, or combination of risks or business activities, to which the Bank is exposed to or in which it is engaged.

Objective of internal control:

The primary objective of internal control system in a bank is to help the bank perform better through the use of its resources. Through internal control system bank identifies its weaknesses and takes appropriate measures to overcome the same. The main objectives of internal control are as follows:

- Efficiency and effectiveness of activities (performance objectives)
- Reliability, completeness and timelines of financial and management information (information objectives)
- Compliance with applicable laws and regulations (compliance objectives), Risk Recognition and Assessment:
- Internal control system has been designed in such a way to recognize and assess all of the material risks that could adversely affect the achievement of the Bank's goals.
- Effective risk assessments identify and consider both internal and external factors.
- Risk assessment by Internal Control System differs from the business risk management process which typically focuses more on the review of business strategies developed to maximize the risk/reward trade-off within the different areas of the Bank. The risk assessment by Internal Control focuses more on compliance with regulatory requirements, social, ethical and environmental risks those affect the banking industry.

3.15.5 Money laundering risk:

Money Laundering Risk is one of the 6(six) core risk elements in banking business. Money Laundering Risk is defined as reputational and legal risk under operational risk and expenses incurred as penalty for being non-complied in prevention of money laundering. In order to manage the AML risk, the bank has set up an effective Anti-Money Laundering programme in line with Anti-Money Laundering Act, 2012 and Bangladesh Bank guidance which has been updated through inclusion of Anti-Terrorist Act, 2012. The Bank has developed manuals for prevention of money laundering and introduced know Your Customer (KYC) program and Transaction Profile (TP) including uniform A/c opening form at branch level for meticulous compliance. The Bank recognizes this risk as a separate classification emphasizing due importance for being compliant on it by way of making conversant of all Executives/Officers through issuing Circulars and providing necessary training of AML and CFT issues by AML Division of the Bank.

Designation of anti money laundering compliance officers (AMLCO):

The Bank has designated a Chief Anti-Money Laundering Compliance Officer (CAMLCO) at its Head Office who is empowered with sufficient authority to implement and enforce anti-money laundering policies, procedures and measures and who reports directly to Senior Management and the Board of Directors. This provides evidence of Senior Management's commitment to efforts to combat money laundering and terrorist financing and more importantly, provides added assurance that the officers have sufficient clout to investigate potentially suspicious activities.

3.15.6 Information communication technology risk

In the year 2017 Bank has taken different initiatives to minimize ICT risks. Throughout the year Bank has initiated different projects considering Risk Management into consideration.

In the year 2012, the ICT Policy of the Bank was revised and amended to cope up with the recent ICT trends and risks. IT Audit Team performed comprehensive IT Audit on different aspects of IT for the Data Centre, Disaster Recovery Site and also for branches. The audit recommendations and suggestions were considered and accordingly steps were taken to minimize associated ICT Risks.

Bank has arranged awareness programs and trainings on the field of ICT Risk and its mitigation for both business and technical human resources, from top management to the trainee officers. The idea behind this practice was to increase average ICT knowledge of the Bank through which probability of occurrence of policy noncompliance in the Bank will be minimized. A special session on ICT Risk Management was organized by Information Technology Division of the Bank.

Bank has amended its Risk Management Policy as per the standard Risk Management frameworks, which has been approved by the Board of Directors of the Bank. Practice of this Risk Management Policy has already been started in the organization in ICT fields in the vision of minimizing the ICT Risks.

Fault tolerant hardware along with high availability infrastructure was considered during procurement of different hardware for commenced Projects of 2013. This will ensure hardware failure risks to minimize.

The pursuit to control ICT risks was repeated throughout the year. This endeavor will further continue in the year 2017.

3.15.7 Interest rate risk

Interest rate risk may arise either from trading portfolio or non-trading portfolio. The trading portfolio of the Bank consists of Government treasury bills of 28 days maturity. The short-term movement in interest rate is negligible or nil. Interest rate risk of non-trading business arises from mismatches between the future yield of an asset and its funding cost. Asset Liability Committee (ALCO) monitors the interest rate movement on a regular basis.

3.15.8 Equity risk

Equity risk arises from movement in market value of equities held. The risks are monitored by Investment Committee under a well designed policy framework. The market value of equities held was, however, lower than the cost price at the balance sheet date

3.15.9 Operational Risk

Operational risk may arise from error and fraud due to lack of internal control and compliance. Management through Internal Control and Compliance Division controls operational procedure of the Bank. Internal Control and Compliance Division undertakes periodical and special audit of the branches and divisions at the Head Office for review of the operation and compliance of statutory requirements. The Audit Committee of the Board subsequently reviews the reports of the Internal Control and Compliance Division.

3.15.10 Risk Management Committee Disclosures

The Board of Directors constituted with the following members of the Risk Management Committee of the Board, the third Committee of the Board besides the Executive Committee and the Audit Committee in accordance with Bank Company (Amendment) Act 2013 and it does comply with the BRPD Circular no. 11, dated October 27, 2013.

50 Highlights on the overall activities of the bank

Highlights on the overall activities of the bank have been furnished in annexure-E.

51. Workers Participation Fund and Welfare Fund

SRO-336-AIN/2010 dated 5-10-2010 issued by the Ministry of Labour and Employment and published in Bangladesh gazatte on 07-10-2010 declaring the status of business of certain institutions and companies (like mobile operating companies, mobile network service providing company, all Govt. and Non-Govt, money lending companies, all insurance companies etc.) as "Industrial Undertakings" for the purpose of Chapter-xv of the Bangladesh Labor Act, 2006 which deals with the workers participation in company's profit by way of Workers Participation Fund and Welfare Fund (WPFWF). The Bangladesh Labor Act, 2006 requires the "Industrial Undertakings" to maintain provision for workers profit participation fund @5% on net profit. However, we have obtained legal opinion from Legal advisor in this regard where it has been stated that Jamuna Bank Limited does not fall under this category. Therefore, no provision in this regard has been made in the financial statements during the year under audit.

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Bangladesh Financial Reporting Standards (BFRSs), Bangladesh Accounting Standards (BAS), the Companies Act 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations and for such internal control as the management determines as necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that

are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view, the financial position of Jamuna Bank Capital Management Limited as at 31 December 2017 and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards.

In the 32 Board meeting held on 02 July 2015, the management reviewed the overall position of the margin loan and made a conclusion that the customers had no ability to pay the loan. As a result, if the interest is charged on the margin Accounts having negative equity, we have to pay Tax @37.5% on the said amount which is ultimately fake income. Considering the reality of the issue, the Board of Jamuna Bank Capital Management Limited (JBCML) is agreed in principle not to impose any interest on the margin Accounts having negative equity effect from June 01, 2015.

<u>AUDITORS' REPORT</u>

Jamuna Bank Securities Limited

Introduction

We have audited the accompanying Financial Statements of *Jamuna Bank Securities Limited*, which comprise the Statement of Financial Position as at 31 December 2017 and the Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Accounting Standards (BAS) and Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSA). Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedure that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements prepared in accordance with Bangladesh Financial Reporting Standard (BFRSs), give a true and fair view of the state of the company's affairs as at 31 December 2017 and of the results of its operations and cash flows for the period then ended and comply with the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations.

We also report that

- (a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
